Satyaraj Pantham, Ph.D.

PURE JFC 2D Graphics and Imaging

A CODE-INTENSIVE PREMIUM REFERENCE

Covers the Java 2D API

Well-commented, commercial-quality code

Satyaraj Pantham is a Sun™ consultant who specializes in Java™ graphics and GUI development

Suranaree University of Technology

SAMS

Contents

INTRODUCTION 1

1 FUNDAMENTALS OF JAVA 2D 3

Java 2D Graphics Model....4
User and Device Coordinate Spaces....5
User Space....5
Device Space....6
Creating the Graphics Context....6
Hello! Graphics World! Example....7
Code Analysis....10
Modifying Graphics Attributes....10
Specifying Stroke Types....11
Specifying Fill Patterns....12
Specifying Transforms....13
Specifying Clipping Shapes....15
Clipping Example....15
Specifying Rendering Hints....19
Specifying Composition Types....20
Compositing Example....21

2 COLOR HANDLING 29

Colors and Color Spaces....30
Creating the Instances of a Color....30
Readily Supported Colors....31
Retrieving the Components of a Color....32
Retrieving Colors and Color Spaces....33
Creating a Color from Hue, Saturation, and Brightness....33
Controlling the Brightness and Darkness of a Color....34
RGB and HSB Color Conversions....34
Demonstration of Colors Example....34
Painting with Color Patterns....39
Working with Gradient Paint Patterns....40
Creating Gradient Paint Pattern Objects....40
Gradient Paint Example....41
Working with Texture Paint Patterns....47
Creating Texture Paint Pattern Objects....47
Texture Paint Example....47
Color Management....51
Accurately Reproducing Colors on Output Devices....52

3 GEOMETRIC SHAPES: LINES AND RECTANGLES 53

The Shape Interface....53
Iteration Objects for Boundary Data....54
Determining Whether a Point Is Inside or Outside a Shape....54

Defining Points in 2D 55
Drawing Lines in 2D 56
Creating Line Segments 56
Line Drawing Example 57
Working Further with Lines 63
Redefining a Line Segment 63
Retrieving Coordinates or Points 64
Distance from a Point to a Line 64
Locating a Point Relative to a Line 64
Retrieving Boundaries 65
Testing Intersections 66
Retrieving the Shape Outline Object 66
Testing the Equality of Lines 66
Drawing Rectangles in 2D 67
Creating Instances of Rectangles 67
2D Rectangle Example 68
Working Further with Rectangles 72
Redefining a Rectangle 73
Retrieving the Rectangle Parameters 73
Unions and Intersections of Rectangles 73
Position of a Point Relative to a Rectangle 74
Adding a Point to a Rectangle 74
Testing Whether a Point or Rectangle Is Inside 75
Testing Equality of Rectangles 75
Retrieving Boundaries of a Rectangle 75
Testing Intersection with a Line 75
Retrieving the Outline Iterator 76
Drawing Rectangles with Rounded Corners 76
Creating Rectangles with Rounded Corners 77
Working Further with Rounded Rectangles 77
Redefining a Round Rectangle 78
Retrieving the Geometric Parameters 78
Retrieving the Bounds 78
Testing Whether a Point or Rectangle Is Inside 79
Retrieving the Boundary Path Data 79
Testing Intersection with a Rectangle 79
Rounded Rectangle Drawing Example 79

4 GEOMETRIC SHAPES: CURVES, ARCS, AND ELLIPSES 87
Drawing Quadratic Curves 87
Creating Quadratic Curves 88
Working Further with Quadratic Curves 88
Redefining a Quadratic Curve 88
Retrieving Points or Coordinates of a Curve 89
Retrieving the Flatness Index of a Curve 89
Solving for the Roots of a Quadratic Curve 91

Subdividing a Curve 91
Retrieving Boundaries and the Outline Iteration Object 92
Testing the Containment or Intersection 92
An Interactive Quadratic Curve Example 93
Drawing Cubic Curves 98
Creating Cubic Curves 98
Working with Cubic Curve Operations 99
Redefining a Cubic Curve 99
Retrieving the Coordinates 99
Testing Containment and Intersections 100
Retrieving the Flatness Index 100
Solving for Roots of a Cubic Curve 101
Subdividing a Cubic Curve 101
Retrieving Boundaries of a Cubic Curve 101
Cubic Curve Drawing Example 102
Drawing Ellipses and Circles 110
Circles 111
Creating Ellipses 111
Working with Ellipse Operations 111
Redefining an Ellipse 112
Retrieving the Coordinates of an Ellipse 112
Testing Containment and Intersections 112
Retrieving the Bounding Rectangle of an Ellipse 113
Retrieving the Outline Information 113
Retrieving the Center of the Bounding Rectangle 113
Interactive Ellipse Example 113
Drawing Open Arcs, Chords, and Pies 119
Creating Open, Chord, and Pie Type Arcs 121
Interactive Arc Example 121
Working with Arc Operations 129
Redefining an Arc 129
Retrieving the Parameters of the Arc 130
Testing the Containment and Intersection 130
Retrieving the Bounding Box of an Arc 131

