xiii

1. Milk Processing

1

H. Wayne Modler

1.1 Introduction / 1

1.2 Milk and Whey: Composition and Physicochemical Properties of Protein Components / 2

1.3 Concentration, Fractionation, and Pretreatment Processes for Dairy Protein Streams / 22

1.4 Processing and Application of Value-Added Components Derived from Whey and Milk / 35

References / 75

2. Meat Processing

89

Youling L. Xiong

2.1 Introduction / 89

2.2 Muscle and Fiber Structures / 91

2.3 Muscle Proteins / 94

2.4 Meat Tenderization / 99

2.5 Protein Extraction / 104

2.6	Protein Functionality / 106
2.7	Meat Curing / 114
2.8	Processed Whole Muscle Products / 117
2.9	Restructured Meats / 120
2.10	Comminuted Meat Products / 124
2.11	Low-Fat Meat Products / 134
2.12	Surimi and Surimi-Like Products / 139
2.13	Canned Meats / 140
	<i>References / 141</i>

3. Poultry Processing

147

Louis L. Young and Julie K. Northcutt

3.1	Introduction / 147
3.2	Rearing and Processing of Poultry / 148
3.3	Composition and Structure of Avian Muscle / 156
3.4	Postmortem Changes in Avian Muscle / 159
3.5	Functionality of Poultry Muscle Proteins / 162
3.6	Conclusions and Recommendations / 164
	<i>References / 165</i>

4. Egg Processing

171

Ryo Nakamura and Etsushiro Doi

4.1	Introduction / 171
4.2	Composition of Albumen and Yolk / 171
4.3	Proteins in Albumen / 172
4.4	Proteins in Yolk / 183
4.5	Functional Properties of Egg Proteins / 187
	<i>References / 193</i>

5. Breadmaking

209

Shuryo Nakai and Philip Lee Wing

5.1	Introduction / 209
5.2	Doughmaking Processes / 210

5.3	Dough Rheology / 213	
5.4	Protein Sources / 214	
5.5	Role of Proteins in Breadmaking / 217	
5.6	Protein Interaction with Other Components / 219	
5.7	Molecular Mechanisms of Protein Functions in Baking / 221	
5.8	Statistical Expression of the Breadmaking Relationships / 232	
5.9	Computer-Aided Optimization / 233	
	<i>References / 236</i>	
6.	Cereal Processing	243
	<i>Okkyung Kim Chung and Yeshajahu Pomeranz</i>	
6.1	Amino Acids in Cereal Proteins and Protein Fractions / 243	
6.2	Proteins in Developing and Germinating Cereal Grains and Grain Fractions / 253	
6.3	Functional and Nutritional Characteristics of Processed Cereal Protein Products / 278	
	<i>References / 296</i>	
	<i>General References / 306</i>	
7.	Soybean Processing	309
	<i>Danji Fukushima</i>	
7.1	Introduction / 309	
7.2	Traditional Soy Foods / 311	
7.3	Soy Protein Ingredients / 327	
7.4	The Future of Soy Protein Foods / 337	
	<i>References / 338</i>	
8.	Confectionery	343
	<i>Robert F. Boutin</i>	
8.1	Introduction / 343	
8.2	Confectionery Proteins / 343	
8.3	Caramel / 349	
8.4	Nougats / 356	
8.5	Chocolate Products / 360	

8.6 Gelatin Confections / 369

8.7 Marshmallows / 373

8.8 Toffees / 379

8.9 Other Protein Products / 381

References / 383

General References / 384
