Contents

Part I Introduction 1

EXERCISE 1	Using the Instructional System 3
	Introduction 3
	Performance Objectives 3
	Background Information 3
	Self-Test 4
	Familiarization Activity 4
	Questions/Activities 4
	Review Quiz 4
	Answers to Self-Test 5

EXERCISE 2	Electrical and Mechanical Safety 7
	Introduction 7
	Performance Objectives 7
	Background Information 7
	Troubleshooting Techniques 8
	Self-Test 8
	Familiarization Activity 9
	Questions/Activities 9
	Review Quiz 9

EXERCISE 3	Microcomputer Familiarization 11
	Introduction 11
	Performance Objectives 11
	Background Information 11
	Troubleshooting Techniques 14
	Self-Test 14
	Familiarization Activity 15
	Questions/Activities 16
	Review Quiz 16

Part II The Windows Operating System 17

EXERCISE 4	The Early Days of Windows 19
	Introduction 19
	Performance Objectives 19
	Background Information 19

<i>Starting Windows 21</i>
<i>Leaving Windows 21</i>
<i>Opening a Program Group Window 22</i>
<i>Moving a Window 22</i>
<i>Scrolling Through a Window 23</i>
<i>Resizing a Window 24</i>
<i>Running a DOS Application from Inside Windows 25</i>

Troubleshooting Techniques 26
Self-Test 26
Familiarization Activity 26
Questions/Activities 27
Review Quiz 27

EXERCISE 5	An Introduction to Windows 95 and Windows 98 29
	Introduction 29
	Performance Objectives 29
	Background Information 29

<i>The Desktop 30</i>
<i>Long File Names 30</i>
<i>Context-Sensitive Menus 31</i>
<i>Improved Help Facility 32</i>
<i>Windows Explorer 32</i>
<i>The Registry 32</i>
<i>Networking 33</i>
<i>DOS 34</i>
<i>Preemptive Multitasking 35</i>
<i>Recycle Bin 35</i>
<i>Other New Features 36</i>
<i>Windows 95 Version B 36</i>
<i>The Windows 98 Desktop 36</i>
<i>What Else is New in Windows 98? 36</i>
<i>Windows 98 is Easier to Use 36</i>
<i>Windows 98 is Enhanced for the Web 38</i>
<i>Windows 98 is Faster and More Reliable 38</i>

Windows 98 is More Entertaining 38
Troubleshooting Techniques 39
Self-Test 39
Familiarization Activity 40
Questions/Activities 41
Review Quiz 41

EXERCISE 6 An Introduction to Windows NT 43
Introduction 43
Performance Objectives 43
Background Information 43
 Windows NT Operating System Logon 44
 Windows NT Security Menu 44
 *Windows NT Desktop, Taskbar
 and Start Menu* 47
 Windows NT Control Panel 47
 Windows NT Domains 47
Troubleshooting Techniques 50
Self-Test 51
Familiarization Activity 51
Questions/Activities 52
Review Quiz 52

EXERCISE 7 The Desktop 53
Introduction 53
Performance Objectives 53
Background Information 54
 The Start Button 54
 The Taskbar 58
 The Background 58
 The Systems Settings Area 62
 Creating and Using Shortcuts 63
 Changing Other Desktop Properties 64
 Managing the Desktop Contents 66
 My Computer 67
 The Network Neighborhood 69
 The Recycle Bin 69
 My Briefcase 70
 The Inbox 71
 *Getting Back to the
 Desktop from DOS* 72
 Windows 98 Help 72
 Windows 98 Settings Menu 72
 Windows 98 Explorer 73
 Windows 98 Web-Style Desktop 73
 Windows NT Desktop Evolution 73
Troubleshooting Techniques 74
Self-Test 75
Familiarization Activity 76
Questions/Activities 76
Review Quiz 77

EXERCISE 8 The Control Panel 79
Introduction 79
Performance Objectives 79
Background Information 79
 Accessibility 81
 Add New Hardware 81
 Add/Remove Programs 82
 Date/Time 82
 Display 83
 Keyboard 83

Modems 84
Mouse 84
Multimedia 84
Network 85
Passwords 86
Printers 86
Regional Settings 87
Sounds 87
System 88

