Edited by Ravindra K. Dhu,
Tom D Dyer and
Kevin A Paine

CONTENTS

Preface	iii
Contents	v
OPENING KEYNOTE PAPER	
Incineration of Wastes and the Environment <i>Professor J Péra and Professor J Ambroise</i>	1
PART ONE: GENERATION, PROCESSING AND HANDLING OF INCINERATOR ASH	
Factors that Control the Quality of Municipal Solid Waste Incineration Residues <i>Belevi, H.</i>	19
Glass and Glass-Ceramics from Incinerator Fly Ash <i>Accaccini, A. R., Kern, H., Rincón, J. Ma. and Romero, M.</i>	33
Reuse Perspectives of Incineration Flue Gas Residues Following NaHCO_3 or Ca(OH)_2 Injection <i>Campanaro, V., Liberti, L., Liberti, G. F., Notarnicola, M., Roethel, F. and Swanson, L.</i>	45
Characterisation of Cr, Pb and Zn in Municipal Waste Incinerator Ashes by Microscopic and Spectroscopic Methods <i>Gagnepain, B., Flamand, R., Gauthier, D. and Flamant, G.</i>	55
Physical Property and pH Dependency of Solubility Test about Plasma Molten Slag from Fly Ash <i>Furuta, N., Hosoi, T., Ohata, M. and Inaba, T.</i>	67
Geochemical Perspective on the Factors that Control Long-Term Emissions from Municipal Solid Waste Incinerator Residues <i>Johnson, C. A.</i>	77
The Use of Soluble Phosphates to Stabilize Heavy Metals in Fly Ash <i>Lyons, M. R.</i>	87
Gas Generation at a Municipal Waste Combustor Ash Monofill – Franklin, New Hampshire <i>Musselman, C. N., Straub, W. A., Bidwell, J. N., Carpenter, J. E. and Presher, J. R.</i>	97

Pilot and Full Scale Washing of Incinerator Bottom Ash <i>Boddum, J. K. and Skaarup, J.</i>	111
Valorisation of MSW Incineration Residues in Belgium: A Developing Market <i>Vrancken, K. C., Laethem, B. and Dutré, V.</i>	125
Mechanism and Kinetics of the Weathering of MSWI Bottom Ash Glass <i>Zevenbergen, C., Van Reeuwijk, L. P., Bradley, J. P. and Keijzer, J.</i>	137
Municipal Solid Waste Incinerator Residues: Phase Composition and Distribution of Organic and Inorganic Pollutants Between the Output Streams <i>Hentschel, B. and Marb, C.</i>	147
InRec ^{plus} - The Next Step in Waste Incineration Ash Recycling <i>Selinger, A., Wieckert, Ch., Schmidt, V., Carcer, B., Rüegg, H. and Mechttersheimer, G.</i>	159
Trapping of Chloride, Sulfate and Heavy Metals <i>Barbery, O. and Ghodsi, A.</i>	173
Treatment of APC Residues from MSW Incinerators <i>Hjelmar, O., Birch, H. and Hansen, J. B.</i>	185

PART TWO: USE OF INCINERATOR BOTTOM ASH IN FILL AND HIGHWAY WORKS

Process Integrated Carbonation of Bottom Ashes <i>Koralewska, R. and Faulstich M.</i>	195
Environmental Impacts of Waste Utilisation: Development of Risk-Related Limit Values for Leaching of Contaminants in Regulatory Testing <i>Hjelmar, O., Holm, P. E. and Christensen, T. H.</i>	205
A Physical Evaluation of Municipal Solid Waste Grate Ash as an Aggregate Substitute in Asphaltic Concrete <i>Karpinski, S., Zhang, X., Gress, D., Eighmy, T. and Janoo, V.</i>	215
MSW Bottom Ash - Experiences in The Netherlands <i>Leenders, P.</i>	227
Municipal Solid Waste Incineration (MSWI) Bottom Ash: Characteristics and the Use in Road Construction <i>Pfrang-Stotz, G. and Reichelt, J.</i>	235
Volume Stability of Hydraulic Bound MSWI Ash <i>Westiner, E. M., Löcherer, L. and Wörner, Th.</i>	247

MSWI Plants: Sustainable Quarries <i>York, D. M.</i>	259
Unprocessed and Processed Incinerator Bottom Ash as a Cement Bound Material <i>Paine, K. A., Dhir, R. K. and Doran, V. P. A.</i>	267
Closing the Loop <i>van Beurden, J. and Wijs, J. de</i>	279
Swelling Pressure Test of Cement-Treatment MSWI Bottom Ash in Triaxial Cell <i>Crignon, C., Skoczylas, F. and Pecquer, G.</i>	289
PART THREE: USE OF INCINERATOR BOTTOM ASH IN CONCRETE CONSTRUCTION	
The Use of Incinerator Ash for Making Lightweight Bricks <i>Nanikashvili, V. G., Brown, H. E., Abrahams, P. M. and Brown, N. V.</i>	299
The Long-Term Performance of Untreated Bottom Ash, and the Production and Use of a Lightweight Synthetic Aggregate from the Bottom Ash Fine Fraction <i>Wainwright, P. J., Barton, J. R. and Cresswell, D. J. F.</i>	305
Ash Reutilization Research at the University of Connecticut <i>Frantz, G. C. and Demars, K. R.</i>	317
MSW Combustor Ash Utilization in Marine and Terrestrial Systems <i>Roethel, F. J. and Breslin, V. T.</i>	331
Precast Concrete Products Produced using Incinerator Bottom Ash <i>Dyer, T. D., Dhir, R. K. and Collier, T. C.</i>	341
PART FOUR: USE OF INCINERATOR FLY ASH IN CONSTRUCTION	
Resonant Shock Compaction: Ash-Based Construction Blocks <i>Amme, R. C., Pressey, R. E., Weir, K. E. and Frey, D. J.</i>	355
Utilization of Municipal Solid Waste Fly Ash as Innovative Civil Engineering Materials <i>Cheong, H-K., Tay, J-H. and Show, K-Y.</i>	369
Solidification/Stabilization of Textile Sludge with Portland Cement and Bottom Ash- <i>Cheriaf, M., Rocha, J. C. and Péra, J.</i>	381

The Science and Politics of Using Stabilised Waste Materials in the Marine Environment <i>Collins, K. J., Jensen, A. and Smith, P.</i>	393
Properties of Calcined Paper Sludge <i>Péra, J. and Ambroise, J.</i>	405
Sustainable Waste Management - Studies on the Use of Sewage Sludge Ash in the Construction Industry as Concrete Material <i>Pinarli, V.</i>	415
The use of the Statistical Entropy to Evaluate the Utilisation of Incinerator Ashes for the Production of Cement <i>Rechberger, H.</i>	427
Reuse of Cement-Based S/S MSWI Fly Ash for Landfill Disposal: Modelling for Long Term Environmental Impact Prediction <i>Tiruta-Barna, L., Imyim, A., Barna, R. and Méhu, J.</i>	437
Use of Incinerator Fly Ash as a Pozzolanic Activator <i>Halliday, J. E., Dyer, T. D. and Dhir, R. K.</i>	447
An Electrical Conductivity Method for Measuring Transport Properties of Stabilized Wastes <i>Caucheteux, A., Garcia-Diaz, E., Vernet, C. and Siwak, J. M.</i>	457
CLOSING KEYNOTE PAPER	
Reuse of Incinerator Ash - Current and Future Trends Professors K-Y. Show, J-H. Tay and H-K Cheong	467
Index of Authors	479
Subject Index	481
