

# *Grasses*

SYSTEMATICS AND  
EVOLUTION

Suranaree University of Technology

31051000659068

SURREY W. L. JACOBS & JOY EVERETT (EDITORS)

# CONTENTS

## GENERAL

- A Phylogeny of the Grass Family (Poaceae), as Inferred from Eight Character Sets** 3  
*The Grass Phylogeny Working Group (GPWG)*

- A Systematic View of the Development of Vascular Systems in Culms and Inflorescences of Grasses** 8  
*Thompson Demetrio Pizzolato*

- The Grass Inflorescence** 29  
*C. Vegetti and Ana M. Anton*

## BAMBOOS

- Phylogeny and Classification of the Bambusoideae (Poaceae)** 35  
*Weiping Zhang and Lynn G. Clark*

- Woody Bamboos (Gramineae-Bambusoideae) of Madagascar** 43  
*Soejatmi Dransfield*

- Preliminary Studies on Taxonomy and Biosystematics of the AA Genome *Oryza* Species (Poaceae)** 51  
*Bao-Rong Lu, Ma. Elizabeth B. Naredo, Amita B. Juliano, and Michael T. Jackson*

## POOIDS

- Phylogenetic Structure in Poaceae Subfamily Pooideae as Inferred from Molecular and Morphological Characters: Misclassification versus Reticulation** 61  
*Robert J. Soreng, and Jerrold I. Davis*

- Relationships within the Stipoid Grasses (Gramineae)** 75  
*S.W.L. Jacobs, Joy Everett, Mary E. Barkworth and Cathy Hsiao*

- Preliminary Views on the Tribe Meliceae (Gramineae: Pooideae)** 83  
*Teresa Mejia-Saulés and Frank A. Bisby*

- The Species of *Bromus* (Poaceae: Bromeae) in South America** 89  
*Ana M. Planchuelo and Paul M. Peterson*

- Phylogenetic Analysis of the Triticeae Using the Starch Synthase Gene, and a Preliminary Analysis of some North American *Elymus* species** 102  
*Roberta J. Mason-Gamer and Elizabeth A. Kellogg*

- Changing Perceptions of the Triticeae** 110  
*Mary E. Barkworth*

## PANICOIDS

- A Cladistic Analysis of the Paniceae: a Preliminary Approach** 123  
*Fernando O. Zuloaga, Osvaldo Morrone and Liliana M. Giussani*
- Phylogeny of the Subfamily Panicoideae with Emphasis on the Tribe Paniceae: Evidence from the *trnL-F* cpDNA Region** 136  
*Rosalba Gómez-Martínez and Alastair Culham*
- Austral South American Species of *Eriochloa*** 141  
*Mirta O. Arriaga*
- Molecular and Morphological Evolution in the Andropogoneae** 149  
*Elizabeth A. Kellogg*
- The Relation of Space and Geography to Cladogenic Events in *Agenium* and *Homozeugos* (Poaceae: Andropogoneae) in South America and Africa** 159  
*Gerald F. Guala*
- Andropogoneae Systematics and Generic Limits in *Sorghum*** 167  
*Russell E. Spangler*

## CHLORIDOIDS

- Phylogenetic Relationships in Subfamily Chloridoideae (Poaceae) Based on *matK* Sequences: A Preliminary Assessment** 173  
*K. W. Hilu and L. A. Alice*
- On the Classification of the Chloridoideae: Results from Morphological and Leaf Anatomical Data Analyses** 180  
*An Van den Borre and Leslie Watson*
- Phylogenetic Relationships of the Genus *Sporobolus* (Poaceae: Eragrostideae) Based on Nuclear Ribosomal DNA ITS Sequences** 184  
*Juan-Javier Ortiz-Díaz and Alastair Culham*
- Phylogenetics of *Bouteloua* and Relatives (Gramineae: Chloridoideae): Cladistic Parsimony Analysis of Internal Transcribed Spacer (nrDNA) and *trnL-F* (cpDNA) Sequences** 189  
*J. Travis Columbus, Michael S. Kinney, Maria Elena Siqueiros Delgado, and J. Mark Porter*
- Systematics of the Muhlenbergiinae (Chloridoideae: Eragrostideae)** 195  
*Paul M. Peterson*
- A Phylogeny of Triodiaceae (Poaceae: Chloridoideae) based on the ITS Region of nrDNA: Testing Conflict between Anatomical and Inflorescence Characters** 213  
*J.G. Mant, R.J. Bayer, M.D. Crisp, and J.W.H. Trueman*

## ARUNDINOIDS

- The Danthonieae: Generic Composition and Relationships** 221  
*Nigel P. Barker, Cynthia M. Morton, and H. Peter Linder*
- Biogeography of the Danthonieae** 231  
*H.P. Linder and N.P. Barker*

## PHYSIOLOGY/ECOLOGY

- Contributions of Prolamin Size Diversity and Structure to the Systematics of the Poaceae** 241  
*K.W. Hilu*
- Ecological Significance of South-West African Grass Leaf Phytoliths: A Climatic Response of Vegetation Biomes to Modern Aridification Trends** 248  
*Christian Mulder and Roger P. Ellis*
- Effects of Elevated Atmospheric [CO<sub>2</sub>] in *Panicum* Species of Different Photosynthetic Modes (Poaceae: Panicoideae)** 259  
*Claudia Tipping and David R. Murray*
- Ecophysiological Investigations of the Distribution of Poaceae and Restionaceae in the Cape Floristic Region, South Africa** 267  
*T. L. Bell, W. D. Stock and H. P. Linder*
- ## BREEDING SYSTEMS
- Adaptive Plasticity in Reproduction and Reproductive Systems of Grasses** 281  
*James A. Quinn*
- Dioecism in Grasses in Argentina** 287  
*H.E. Connor, Ana M. Anton and Marta E. Astegiano*
- Apomixis and Amphimixis Comparative Biogeography: a Study in *Poa* (Poaceae)** 294  
*Robert J. Soreng*
- Comparative Reproductive Biology of the Vulnerable and Common Grasses in *Bothriochloa* and *Dichanthium*** 307  
*Ping Yu, N. Prakash and R. D. B. Whalley*
- Apomixis in Monocotyledons** 316  
*R. Czapik*
- ## BIOGEOGRAPHY
- Chorology of Grasses – a Review** 325  
*T.A. Cope*
- Grasses in North America: A Geographic Perspective** 331  
*Mary E. Barkworth and Kathleen M. Capels*
- Tropical Grasslands and Savannas** 351  
*Robert B. Shaw*
- Temperate Grasslands of the Southern Hemisphere** 356  
*R.H. Groves*
- Future of Temperate Natural Grasslands in the Northern Hemisphere** 361  
*Arthur W. Bailey*
- Endemic Grass Genera of Maharashtra State, Peninsular India** 369  
*C.B. Salunkhe*