Troubleshooting Techniques 90
Self-Test 91
Familiarization Activity 91
Questions/Activities 92
Review Quiz 92

EXERCISE 9 Windows Explorer 93
Introduction 93
Performance Objectives 93
Background Information 93
 Changing the View 95
 Creating New Folders 97
 Deleting a Folder 97
 Creating Shortcuts 99
 Checking/Setting Properties 99
 Editing Features 102
 Finding Things 102
 Working with Network Drives 104
 Using Go To 105
 Help 107
 Windows 98 Explorer 108
 Windows NT 109
Troubleshooting Techniques 109
Self-Test 109
Familiarization Activity 110
Questions/Activities 110
Review Quiz 110

EXERCISE 10 Managing Printers 111
Introduction 111
Performance Objectives 111
Background Information 111
 Printer Properties 111
 Adding a New Printer 116
 Checking the Printer Status 118
 Pausing a Print Job 118
 Resuming a Print Job 119
 Deleting a Print Job 119
 Network Printing 119
 Windows NT Printer Security 120
Troubleshooting Techniques 120
Self-Test 121
Familiarization Activity 122
Questions/Activities 122
Review Quiz 122

EXERCISE 11 Accessories 123
Introduction 123
Performance Objectives 123
Background Information 123
 Games 124
 Internet Tools 125
 Multimedia 126

	System Tools	126	Installing Hardware in Windows NT	163	
	Calculator	130	Troubleshooting Techniques	166	
	Calendar	131	Self-Test	166	
	Cardfile	131	Familiarization Activity	167	
	Character Map	132	Questions/Activities	167	
	Clipboard Viewer	132	Review Quiz	167	
	Missing Shortcuts	132			
	Dial-Up Networking	133	EXERCISE 15	Windows CE	169
	Direct Cable Connection	133		Introduction	169
	HyperTerminal	134		Performance Objectives	169
	Notepad	134		Background Information	169
	Paint	134		How Windows CE is Similar to	
	Phone Dialer	135		Other Versions of Windows	170
	WordPad	135		How Windows CE is Different from	
	Windows NT Administrative Tools	136		Other Versions of Windows	170
	Troubleshooting Techniques	138		Under the Hood	171
	Self-Test	138		Communicating with	
	Familiarization Activity	139		Windows CE Devices	171
	Questions/Activities	140		The Special Programming	
	Review Quiz	140		Requirements of Windows CE	171
				Logo Requirements	171
EXERCISE 12	An Introduction to Networking with Windows	141		Troubleshooting Techniques	172
	Introduction	141		Self-Test	172
	Performance Objectives	141		Familiarization Activity	173
	Background Information	141		Questions/Activities	173
	Microsoft Networking	141		Review Quiz	173
	The Network Neighborhood	142			
	Network Printing	142	EXERCISE 16	Other Network Operating Systems	175
	Sharing Files over a Network	143		Introduction	175
	Dial-Up Networking	143		Performance Objectives	175
	Connecting to the Internet	145		Background Information	175
	Troubleshooting Techniques	145		NetWare	175
	Self-Test	145		Installing/Upgrading NetWare	176
	Familiarization Activity	146		NetWare-Windows Time Line	176
	Questions/Activities	147		NDS	176
	Review Quiz	147		HCSS	177
EXERCISE 13	Installing New Software	149		Network Protocols	177
	Introduction	149		Management	179
	Performance Objectives	149		Print Services	180
	Background Information	149		The Linux Operating System	180
	Existing Windows 3.x Software	150		Troubleshooting Techniques	181
	Installing New Software from			Self-Test	181
	the Windows CD-ROM	150		Familiarization Activity	182
	Getting the Latest Updates			Questions/Activities	182
	from Microsoft	151		Review Quiz	182
	Installing Third-Party Software	151			
	Removing Application Software	154	Part III	Networking with Windows	183
	Troubleshooting Techniques	156			
	Self-Test	156	EXERCISE 17	What Is a Computer Network?	185
	Familiarization Activity	157		Introduction	185
	Questions/Activities	157		Performance Objectives	185
	Review Quiz	157		Background Information	185
EXERCISE 14	Installing New Hardware	159		Computer Network Topology	186
	Introduction	159		Representing Digital Data	187
	Performance Objectives	159		Communication Protocols	187
	Background Information	159		Ethernet	188
	Starting Off	159		Token-Ring Networks	190
	Detecting New Hardware	160		Troubleshooting Techniques	190
	The Results	161		Self-Test	190
	Finishing Up	162		Familiarization Activity	191
	General Comments	162		Questions/Activities	191
				Review Quiz	191