5 General Paths and Composite Shapes 133

Drawing General Paths 133
Winding Rules 134
Constructing a General Path 136
Retrieving Boundaries of a General Path 137
Testing Containment and Intersection 137
General Path Example 137
Composite Shapes 144
Creating the Instances of the Area Class 145
Applying Constructive Area Geometry 145
Testing for the Type of Shape 146

Testing Containment and Intersection 146
Retrieving Boundaries 147
Retrieving the Path Iterator of a Shape 147
Composite Shapes Example 147

6 PLATFORM FONTS AND TEXT LAYOUT 155
Working with Fonts 156
Font Terminology 156
Creating Fonts 158
Retrieving Various Font Names 158
Retrieving Platform Fonts 158
Deriving New Fonts from the Given Font 159
Platform Fonts Example 160
Laying Out Text 164
Shaping, Ordering, and Positioning Text 164
Creating TextLayout Instances 165
Rendering Text 166
Text Layout Example 166
Detecting User Inputs over Text 172
Displaying and Moving Carets 172
Retrieving Measurement Information 173
Finding the Direction of the Text Layout 174
Retrieving the Bounds of the Text Layout 174
Retrieving Character Information 174
Selecting Text by Highlighting 175
Hit Testing, Carets, and Highlighting Example 176
Working with Text and Graphic Attributes 180
Using Text Attributes 181
Using Graphic Attributes 181
Using Text and Graphic Attributes Example 183
Creating Paragraphs by Wrapping Text 187
Wrapping Text Example 188

7 BUFFERED IMAGING 191
Anatomy of a Buffered Image 191
Retrieving Data, Image Type, and Color Model 193
Retrieving the Dimensions of a Buffered Image 193
Retrieving a Portion of the BufferedImage 194
Image Data Management Using a Raster 194
Color Models 195
Working with Buffered Images 195
Creating a Buffered Image 195
Painting on a Buffered Image 197
Displaying a Buffered Image 198
Buffered Image Example 198
Accessing Raster/Data Buffer Example 203

Using the Buffered Image 208
Replicating the Buffered Image: An Example 208
Animation Using the Buffered Image: An Example 211

8 IMAGE PROCESSING 219
Buffered Image and Raster Operations 220
Filtering Operations Using Look-Up Tables 221
Creating Look-Up Tables 222
Creating and Using a Look-Up Operation Filter 223
Look-Up Table Example 224
Using Rescaling Filters 232
Creating and Working with a Rescale Filter 233
Rescaling Filter Example 234
Using Color Conversion Filters 239
Creating and Working with Color Converison Filters 240
Color Conversion Filter Example 241
Using Convolution Filters 246
Creating a Convolution Kernel 247
Creating and Working with Convolution Filters 247
Convolved Image Example 249
Using Affine Transform Filters 256
Creating and Working with an Affine Transform Filter 256
Affine Transform Filter Example 257
Using Band Combine Filters 264
Creating and Working with Band Combine Filters 264
Band Combine Filter Example 265

9 PRINTING 273
Mechanism of Printing 274
Creating the Printer Graphics Context 275
Working with Page Formats 276
Controlling a Printing Job 277
A Single-Format Printing Example 279
Printing a Book (Multi-Format) Document 286
Creating and Working with Books 287
Assigning a Book to a Printer Job Control 288
An Interactive Drawing Book Example 288

10 INHERITANCE HIERARCHIES AND API QUICK REFERENCE 297
Inheritance Hierarchy Diagrams 298
Package Name: java.awt 299
Package Name: java.awt.color 300
Package Name: java.awt.geom 301
Package Name: java.awt.font 302
Package Name: java.awt.image 303
Package Name: java.awt.image.renderable 304
Package Name: java.awt.print 304

Selected API Quick Reference 304
Package Name: java.awt 305
Package Name: java.awt.geom 319
Package Name: java.awt.font 337
Package Name: java.awt.image 341
Package Name: java.awt.print 346

INDEX 349
