TABLE OF CONTENTS

Introduction	ix
<hr/>	
PART I: FINAL CUT PRO BASICS	1
<hr/>	
Chapter 1: Before You Begin	3
System Requirements	4
System Configuration	6
Connecting Video Devices and Monitors	10
Installing Final Cut Pro	15
Optimizing Performance	20
Troubleshooting	22
Chapter 2: Welcome to Final Cut Pro	25
Touring Your Desktop Post-Production Facility	26
Editing and Effects Windows	30
Input and Output Windows	37
Media Management Tools	38
Customizing Your Work Environment	40
Undoing Changes	42
Using Preferences and Presets	43
Setting Device Control Preferences	48
Specifying Capture Settings	50
Using Sequence Presets	57
Specifying Sequence Settings	60
Changing Individual Sequence Settings	65
Setting Scratch Disk Preferences	66
Viewing and Setting Item Properties	68
Viewing and Setting Project Properties	71
<hr/>	
PART II: GETTING READY TO EDIT	73
<hr/>	
Chapter 3: Input: Getting Digital with Your Video	75
Anatomy of the Log and Capture Window	76
Setting Up for Capture	83
About Logging	90
Capturing Video with Device Control	97
Capturing Video without Device Control	100
Batch Capturing Clips	106

Importing a Batch List 111
 Importing an Edit Decision List (EDL) 113
 Changing Your Source Timecode 114
 Troubleshooting Capture Problems 117
 Importing Media 120

Chapter 4: Preparing Your Clips 127

Anatomy of the Browser 128
 About Projects 131
 How the Browser Can Save Your Sanity 135
 Working with Bins 144

Chapter 5: Introducing the Viewer 151

Onscreen Controls and Displays 153
 Working with Clips in the Viewer 156
 Navigating with Timecode 164
 Working with In and Out Points 166
 About Subclips 168
 Using Markers 170
 Adjusting the Viewer Display 175
 About the Audio Tab 181

PART III: THE CUT 193

Chapter 6: Editing in Final Cut Pro 195

What's a Sequence? 196
 Basic Editing Step by Step 200
 Performing Edits in the Canvas 206
 Performing Edits in the Timeline 217
 Performing Split Edits 219
 Setting Sequence In and Out Points 221
