

APPAREL MANUFACTURING

THIRD EDITION

Sewn Product Analysis

Ruth E. Glock • Grace I. Kunz

Suranaree University of Technology

31051000612230

PART I	<i>Introduction to Apparel Manufacturing</i>	1
Chapter 1	Organization of the Apparel Business	3
	Nature of Apparel	4
	Structure of the Apparel Industry	7
	Global Issues in Apparel Manufacturing	13
	Functional Organization of Apparel Firms	18
	• Summary	26 • References and Reading List 26 • Key Words 27
	• Discussion Questions and Activities	28
Chapter 2	Marketing Strategies	29
	Marketing Responsibilities in Apparel Firms	30
	Strategic Marketing Processes	32
	Retail and Wholesale Marketing Strategies	38
	Labeling and Licensing	45
	• Summary	57 • References and Reading List 58 • Key Words 59
	• Discussion Questions and Activities	59
Chapter 3	Merchandising Processes	61
	Context of Merchandising	62
	Concepts of Apparel Product Lines	64
	Dimensions of Product Change	66
	Nature and Timing of Merchandising Responsibilities	71
	• Summary	89 • References and Reading List 90 • Key Words 90
	• Discussion Questions and Activities	91
PART II	<i>Product Development</i>	93
Chapter 4	Analysis of Product Development	95
	Role of Product Analysis	96
	Processes of Product Analysis	99
	Professional Perspectives on Product Development	125

	• Summary	133	• References and Reading List	134	• Key Words	134
	• Discussion Questions and Activities	135				
Chapter 5	Product Standards and Specifications	137				
	Sources of Product and Quality Standards	138				
	Standards for Quality, Fit, and Performance	139				
	Using Specifications	142				
	Writing Specifications for Apparel Manufacturing	147				
	• Summary	153	• References and Reading List	153	• Key Words	154
	• Discussion Questions and Activities	154				
Chapter 6	Creative and Technical Design	155				
	Influences on the Design Process	156				
	Creative Design	158				
	Technical Design	173				
	Apparel Design Technology	183				
	• Summary	187	• References and Reading List	188	• Key Words	188
	• Discussion Questions and Activities	189				
PART III	<i>Dimensions of Apparel Management</i>	191				
Chapter 7	Management of Quality	193				
	The Global Textile Complex	194				
	Systems for Quality Management	200				
	Methods for Assuring Quality	208				
	Costs and Benefits of Quality Programs	217				
	• Summary	221	• References and Reading List	222	• Key Words	222
	• Discussion Questions and Activities	223				
Chapter 8	Materials Sourcing and Selection	225				
	Role of Sourcing in an Apparel Firm	226				
	Materials Sourcing Processes	231				
	Selecting Fabrics	234				
	Predicting Aesthetics and Performance	241				
	Evaluating Fabric Quality	250				
	• Summary	261	• References and Reading List	262	• Key Words	262
	• Discussion Questions and Activities	263				
Chapter 9	Production Planning and Sourcing	265				
	Production Strategies and Concepts	266				
	Planning Production	269				
	Determining Sources of Production	276				
	Production Sourcing Priorities and Processes	283				
	• Summary	290	• References and Reading List	290	• Key Words	291
	• Discussion Questions and Activities	291				

Chapter 10 Costs, Costing, Pricing, and Profit 293

Costs and Profits 294

Systems of Costing 297

Stages of Costing 304

Determining Product Costs 307

Cost/Volume Relationships 313

Pricing Strategies 319

• Summary 326 • References and Reading List 326 • Key Words 327

• Discussion Questions and Activities 328

PART IV *Focus on Production* 329**Chapter 11 Apparel Engineering 331**

Work Flow 332

Apparel Production Systems 337

Production Processes 347

Work Study 351

Ergonomics 358

• Summary 362 • References and Reading List 363 • Key Words 363

• Discussion Questions and Activities 364

Chapter 12 Production Management 365

Productivity Concepts 365

Human Resource Management 367

Inventory Management 377

Equipment Management and Plant Modernization 379

• Summary 386 • References and Reading List 387 • Key Words 387

• Discussion Questions and Activities 388

Chapter 13 Preproduction Operations 389

Initiation of Preproduction Operations 390

Marker Making 392

Spreading 399

Cutting 410

• Summary 423 • References and Reading List 424 • Key Words 424

• Discussion Questions and Activities 425

Chapter 14 Stitches, Seams, Thread, and Needles 427

Stitches 428

Seams 441

Sewing Threads 456

Needles 467

Seam Appearance and Performance 470

• Summary 477 • References and Reading List 477 • Key Words 478

• Discussion Questions and Activities 479

Chapter 15	Equipment for Assembly and Pressing	481
	Stages of Technology Advancement	482
	Sewing Machine Fundamentals	487
	Work Aids	494
	Pressing Equipment	498
	• Summary	506 • References and Reading List 506 • Key Words 506
	• Discussion Questions and Activities	507

PART V *Findings Management* **509**

Chapter 16	Support Materials	511
	Purposes of Support Materials	512
	Interlinings	515
	Linings	524
	Other Support Materials	530
	• Summary	535 • References and Reading List 535 • Key Words 536
	• Discussion Questions and Activities	536

Chapter 17	Closures	537
	Purposes and Costs of Closures	538
	Zippers	539
	Buttons and Buttonholes	546
	Snaps and Hooks	559
	Elastic	562
	Hook-and-Loop Tape	567
	• Summary	570 • References and Reading List 570 • Key Words 570
	• Discussion Questions and Activities	571

Chapter 18	Trims	573
	Types and Sources of Trims	574
	Knit Trims	577
	Embroidery	578
	Appliqués, Insets, and Lace Trims	591
	Screen, Heat Transfer, and Digital Printing	594
	Labels	599
	• Summary	602 • References and Reading List 602 • Key Words 603
	• Discussion Questions and Activities	603

Appendix

Garment Analysis Application #1	Analysis of T-Shirts	605
Garment Analysis Application #2	Analysis of Men's Dress Pants	613
Garment Analysis Application #3	Analysis of Men's Dress Shirts	629

Glossary	647
