Contents

Preface ix

1 An Introduction to Anatomy 1

Superficial Anatomy 1
Identification of Anatomical Regions 3
Description of Anatomical Directions 3
Description of Sectional Anatomy 5
Location of Body Cavities 6
Anatomical Identification Review 8

2 The Cell 9

Observation of Cellular Anatomy 9
Anatomical Identification Review 10

3 The Tissue Level of Organization 11

Tissues 11
Epithelial Tissue 12
Connective Tissues 16
Muscle Tissues 21
Neural Tissue 23

4 The Integumentary System 24

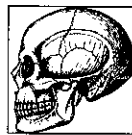

Description of Integumentary Structure 24
Microscopic Examination of the Skin 24
Identification of Integumentary Structures 29
Anatomical Identification Review 29

5 The Skeletal System: Osseous Tissue and Skeletal Structure 31

Structure of Bone: Gross and Histology
Organization 31
Bone Specimen 32
Observation of Osteon Model/Compact Bone,
Ground Thin 32

Classification of Bones 34
Observation of Bone Markings (Surface Features) 36
Anatomical Identification Review 38

6 The Skeletal System: Axial Division 39

Description of the Skeletal System: The Axial
Division 39
The Skull 39
Sutures: The Adult Skull 41
The Adult Skull 42
Sectional Anatomy of the Skull 46
Bones of the Cranium 48
Bones of the Face 52
The Nasal Complex 53
The Paranasal Sinuses 53
The Orbital Complex 54
The Mandible 55
The Hyoid Bone 56
The Skull of an Infant 56
The Vertebral Column 57
Cervical Vertebrae 59
Cervical Vertebrae: Atlas and Axis 60
Thoracic Vertebrae 62
Lumbar Vertebrae 63
The Sacrum and Coccyx 64
The Thoracic Cage 65
Ribs 65
Anatomical Identification Review 67

7 The Skeletal System: Appendicular Division 68

Description of the Pectoral Girdle and
Upper Extremity 68
The Clavicle 68
The Scapula 69
The Arm: Humerus 70
Bones of the Forearm: Ulna and Radius 73
Bones of the Wrist and Hand 74
Description of the Pelvic Girdle and
Lower Extremity 75
Hip Bone: Coxa and the Pelvis 76
The Thigh: Right Femur 79
Patella 82
Bones of the Leg: Tibia and Fibula 82
Bones of the Ankle and Foot 84
Anatomical Identification Review 86

8 **The Skeletal System: Articulations 87**

- Classification of Joints 87
- Intervertebral Articulations 87
- Description of the Glenohumeral (Shoulder) Joint 89
- The Humeroulnar (Elbow) Joint 91
- Description of Articulations of the Wrist and Hand 93
- Observation of the Hip Joint 94
- Description of the Knee Joint 97
- Observation of the Joints of the Ankle and Foot 100
- Anatomical Identification Review 103

9 **The Muscular System: Skeletal Muscle Tissue 104**

- Organization of Skeletal Muscles 104
- Microscopic Identification of the Neuromuscular Junction 104
- Anatomical Identification Review 106

10 **The Muscular System: Muscle Organization and the Axial Musculature 107**

- Observation of the Muscles of the Head and Neck 107
- Location of the Muscles of Facial Expression 108
- Observation of the Extrinsic Eye Muscles 111
- Identification of the Muscles of Mastication 113
- Observation of the Muscles of the Tongue 114
- Observation of the Muscles of the Pharynx 115
- Observation of the Anterior Muscles of the Neck 116
- Observation of the Muscles of the Spine 118
- Observation of the Oblique and Rectus Muscles 121
- Examination of the Diaphragm 124
- Observation of the Muscles of the Pelvic Floor 125
- Dissection of Cat Musculature 129

11 **The Muscular System: The Appendicular Musculature 144**

- Muscles of the Upper Limb 144
- Muscles that Position and Move the Shoulder Girdle 144
- Muscles that Move the Arm 147
- Muscles that Move the Forearm and Hand 149
- Muscles that Move the Hand and Fingers (Extrinsic and Intrinsic Groups) 156

- Muscles of the Lower Limb 160
- Muscles that Move the Thigh: Gluteal Muscles, Lateral Rotators of the Leg, Adductor Group and Iliopsoas Group 161
- Muscles that Move the Leg: Flexors and Extensors 165
- Muscles that Move the Foot and Toes 168
- Muscles of the Foot 174
- Anatomical Identification Review 178

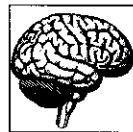

12 **Surface Anatomy 180**

- Regional Approach to Surface Anatomy 180
- Observation of Head and Neck Surface Anatomy 180
- Observation of Thorax Surface Anatomy 183
- Observation of Back and Shoulder Surface Anatomy 184
- Observation of Abdominal Wall Surface Anatomy 185
- Observation of Upper Limb Surface Anatomy 186
 - Arm 187
 - Forearm 187
 - Wrist and Hand 187
- Observation of Lower Limb Surface Anatomy 190