EXERCISE 18 Network Topology 193
Introduction 193
Performance Objectives 193
Background Information 193

*Physical Topology Versus
Logical Topology 194*
Fully Connected Networks 195
Star Networks 195
Bus Networks 195
Ring Networks 196
Hybrid Networks 196
Network Hierarchy 197
Subnets 197

Troubleshooting Techniques 197
Self-Test 198
Familiarization Activity 199
Questions/Activities 199
Review Quiz 199

EXERCISE 19 Networking Hardware 201
Introduction 201
Performance Objectives 201
Background Information 201

Ethernet Cabling 201
The NIC 203
Token Ring 206
Repeaters 209
Transceivers 209
Hubs 209
Bridges/Switches 210
Routers 211
Cable Modems 212
Satellite Network System 214

Troubleshooting Techniques 215
Self-Test 216
Familiarization Activity 217
Questions/Activities 217
Review Quiz 217

EXERCISE 20 Networking Protocols 219
Introduction 219
Performance Objectives 219
Background Information 219

The NetBEUI Protocol 220
The IPX/SPX Protocols 220
The TCP/IP Protocol Suite 221
RFCs 221
IP 222
IP Version 6 223
TCP 224
UDP 224
DNS 224
ARP and RARP 224
ICMP 225
FTP 226
SMTP 226
Telnet 226
SLIP and PPP 226
SNMP 227

Routing Protocols 228
Protocol Analyzers 229
Troubleshooting Techniques 229

Self-Test 230
Familiarization Activity 231
Questions/Activities 231
Review Quiz 231

EXERCISE 21 Network Applications 233
Introduction 233
Performance Objectives 233
Background Information 233

PING 233
TRACERT 234
WINIPCFG 235
Echo Servers and Chat Servers 235
pc ANYWHERE 237

Troubleshooting Techniques 238
Self-Test 239
Familiarization Activity 239
Questions/Activities 240
Review Quiz 240

EXERCISE 22 The Internet 241
Introduction 241
Performance Objectives 241
Background Information 241

The Organization of the Internet 242
World Wide Web 242
HTML 243
CGI 245
Java 247
Related Sites 249

Troubleshooting Techniques 249
Self-Test 250
Familiarization Activity 250
Questions/Activities 251
Review Quiz 251

EXERCISE 23 Windows NT Domains 253
Introduction 253
Performance Objectives 253
Background Information 253

Domains 254
Domain Clients 256
Logging onto a Network 256
Running a Network Server 258
User Profiles 258
Security 260

Troubleshooting Techniques 261
Self-Test 262
Familiarization Activity 263
Questions/Activities 263
Review Quiz 263

Part IV Application Software 265

EXERCISE 24 Word Processors 267
Introduction 267
Performance Objectives 267
Background Information 267

Creating a New Document 269
Exiting from Word 271
Pull-Down Menus and Toolbars 272
Moving the Window 272
Resizing the Window 273

Scrolling Through a Document 273
 Saving the Document 273
 Opening an Existing Document 273
 Printing Documents 274
 Other Word-Processing Applications 274

