BROOKS/COLE SERIES IN ADVANCED MATHEMATICS

# Contents

## **Chapter 1**

Introductory Discussion  
of Interpolation 1

## **Chapter 2**

Linear Interpolation  
Operators 11

## **Chapter 3**

Optimization of the Lagrange  
Operator 18

## **Chapter 4**

Multivariate Polynomials 25

## **Chapter 5**

Moving the Nodes 32

## **Chapter 6**

Projections 39

## **Chapter 7**

Tensor-Product Interpolation 46

## **Chapter 8**

The Boolean Algebra  
of Projections 51

## **Chapter 9**

The Newton Paradigm  
for Interpolation 57

## **Chapter 10**

The Lagrange Paradigm  
for Interpolation 62

## **Chapter 11**

Interpolation by Translates  
of a Single Function 71

## **Chapter 12**

Positive Definite Functions 77

## **Chapter 13**

Strictly Positive Definite  
Functions 87

## **Chapter 14**

Completely Monotone  
Functions 94

## **Chapter 15**

The Schoenberg Interpolation  
Theorem 101

## **Chapter 16**

The Micchelli Interpolation  
Theorem 109

## **Chapter 17**

Positive Definite Functions  
on Spheres 119

## **Chapter 18**

Approximation by Positive  
Definite Functions 131

## **Chapter 19**

Approximate Reconstruction of  
Functions and Tomography 141

<b>Chapter 20</b> Approximation by Convolution 148	<b>Chapter 30</b> The Golomb-Weinberger Theory 223
<b>Chapter 21</b> The Good Kernels 157	<b>Chapter 31</b> Hilbert Function Spaces and Reproducing Kernels 232
<b>Chapter 22</b> Ridge Functions 165	<b>Chapter 32</b> Spherical Thin-Plate Splines 246
<b>Chapter 23</b> Ridge Function Approximation via Convolutions 177	<b>Chapter 33</b> Box Splines 260
<b>Chapter 24</b> Density of Ridge Functions 184	<b>Chapter 34</b> Wavelets, I 272
<b>Chapter 25</b> Artificial Neural Networks 189	<b>Chapter 35</b> Wavelets, II 285
<b>Chapter 26</b> Chebyshev Centers 197	<b>Chapter 36</b> Quasi-Interpolation 312
<b>Chapter 27</b> Optimal Reconstruction of Functions 202	Bibliography 327
<b>Chapter 28</b> Algorithmic Orthogonal Projections 210	Index 355
<b>Chapter 29</b> Cardinal B-Splines and the Sinc Function 215	Index of Symbols 359
