PREFACE	ix
PART I: ABSORPTION AND METABOLISM OF NUTRIENTS	1
CHAPTER 1 Amino Acid and Peptide Transport Systems <i>J.C. Matthews</i>	3
CHAPTER 2 Measurement and Significance of Protein Turnover <i>J.A. Rathmacher</i>	25
CHAPTER 3 Inter-organ Amino Acid Flux <i>C.J. Seal and D.S. Parker</i>	49
CHAPTER 4 Phenethanolamine Repartitioning Agents <i>D.E. Moody, D.L. Hancock and D.B. Anderson</i>	65
CHAPTER 5 Lipid Metabolism <i>J.K. Drackley</i>	97
CHAPTER 6 Glucose Availability and Associated Metabolism <i>R.W. Russell and S.A. Gahr</i>	121
CHAPTER 7 Aspects of Cellular Energetics <i>N.S. Jessop</i>	149
CHAPTER 8 Trace Element Dynamics <i>W.T. Buckley</i>	161
PART II: FEED EVALUATION METHODOLOGIES	183
CHAPTER 9 Use of Near Infrared Reflectance Spectroscopy <i>J.B. Reeves III</i>	185

CHAPTER 10 Gas Production Methods <i>P. Schofield</i>	209
CHAPTER 11 In Sacco Methods <i>P. Nozière and B. Michalet-Doreau</i>	233
CHAPTER 12 Use of Markers <i>J.P. Marais</i>	255
CHAPTER 13 Methods for Measuring Ileal Amino Acid Digestibility in Pigs <i>W.C. Sauer, M.Z. Fan, R. Mosenthin and W. Drochner</i>	279
CHAPTER 14 Rapid Metabolizable Energy Assays <i>J.M. McNab</i>	307
PART III: INTAKE AND UTILIZATION	317
CHAPTER 15 Physiological and Metabolic Aspects of Feed Intake Control <i>J.M. Forbes</i>	319
CHAPTER 16 Feed Intake in Ruminants: Kinetic Aspects <i>W.C. Ellis, D. Poppi and J.H. Matis</i>	335
CHAPTER 17 Feeding Behaviour <i>R.J. Grant and J.L. Albright</i>	365
CHAPTER 18 Anti-nutritional Factors and Mycotoxins <i>J.P.F. D'Mello</i>	383
CHAPTER 19 Feed Enzymes <i>D.I. Officer</i>	405
INDEX	427