Troubleshooting Techniques 274

Self-Test 275

Familiarization Activity 275

Questions/Activities 276

Review Quiz 276

EXERCISE 25

Spreadsheets 277

Introduction 277

Performance Objectives 277

Background Information 277

Spreadsheet Planning 278

Building a Spreadsheet 279

Viewing the Output

from a Spreadsheet 285

Formulas 287

Spreadsheet Appearance 288

Other Spreadsheet Software 288

Troubleshooting Techniques 288

Self-Test 288

Familiarization Activity 289

Questions/Activities 290

Review Quiz 290

EXERCISE 26

Databases 291

Introduction 291

Performance Objectives 291

Background Information 291

Database Design 292

Using an Existing Database 292

Relationships Between

Data Elements 295

Database Internal Structure 296

Database Forms 298

Creating a Database 298

Database Reporting and Queries 300

Other Database Software

Applications 301

Troubleshooting Techniques 302

Self-Test 302

Familiarization Activity 302

Questions/Activities 303

Review Quiz 303

EXERCISE 27

Presentation Software 305

Introduction 305

Performance Objectives 305

Background Information 305

Microsoft PowerPoint 305

Opening an Existing Presentation 306

Viewing a Presentation 307

Adding Slides to a Presentation 309

Inserting Objects into a Slide 310

Saving a Presentation 311

Printing a Presentation 312

Creating a Presentation 312

Other Software 314

Troubleshooting Techniques 314

Self-Test 314

Familiarization Activity 315

Questions/Activities 315

Review Quiz 315

EXERCISE 28

Web Development 317

Introduction 317

Performance Objectives 317

Background Information 317

Planning the Page 317

Images 318

Creating Images 319

HTML 323

Creating a Web Page 323

HoTMetaL PRO 324

Adding an Image 324

Adding Tables 326

Adding Links 329

The Final Web Page 331

Maintaining a Web Page 332

Other Software 333

Troubleshooting Techniques 333

Self-Test 333

Familiarization Activity 334

Questions/Activities 334

Review Quiz 334

EXERCISE 29

Science and Technology 335

Introduction 335

Performance Objectives 335

Background Information 335

LanExplorer 335

Electronics Workbench 342

Visio 348

Visual BASIC 349

Visual C++ 351

Other Software 352

Troubleshooting Techniques 352

Self-Test 352

Familiarization Activity 353

Questions/Activities 354

Review Quiz 354

Part V

Selected Topics 355

EXERCISE 30

Hardware 101: Keyboard, Mouse,

Display, and Printer 357

Introduction 357

Performance Objectives 357

Background Information 358

The Keyboard 358

The Mouse 361

Trackballs 361

Video Monitors and

Video Adapters 361

The Computer Printer 370

Troubleshooting Techniques 380

Troubleshooting the Mouse 380

Troubleshooting the Display 381

Troubleshooting the Printer 383

Self-Test 383

Familiarization Activity 385

Questions/Activities 386

Review Quiz 387

EXERCISE 31	Hardware 102: Motherboard, Memory, and I/O	389	Telephone Modem Technology	438
	Introduction	389	Modulation Methods	441
	Performance Objectives	389	MNP Standards	441
	Background Information	390	CCITT Standards	442
	Definition of the Motherboard	390	ISDN Modems	444
	Contents of the Motherboard	390	Cable Modems	444
	The Microprocessor	390	Fax/Data Modems	444
	The Coprocessor	390	Protocols	444
	Computer Memory	395	I/O Part 3: The Sound Card	444
	Primary Storage—		MIDI	445
	RAM and ROM	396	Troubleshooting Techniques	446
	Bits, Bytes, and Words	397	Troubleshooting Memory	446
	SIMM	398	Troubleshooting Floppy Drives	446
	DIMM	398	Troubleshooting Modems	448
	SDRAM	398	Troubleshooting Sound Cards	449
	EDO DRAM	398	Identifying the Processor	450
	VRAM	398	Self-Test	450
	Level-2 Cache	399	Familiarization Activity	453
	Chip Speed	399	Questions/Activities	454
	How Memory Is Organized	399	Review Quiz	454
	How Memory Is Used	400	EXERCISE 32	The Advanced Intel Microprocessors
	Virtual Memory	400		455
	Memory Usage in Windows	402	Introduction	455