13 **The Nervous System: Neural Tissue 195**

- Description of Neural Tissue 195
- Observation of a Multipolar Neuron 196
- Microscopic Observation of Neural Tissue 196
- Anatomical Identification Review 198

14 **The Nervous System: The Spinal Cord and Spinal Nerves 199**

- Gross Anatomy of the Spinal Cord, Spinal Nerves, and Spinal Meninges 199
- Observation of the Spinal Cord, Spinal Nerves, and Meninges 201
- Sectional Anatomy of the Spinal Cord: Microscopic Identification 202
- Gross Sectional Anatomy of the Spinal Cord and Meninges 203
 - Nerve Plexuses 203
 - Cervical Plexus 204
 - Brachial Plexus 205
 - Lumbosacral Plexus 209

Lumbar Plexus 209

Sacral Plexus 210

Anatomical Identification Review 214

15 The Nervous System: The Brain and Cranial Nerves 215

Organization of the Brain: Major Regions and Landmarks 215

Observation of the Meninges 217

Observation of the Ventricles, Choroid Plexus, and Circulation of Cerebrospinal Fluid 220

Observation of the Telencephalon (Cerebrum) 222

Observation of the Cerebral Cortex 223

The Neural Cortex 224

Observation of the Central White Matter 225

Observation of the Cerebral Nuclei 226

Observation of the Limbic System 226

Observation of the Diencephalon (Thalamus and Hypothalamus) 227

Observation of the Mesencephalon (Midbrain) 228

Observation of the Metencephalon (Cerebellum and Pons) 229

Observation of Cerebellar Cortex 230

Observation of the Myelencephalon (Medulla Oblongata) 231

Observation of the Cranial Nerves 232

Anatomical Identification Review 237

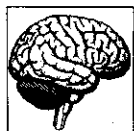

16 The Nervous System: Pathways and Higher-Order Functions 239

Observation of Sensory and Motor Pathways 239

Motor Pathways: Pyramidal and Extrapyramidal Systems 240

Hemispheric Specialization: The Functional Areas of the Cerebral Cortex 242

Anatomical Identification Review 244

17 The Nervous System: Anatomic Division 245

The Autonomic Nervous System 245

Observation of the Sympathetic and Parasympathetic Divisions of the Autonomic Nervous System 245

Observation of Sympathetic Chain (Paravertebral) and Ganglia in the Thorax 246

Observation of Prevertebral (Collateral) Ganglia of the Sympathetic Chain 248

Observation of the Autonomic Nerve Plexuses 249

Anatomical Identification Review 251

18 The Nervous System: General and Special Senses 252

Observation of the General Senses of the Skin 253

Microscopic Observation of Skin Sensory

Receptors 254

Observation of the Sense Organ for Olfaction (Smell) 255

Microscopic Observation of Olfactory Receptors 256

Observation of the Tongue 257

Observation of Cranial Nerves of Gustation 258

Microscopic Observation of Gustatory (Taste Buds) Receptors 258

Observation of Ear Anatomy 259

The External Ear 259

The Middle Ear 260

The Inner Ear 263

Microscopic Observation of Cochlea and Organ of Corti 264

Observation of Eye Anatomy 266

Observation of Accessory Structures of the Eye 266

Observation of the Extrinsic Eye Muscles 268

Sectional Anatomy of the Eye 270

Microscopic Observation of Retina 273

Anatomical Identification Review 275

19 The Endocrine System 276

Observation of the Pituitary Gland (Hypophysis) 276

Microscopic Identification of the Pituitary Gland (Hypophysis) 278

Observation of Thyroid Gland 279

Microscopic Identification of the Thyroid Gland 280

Observation of the Parathyroid Glands 281

Microscopic Identification of the Parathyroid Glands 282

Observation of the Adrenal (Suprarenal) Gland 283

Microscopic Identification of the Adrenal (Suprarenal) Gland 285

Observation of the Endocrine Pancreas 286

Microscopic Identification of the Endocrine Pancreas 288

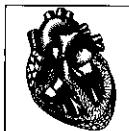

Anatomical Identification Review 289

20 The Cardiovascular System: Blood 290

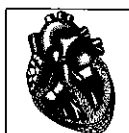

Observation of Blood Cells 290

Anatomical Identification Review 293

21
The Cardiovascular System: The Heart 294

- Observation of the Heart in the Thoracic Cavity 294
- Observation of the Heart Wall 295
- Microscopic Observation of Cardiac Muscle 296
- Observation of the Superficial Anatomy of the Heart 297
- Observation of Sectional Anatomy of the Heart 300
- Mammalian Heart Specimen Dissection 300
- Valves of the Heart Viewed in Transverse Section 302
- Observation of Coronary Circulation 303
- Observation of the Conduction System of the Heart 304
- Cat Dissection: Circulatory System 305
 - Identification of Arteries 305
 - Identification of Veins 310
- Anatomical Identification Review 312

