**FUNCTIONAL FOODS & NUTRACEUTICALS SERIES**

# Table of Contents

*Series Editor's Preface* xi

*Preface* xiii

*List of Contributors* xv

- 1. GARLIC CONSTITUENTS AND DISEASE PREVENTION** ..... 1  
A. NAGPURKAR, J. PESCHELL and B. J. HOLUB
1. Introduction 1
  2. Chemical Composition and Chemistry 3
  3. Commercial Garlic Preparations 6
  4. Metabolic Fate of Garlic-Derived Organosulfur Compounds 8
  5. Health Benefits 10
  6. Adverse Effects 15
  7. Conclusion 16
  8. References 16
- 2. CHEMISTRY AND PHARMACOLOGY OF GINSENG AND GINSENG PRODUCTS** ..... 23  
D. D. KITTS
1. Introduction 23
  2. Composition of Ginseng 24
  3. Metabolic Effects of Ginseng 27
  4. Physiological Actions of Ginseng 31

\*

5. Conclusions	38
6. References	38
<b>3. CHEMISTRY, PHARMACOLOGY AND CLINICAL APPLICATIONS OF ECHINACEA PRODUCTS.....</b>	<b>45</b>
R. BAUER	
1. Introduction	45
2. Botanical Aspects and Traditional Use	45
3. Biologically Active Constituents	48
4. Pharmacological Effects of Echinacea Extracts	58
5. Clinical Studies	60
6. Side Effects and Toxicological Considerations	65
7. Summary and Conclusion	66
8. References	66
<b>4. GINGER FOR DRUG AND SPICE PURPOSES.....</b>	<b>75</b>
H. KIKUZAKI	
1. Introduction	75
2. Common Ginger as a Spice	75
3. Ginger Family	75
4. Ginger for Drug Purposes	76
5. Chemistry of Bioactive Components of <i>Zingiber Officinale</i>	77
6. Bioactivity of Ginger Constituents	84
7. Chemistry and Bioactivity of Curcuminoids of the Genus <i>Curcuma</i>	92
8. Bioactivity of Curcuminoids of the Genus <i>Curcuma</i>	94
9. Bioactive Sesquiterpenoids of the Genus <i>Curcuma</i>	96
10. Antioxidant and Anti-Inflammatory Curcuminoids of <i>Zingiber Cassumunar</i>	96
11. Antitumor Promoting Effect of the Component of <i>Alpinia Galanga</i>	99
12. Conclusions	99
13. References	99
<b>5. CHEMISTRY AND PHARMACOLOGY OF FENUGREEK.....</b>	<b>107</b>
Y. SAUVAIRE, P. PETIT, Y. BAISSAC and G. RIBES	
1. Introduction	107
2. Chemical Composition of Fenugreek Seeds	110

3. Pharmacology of Fenugreek 119
4. Conclusions 125
5. References 125
  
- 6. CHEMISTRY, PHARMACOLOGY AND CLINICAL APPLICATIONS OF ST. JOHN'S WORT AND GINKGO BILOBA..... 131**  
G. MAZZA and B. D. OOMAH
  1. St. John's Wort 131
  2. Ginkgo Biloba 146
  3. References 169
  
- 7. VALERIAN, SAW PALMETTO AND GOLDENSEAL AS HERBAL MEDICINES ..... 177**  
S. DIAMOND and G. H. N. TOWERS
  1. Valerian 177
  2. Saw Palmetto 189
  3. Goldenseal 196
  4. References 202
  
- 8. EVENING PRIMROSE OIL: PHARMACOLOGICAL AND CLINICAL APPLICATIONS ..... 213**  
C. L. BROADHURST and M. WINTHER
  1. Introduction 213
  2. Metabolism of Gamma-Linolenic Acid 214
  3. Botanical Sources of Gamma-Linolenic Acid Rich Oils 218
  4. Nutritional Relevance of Evening Primrose Oil 220
  5. Therapeutic Applications of Evening Primrose Oil 230
  6. Conclusions and the Role of EPO in the Future 248
  7. References 251
  
- 9. TEA AS A SOURCE OF DIETARY ANTIOXIDANTS WITH A POTENTIAL ROLE IN PREVENTION OF CHRONIC DISEASES .. 265**  
D. A. BALENTINE and I. PAETAU-ROBINSON
  1. Introduction 265
  2. The Chemistry of Tea Flavonoids 266
  3. Tea as a Dietary Antioxidant 273
  4. Tea and Cardiovascular Health 275
  5. Tea and Cancer Prevention 278

6. Bioavailability of Tea Flavonoids	280
7. References	281
<b>10. BILBERRIES AND BLUEBERRIES AS FUNCTIONAL FOODS AND NUTRACEUTICALS</b> .....	<b>289</b>
M. E. CAMIRE	
1. Introduction	289
2. Chemical Composition	292
3. Biological and Pharmacological Properties	298
4. Improved Nutritional Value	313
5. Conclusions	314
6. References	314
<b>11. LICORICE IN FOODS AND HERBAL DRUGS: CHEMISTRY, PHARMACOLOGY, TOXICOLOGY AND USES</b> .....	<b>321</b>
Z. Y. WANG, M. ATHAR and D. R. BICKERS	
1. History, Production and Consumption	321
2. Chemistry of Licorice	323
3. Cancer Chemopreventive Effect of Licorice	327
4. Pharmacology of Licorice	330
5. Pharmacokinetics and Pharmacodynamics	338
6. Toxicology/Safety Assessment of Licorice	340
7. Some Typical Herbal Formulations and Prescriptions Containing Licorice from the Chinese Pharmacopoeia	341
8. Conclusion	343
9. References	344
<b>12. REGULATION OF HERBAL AND TEA PRODUCTS: INTERNATIONAL PERSPECTIVES</b> .....	<b>355</b>
P. V. HEGARTY	
1. Should Herbal and Tea Products Be Regulated?	355
2. A Brief History of Herbal Product Regulation in the United States	359
3. Dietary Supplement Health and Education Act of 1994 (DSHEA)	362
4. International Comparisons of the Regulation of Botanicals	365
5. Quality and Good Manufacturing Practices	372
6. Advertising Regulations for Herbal Products	373

7. Conclusions	373
8. References	374
<b>13. QUALITY ASSURANCE AND CONTROL FOR THE HERBAL AND TEA INDUSTRY</b> .....	<b>377</b>
P. FEDEC and P. P. KOLODZIEJCZYK	
1. Introduction	377
2. Factors Contributing to Herbal Industry Economics and the Need for Quality Assurance	377
3. Definitions	378
4. Quality Assurance	379
5. Quality/Manufacturing Planning	381
6. Quality Manual	381
7. Elements of a Successful Quality Program	384
8. Quality Control	385
9. Controlling Quality in Crude Herbal and Commercial Products	386
10. Technique Limitations/Challenges	389
11. Developing Precise Quantitative Methods for Specific Marker Compounds in Herbal Products	390
12. Standardization Difficulties	392
13. Special Problems in Controlling Quality	395
14. Conclusion	396
15. References	397
<i>Index</i>	399
