

Networking *and* Integration *of* Facilities Automation Systems

Suriname University of Technology

9781000056180

Viktor Boed

Contents

Chapter 1

Integration of Facilities Computerized Systems	1
<i>Viktor Boed</i>	

Chapter 2

Basics of Network Communications	17
<i>Viktor Boed</i>	

Chapter 3

DDC Open Systems: An Overview	41
<i>John J. McGowan</i>	

Chapter 4

Network Protocols.....	47
<i>Viktor Boed</i>	

Chapter 5

Serial Communications	69
<i>Viktor Boed</i>	

Chapter 6

RS-485 Networks for Facilities Metering at Yale University	81
<i>Robert Hobbs</i>	

Chapter 7

Case Study: Heterogeneous Interconnected Fieldbuses	89
<i>Frantisek Zezulka</i>	

Chapter 8

Lower Level Industrial Networks: Fieldbus	95
<i>Viktor Boed</i>	

Chapter 9

Canadian Automated Building (CAB) Protocol	111
<i>Viktor Boed</i>	

Chapter 10

LonTalk® Protocol	131
<i>Viktor Boed</i>	

Chapter 11

The Development of BACnet	139
<i>Ira Goldschmidt</i>	

Chapter 12

A Data Communication Protocol for Building Automation and Control Networks: BACnet.....	145
---	-----

Viktor Boed

Chapter 13

Institutional Energy Metering: Challenges and Opportunities.....	191
--	-----

Roberto Meinrath

Chapter 14

Case Study: Yale Maxnet.....	193
