

Accounting Information Systems / *Fourth Edition*

ESSENTIAL
CONCEPTS
AND
APPLICATIONS

Suriname University of Technology

31051000577302

Wilkinson • Cerullo • Raval • Wong-On-Wing

CONTENTS

PART I

OVERVIEW OF SYSTEMS

1. The Study of Accounting Information Systems 3
2. The Business Environment and the AIS 31
3. AIS Enhancements Through Information Technology and Networks 65

PART II

COMPUTER SYSTEMS FUNCTIONS

4. Data Management 103
5. Computer-Based Transaction Processing 132
6. Database Modeling and Applications 190

PART III

CONTROL CONCEPTS AND PROCEDURES

7. Risk Exposures and the Internal Control Structure 233
8. General Controls and Application Controls 267
9. Security for Transaction/Information Processing Support Systems 307
10. Auditing of Information Systems 341

PART IV

TRANSACTION CYCLES

11. The General Ledger and Financial Reporting Cycle 375
12. The Revenue Cycle 416
13. The Expenditure Cycle 469

PART V

DEVELOPMENT OF INFORMATION SYSTEMS

14. Systems Development 519

Index 581

CD-ROM CONTENTS

Modules

Module 1

Decision Making, Information Needs, and Introduction to Information Processing Support Systems CD-1

Module 2

Decision Support and Expert Systems CD-32

Module 3

The Conversion Cycle CD-69

Module 4

The Human Resource Management Cycle CD-109

Supplements

Supplement 1

Computer Hardware CD-136

Supplement 2

Computer Software CD-149

Supplement 3

Data Communications CD-155

Supplement 4

Microcomputer Systems CD-165

Supplement 5

References CD-177

Appendices

Appendix 2.1

An Overview of the Financial Accounting Cycle CD-182

Appendix 2.2

Document Flowchart for a Manual Procedure CD-184

Appendix 3.1

Other Aspects of Client/Server (C/S) Computing: Middleware, Models of C/S, and Advantages/Limitations CD-189

XIV • CONTENTS

Appendix 3.2

Applications of Networks CD-190

Appendix 3.3

Other Aspects of Specialized
Systems/Networks CD-193

Appendix 3.4

Commercial On-line Networks CD-194

Appendix 3.5

Changes Affecting Organizations and
State-of-the-Art Information Technologies and
the AIS CD-195

Appendix 5.1

Selected Access Methods CD-197

Appendix 6.1

An Illustration of the Normalization Process in a
Relational Data Base CD-200

Appendix 7.1

Frauds CD-203

Appendix 7.2

Computer Viruses and Related Risks CD-206

Appendix 9.1

Examples of Deliverables to Include in
Emergency, Backup, and Recovery Disaster
Contingency Plans CD-207

Appendix 10.1

Auditing-Through-the-Computer-
Approaches CD-208

Appendix 10.2

Recent Developments in Auditing CD-215

Appendix 11.1

Fixed Assets Management Cycle CD-216

Appendix 11.2

Cash Management Cycle CD-223

Appendix 12.1

Manual Processing within the
Revenue Cycle CD-224

Appendix 13.1

Manual Processing within the Expenditure
Cycle CD-233

Appendix 14.1

Techniques for Gathering and Organizing
Facts CD-242

Appendix 14.2

Economic Feasibility Computations CD-250

Appendix 14.3

Systems Design Methodologies and
Techniques CD-253

Appendix 14.4

Network Diagrams CD-258

Appendix 14.5

Management of Systems-Related
Resources CD-261

CD-ROM Problems

Cases

Case A

Datacruncher Office Equipment, Inc. CD-280

Case B

Fraud Detection and Investigation:
Microcomputer Consulting Services CD-288

Case C

Dress ACE! Inc. CD-291
