

INTERNATIONAL
STANDARDS
— *for* —
FOOD SAFETY

Naomi Rees • David Watson

AN ASPEN PUBLICATION

CONTENTS

Contributors	xi
Preface	xv
PART I THE IMPORTANCE OF INTERNATIONAL FOOD SAFETY	1
Chapter 1 — International Food Standards: The Work of Codex	3
<i>Alan W. Randell</i>	
Food Standards and Trade	3
The Codex Alimentarius	4
Codex Standards: How Are They Developed and Used?	6
Standards in Effect	7
Science, Risk, and Precaution	7
National and International Standards	9
Conclusion	9
Chapter 2 — Food Safety and International Trade: The Role of the WTO and the SPS Agreement	11
<i>Gretchen Stanton</i>	
Introduction	11
The WTO Framework	12
Negotiation of the SPS Agreement	13
WTO Dispute Settlement	18
Functioning of the SPS Agreement	19

PART II	NATIONAL AND REGIONAL STANDARDS	27
Chapter 3	— Regulation of Food Additives, Contaminants, and Pesticides in the United States	29
	<i>Barbara J. Petersen</i>	
	Introduction	29
	Laws Governing Foods and Food Additives	29
	The Food Additive Approval Process	33
	Regulation of Contaminants and Pesticides	35
Chapter 4	— European Community Legislation on Limits for Additives and Contaminants in Food	43
	<i>Stuart A. Slorach</i>	
	Introduction	43
	Scientific Advisory Committees	44
	Food Additives	44
	Pesticide Residues	46
	Veterinary Drug Residues	49
	Other Contaminants	51
	Conclusions and Future Developments	53
Chapter 5	— Development of Australia/New Zealand Standards	57
	<i>Simon Brooke-Taylor and Peter J. Abbott</i>	
	Introduction	57
	Food Regulation in Australia	57
	Food Regulation in New Zealand	59
	Joint ANZ Standards	59
	WTO Obligations	65
	The Use of Risk Analysis in Standard Setting	65
	The Regulation of Food Additives	66
	The Regulation of Contaminants and Other Restricted Substances	72
	Conclusion	76
Chapter 6	— Southern Common Market Standards	79
	<i>Maria Cecilia de Figueiredo Toledo</i>	
	Introduction	79
	Historical Background	80
	Objectives of MERCOSUR	80
	Institutional Structure	81
	The Food Commission	84
	FAO Technical Assistance	94
	Conclusion	95

PART III	SCIENTIFIC AND OTHER LEGITIMATE FACTORS	101
Chapter 7	— Exposure Assessment Supporting International Developments	103
	<i>Naomi Rees</i>	
	Exposure Assessment as Part of Risk Assessment	103
	National Dietary Exposure Assessments	105
	International Dietary Exposure Assessments	106
	Exposure Consultation	108
	Function of International Exposure Assessments	112
	Factors Influencing the Development of International Assessment Methodology	112
	Conclusion	113
Chapter 8	— Methods for Estimating Dietary Exposure and Quantifying Variability	115
	<i>Barbara J. Petersen</i>	
	Introduction	115
	Overview of Dietary Methods and Data Available from Different Countries	115
	Defining the Intake Scenarios	119
	Dietary Intake	121
	Limitations and Need for Research	131
	Conclusion	132
Chapter 9	— The Need for Developing Countries To Improve National Infrastructure To Contribute to International Standards	137
	<i>Lillian T. Marovatsanga</i>	
	Introduction	137
	Integrated Approach to Standardization	139
	National Food Control: An Outline of the Major Constraints	140
	Areas Needing Immediate Attention To Strengthen National Food Control Infrastructure	140
	Evaluation and Assessment of Food Control and Safety Programs	146
	Summary	146
Chapter 10	— A View from Consumers	149
	<i>Diane McCrea</i>	
	Introduction	149
	The Impact of Codex	149
	Membership of Codex	154

	Principles for Decision Making	155
	Conclusion	166
PART IV	CODEX AND OTHER INTERNATIONAL STANDARDS	169
Chapter 11—The Codex General Standard for Food Additives— A Work in Progress		171
	<i>Dennis Keefe, Paul Kuznesof, Susan Carberry, and Alan Rulis</i>	
	Scope and Purpose of the General Standard on Food Additives	171
	Vertical and Horizontal Standards	172
	Construction of the GSFA	172
	Chronology of Developing the GSFA	174
	Current Status of the GSFA	190
	Future Work	191
Chapter 12—Development of the Codex Standard for Contaminants and Toxins in Food		195
	<i>Torsten Berg</i>	
	Introduction	195
	Development of the GSCTF	197
	Scope, Purpose, and Principles of the General Standard on Contaminants and Toxins in Food	204
	The Content of the General Standard—Status and Future	208
Chapter 13—Codex Standards for Pesticide Residues		213
	<i>Gerald G. Moy and John R. Wessel</i>	
	Introduction	213
	Need for International Standards for Pesticide Residues	214
	Role of International Organizations and the Codex Alimentarius Commission	214
	Selection of Pesticides for Elaboration of Codex MRLs	215
	Joint FAO/WHO Meeting on Pesticide Residues	217
	Safety of Pesticide Residues	218
	Good Agricultural Practice	221
	Elaboration of Codex MRLs	221
	Codex Extraneous Residue Limits	222
	International Regulatory Practices Involving Pesticide Residues	223
Chapter 14—Codex Standards for Veterinary Drug Residues		227
	<i>Palarp Sinhaseni and Richard J. Dawson</i>	
	Introduction	227
	General Procedures	228

Elaboration of CCRVDF Standards and Maximum Residue Limits	228
Joint FAO/WHO Expert Committee on Food Additives	229
Selection of Analytical Methods and Sampling for the Control of Veterinary Drug Residues in Foods	232
Conclusion	232

Chapter 15—Development of Radiological Standards 235

Stuart Conney and David Webbe-Wood

Introduction	235
Radioactivity and Radiation Protection	236
International Commission on Radiological Protection	238
United Nations Scientific Committee on the Effects of Atomic Radiation	240
International Atomic Energy Agency	240
European Atomic Energy Community/European Commission	242
Limitations of International Bodies	244
Accident Regulations	245
The National Radiological Protection Board	247
Assessment of Doses from Consumption of Radionuclides in Foods	249
Enforcement in the United Kingdom	251
Conclusion	251

Chapter 16—Establishment of Codex Microbiological Criteria for Foods 257

Mike van Schothorst and Anthony Baird-Parker

Introduction	257
History	258
Establishment of Microbiological Criteria	259
Purposes and Applications of Microbiological Criteria	264
Conclusion	267

Index 269
