CONTENTS

PREFACE xiii

Acknowledgments xv

TOPIC I

SAMPLING AND RECONSTRUCTION 1

Experiment 1

IDEAL SAMPLING AND RECONSTRUCTION 3

Background 3

Experimental Procedure 5

An Illustration 6

Experiment 2

NONIDEAL RECONSTRUCTION 8

Background 8

Experimental Procedure 9

An Illustration 11

Experiment 3

PRACTICAL INTERPOLATORS 13

Background 13

Part 1: k^{th} -Order Polynomial Interpolation 14

Part 2: k^{th} -Order Polynomial Differentiable Interpolation 17

Part 3: Spline Interpolation 20

An Illustration 23

Experiment 4

SAMPLING AND RECONSTRUCTION OF PERIODIC SIGNALS 26

Background 26

Experimental Procedure 28

An Illustration 30

Experiment 5

THE STROBOSCOPIC EFFECT 32

Background 32

Experimental Procedure 33

An Illustration 34

TOPIC II

THE DISCRETE-TIME FOURIER TRANSFORM 36

Experiment 6

RESOLUTION OF TWO SINUSOIDS 38

Background 38

Experimental Procedure 39

An Illustration 41

Experiment 7

SEPARATION OF TWO SINUSOIDS 43

Background 43

Experimental Procedure 44

An Illustration 46

Experiment 8

ANALYSIS OF PERIODIC WAVEFORMS 50

Background 50

Experimental Procedure 50

An Illustration 52

TOPIC III

GAIN AND PHASE-SHIFT 55

Experiment 9

THE MOVING AVERAGE FILTER 59

Background 59

Experimental Procedure 59

An Illustration 60

Experiment 10

BASIC FILTER TYPES 63

Background 63

Experimental Procedure 63

An Illustration 68

Experiment 11

FILTER TRANSIENT RESPONSE 71

Background 71

Experimental Procedure 71

An Illustration 74

Experiment 12

BUTTERWORTH FILTER DESIGN 78

Background 78

Experimental Procedure 79

An Illustration 81

TOPIC IV

QUANTIZATION 82

Experiment 13

A/D QUANTIZATION ERROR 84

Background 84

Experiment Procedure 89

An Illustration 92

Experiment 14

MULTIPLICATION QUANTIZATION ERROR 95

Background 95

Experimental Procedure 98

An Illustration 100

Experiment 15

MULTIPLICATION QUANTIZATION ERROR IN DF1 REALIZATION 102

Background 102

Experimental Procedure 107

An Illustration 109

Experiment 16

EFFECT OF FILTER REALIZATION ON THE OUTPUT MULTIPLICATION QUANTIZATION ERROR 112

Background 112

Experimental Procedure 114

An Illustration 116