22
The Cardiovascular System: Vessels and Circulation 314

- Microscopic Comparison of Typical Arteries and Veins 314
- Observation of Pulmonary Circulation 316
- Observation of the Systemic Circulation: Systemic Arteries 318
 - The Aortic Arch 319
 - The Subclavian Arteries 319
 - Carotid Arteries and Blood Supply to the Brain 319
 - The Descending Aorta 321
 - Arteries of the Pelvis and Lower Extremities 323
- Observation of the Systemic Circulation: Systemic Veins 325
 - Venous Return from the Cranium 327
 - Superficial Veins of the Head and Neck 328
 - Venous Return from the Upper Extremities 328
 - Formation of the Superior Vena Cava 328
 - The Inferior Vena Cava 329
 - Veins Draining the Lower Extremity 329
 - Veins Draining the Pelvis 330
 - Veins Draining the Abdomen 330
- Observation of the Hepatic Portal System 330
- Observation of the Circulatory System at Birth 332
- Anatomical Identification Review 333

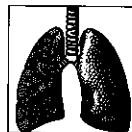

23
The Lymphatic System 334

- Components of the Lymphatic System 334
- Microscopic Identification of Lymphatic Vessels 336

Relationship of Lymphatic Ducts and Circulatory System 337

- Microscopic Identification of Lymphoid Nodules (Peyer's Patch) 338
- Microscopic Identification of Lymph Node 339
- Microscopic Identification of the Thymus 340
- Observation of the Spleen 340
- Microscopic Identification of the Spleen 341
- Anatomical Identification Review 342

24
The Respiratory System 344

- Structures of the Respiratory System 344
- Microscopic Identification of the Respiratory Epithelium 345
- Observation of the Nose, Nasal Cavity and Pharynx 346
- Observation of the Larynx 348
- Observation of the Trachea and Primary Bronchi 349
- Microscopic Identification of the Respiratory Epithelium of the Trachea 351
- Observation of Superficial Anatomy of the Lungs 351
- Microscopic Identification of Lung Tissue 355
- Observation of the Bronchopulmonary Segments of the Lungs 356
- Observation of the Respiratory Muscles 357
- Dissection of the Respiratory System in the Cat 359
- Anatomical Identification Review 361

25
The Digestive System 362

- Structures of the Digestive System 362
- Microscopic Identification of the Histological Organization of the Digestive Tube 364
- Observations of the Serous (Peritoneal) Membranes 366
- Observation of Oral (Buccal) Cavity Structures and Pharynx 367
- Observation of the Salivary Glands 369
- Microscopic Identification of the Salivary Glands 370
- Observation of Teeth (Gross Structure) 371
- Observation of the Esophagus 372
- Microscopic Identification of the Esophagus 372
- Gross Anatomy of the Stomach 373
- Microscopic Identification of the Stomach 376
- Gross Anatomy of the Small Intestine 376
- Microscopic Identification of the Small Intestine Wall 378
- Observation of the Large Intestine 380
- Microscopic Identification of the Large Intestine 381
- Observation of the Liver and Gallbladder 381

Microscopic Identification of the Organization of
the Liver 384

Observation of the Pancreas 384

Microscopic Identification of the Pancreas 386

Dissection of the Digestive System in the Cat 387

Anatomical Identification Review 390

26

The Urinary System 391

Organization of the Urinary System 391

Observation of Kidney Structure 394

Observation of the Circulation Pattern in
the Kidney 395

Observation of the Nephron of the Kidney 398

Microscopic Identification of Cortical and
Juxtamedullary Nephrons 399

Organs Responsible for the Conduction and Storage
of Urine 399

Ureters 399

Urinary Bladder 400

Urethra 400

Microscopic Identification of Ureter 401

Microscopic Identification of the Urinary
Bladder 402

Microscopic Identification of Urethra 403

Dissection of the Urinary System in the Cat 404

Anatomical Identification Review 405

27

The Reproductive System 406

Observation of the Male Reproductive System 406

Observation of Scrotum, Spermatic Cord, Testes,
Epididymis, and Ductus Deferens 409

Microscopic Identification of the Testes 411

Microscopic Identification of the Epididymis 411

Microscopic Identification of Spermatozoa 412

Observation of the Accessory Glands: Seminal
Vesicles, Prostate and Bulbourethral 413

Microscopic Identification of the Accessory Glands:
Seminal Vesicles, Prostate and Bulbourethral 414

The Penis 416

Microscopic Identification of the Penis 417

Observation of the Female Reproductive
System 418

Observation of the Ovaries and Uterine Tubes 419

Microscopic Identification of the Ovary 420

Microscopic Identification of Uterine Tube 421

Observation of the Uterus and Vagina 422

Microscopic Identification of the Uterus 424

Microscopic Identification of the Vagina 424

The Female External Genitalia 425

The Mammary Glands 426

Dissection of the Reproductive System in
the Cat 427

Anatomical Identification Review 430