	Secondary Storage Part 1:		Performance Objectives	455
	The Floppy Disk Drive	402	Background Information	455
	How a Floppy Disk Drive Works	403	A Summary of the 80186	456
	Operating Sequence	403	A Summary of the 80286	457
	Disk Drive Support System	404	A Summary of the 80386	458
	Secondary Storage, Part 2:		A Summary of the 80486	459
	The Hard Drive	410	Pipelining	459
	Partitions	411	A Summary of the Pentium	460
	Windows NT Disk Administrator	415	Troubleshooting Techniques	463
	LBA	415	Self-Test	464
	FAT32	416	Familiarization Activity	464
	NTFS	416	Questions/Activities	465
	Hard Drive Interfaces	416	Review Quiz	465
	Data Storage	420	EXERCISE 33	Windows Internal Architecture
	Disk Caching	420		467
	Disk Structure	421	Introduction	467
	Disk Storage Capacity	421	Performance Objectives	467
	Disk Fragmentation	423	Background Information	467
	File Allocation	426	A Look Inside Windows 95/98	467
	Secondary Storage, Part 3:		The Windows API Layer	467
	The CD-ROM Drive	426	The System Virtual Machine	468
	Physical Layout of a Compact Disk	426	The MS-DOS Virtual Machine	468
	The High Sierra Format	427	The Base System	468
	CD-ROM Standards	427	Windows NT Architecture	469
	Photo CD	428	Troubleshooting Techniques	470
	ATAPI	428	Self-Test	470
	I/O Part 1: Expansion Buses	428	Familiarization Activity	471
	Makeup of an Expansion Slot	429	Questions/Activities	471
	The Local Bus	430	Review Quiz	471
	The PCI Bus	432	EXERCISE 34	Computer Viruses
	The PCMCIA Bus	433		473
	AGP	435	Introduction	473
	I/O Part 2: The Modem	435	Performance Objectives	473
	The Modem	435	Background Information	473
	The RS-232 Standard	436	Operation of a Typical	
	Telephone Modem Setup	437	File-Infecting Virus	474
	Windows Modem Software	438	Getting the First Infection	474
			The Anatomy of a Virus	475
			Boot Sector Viruses	477

Worms 477
Trojan Horses 477
Macro Viruses 477
Virus Detection 478
Virus Detection in Windows 479
Virus Prevention 480

Troubleshooting Techniques 481
Self-Test 481
Familiarization Activity 481
Questions/Activities 482
Review Quiz 482

APPENDIX A ASCII Character Set 483

APPENDIX B DOS Reference 485

Introduction 485
Background Information 485
 The DOS Prompt 485
 Changing the Date and Time 485
 Copying a Disk 485
 Definition of DOS Files 488
 How DOS Names Files 489
 Displaying DOS Files 490
 Copying the Screen to the Printer 491
 Transferring a DOS File
 to Another Disk 491
 Displaying One File 492
 Wild Card Characters 492
 Copying a Group of Files 493
 Displaying File Contents 493
 Redirecting Files 493
 Using EDIT 494
 Starting EDIT 494
 Editing an Existing File 495
 Other EDIT Features 495
 Renaming Files 496
 Erasing Files 496
 Organizing Your Files 496
 Creating Directories 498
 Getting into Directories 499
 Getting out of Directories 500
 Some Directory Examples 500
 Creating Other Directories
 (Pathnames) 500

Removing Directories 502
Deleting a Nonempty Directory 503
Transferring Files 503
Setting the Path 503
System Configuration 504
Definition of Batch Processing 507
Batch Files 507
Batches Within Batches 508
The REM Command 509
The ECHO Command 509
The PAUSE Command 509
Batch Parameters 510
The IF Command 511
The NOT Command 511
The GOTO Command 512
Combining the IF and
 GOTO Commands 512
AUTOEXEC.BAT Files 513
Changing the DOS Prompt 514
Standard Input and Output 515
DOS Redirection Operators 516
DOS Output Redirection 517
The MORE Command 518
Setting File Attributes
 Using ATTRIB 518
Attribute of a File 518
Read Only Files 519
Archive Files 520
Hidden Files 520
System Files 520
Checking the File Status 520
The XCOPY Command 521
Copying a Set of Files
 from a Hard Disk 521

APPENDIX C Fault Tolerance in Windows NT 523
RAID Level 0: Strip Sets 523
RAID Level 1: Disk Mirroring 523
RAID Level 5: Stripe Sets with Parity 525

ANSWERS TO ODD NUMBERED SELF-TEST QUESTIONS 527

INDEX 531
