Contents

PART ONE INTRODUCTION 1

1 Introduction 2

Fundamental Ideas 5

Terminology 7

Population Estimates 9

Size of the Population 10 • *Prevalence and Incidence* 18

Questions for Reflection and Discussion 20

Resources 21

2 A Paradigm Shift 22

Three Models of Consumer-Professional Interactions 25

Four American Revolutions 27

The Landmark Laws Leading to Independence 30

Individuals with Disabilities Act (IDEA) 30

• *Rehabilitation Act* 31 • *Americans with Disabilities Act (ADA)* 33

• *Fair Housing Amendments Act (FHAA)* 34

• *Telecommunications Act of 1996* 34

Other Important Laws 34

Supplemental Security Income (SSI) 35

• *Medicaid* 36 • *Social Security Disability Insurance (SSDI)* 37

• *Medicare* 37

Questions for Reflection and Discussion 38

Resources 38

PART TWO SERVICE DELIVERY 39

3 The Services 40

Special Education 42

Who Might Not Require Special Education? 43

• *Who Probably Does Require Special Education?* 45

• *Where Is Special Education Provided?* 47

Early Intervention 49

Related Services 50

Physical Therapy 51 • *Occupational Therapy* 53

• *Speech and Language Pathology* 54

• *Counseling* 55 • *Art Therapy* 58

• *Transition* 59

Advocacy 61

Questions for Reflection and Discussion 62

Resources 63

4 Techniques 64

Teamwork 66

In the Mainstream 66

Universal Design in Education 68

Modified Curricula 70

Repetition 71 • *Multiple Modalities* 71

• *Modeling* 71 • *Sign Language* 71

• *Desensitization* 72

Responding to Multiple Needs 72

A Parallel Curriculum 75

Use of Assistive Technologies 75 • *Self*

Determination 76 • *Self-Care and*

Responsibility 76 • *Independent Travel in the*

Community 77 • *Communication* 77

• *Transition* 78 • *Cooperation and*

Teamwork 78

Applied Behavior Analysis 78
