

HANDBOOK OF
CHEMICAL RISK
ASSESSMENT

**Health Hazards to Humans,
Plants, and Animals**

VOLUME 1

Metals

Ronald Eisler

Contents

Chapter 1

Cadmium

1.1 Introduction	1
1.2 Environmental Chemistry	1
1.3 Concentrations in Field Collections	2
1.4 Lethal Effects	17
1.5 Sublethal Effects	19
1.6 Bioaccumulation.....	24
1.7 Teratogenesis, Mutagenesis, and Carcinogenesis.....	28
1.8 Recommendations	28
1.9 Summary	33
1.10 Literature Cited	34

Chapter 2

Chromium

2.1 Introduction	45
2.2 Environmental Chemistry	45
2.3 Concentrations in Field Collections	48
2.4 Beneficial and Protective Properties.....	60
2.5 Lethal Effects	61
2.5.1 General.....	61
2.5.2 Aquatic Organisms	61
2.5.3 Terrestrial Invertebrates	65
2.5.4 Mammals and Birds	66
2.6 Sublethal Effects	66
2.6.1 General.....	66
2.6.2 Aquatic Organisms: Freshwater	67
2.6.3 Aquatic Organisms: Marine	70
2.6.4 Birds.....	74
2.6.5 Mammals	74
2.7 Field Investigations	76
2.8 Recommendations	78
2.9 Summary	82
2.10 Literature Cited	82

Chapter 3

Copper

3.1 Introduction	93
3.2 Sources and Uses	94
3.2.1 General.....	94
3.2.2 Sources.....	94
3.2.2 Uses.....	95
3.3 Chemical and Biochemical Properties.....	97
3.3.1 General.....	97
3.3.2 Chemical Properties.....	97
3.3.3 Metabolism	99
3.3.4 Interactions.....	102
3.4 Carcinogenicity, Mutagenicity, and Teratogenicity.....	105
3.4.1 General.....	105
3.4.2 Carcinogenicity	106

3.4.3	Mutagenicity	106
3.4.4	Teratogenicity	106
3.5	Concentrations in Field Collections	106
3.5.1	General.....	106
3.5.2	Abiotic Materials	109
3.5.3	Terrestrial Plants and Invertebrates	132
3.5.4	Aquatic Organisms	133
3.5.5	Amphibians and Reptiles	135
3.5.6	Birds.....	136
3.5.7	Mammals	136
3.6	Copper Deficiency Effects	137
3.6.1	General.....	137
3.6.2	Terrestrial Plants and Invertebrates	137
3.6.3	Aquatic Organisms	138
3.6.4	Birds and Mammals	138
3.7	Lethal and Sublethal Effects	140
3.7.1	General.....	140
3.7.2	Terrestrial Plants and Invertebrates	143
3.7.3	Aquatic Organisms	144
3.7.4	Birds.....	166
3.7.5	Mammals	166
3.8	Proposed Criteria and Recommendations.....	173
3.9	Summary	179
3.10	Literature Cited	181

Chapter 4

Lead

4.1	Introduction	201
4.2	Sources and Uses	203
4.3	Chemical Properties	206
4.4	Mode of Action	207
4.5	Concentrations in Field Collections	211
4.5.1	General.....	211
4.5.2	Nonbiological Samples.....	211
4.5.3	Fungi, Mosses, Lichens.....	216
4.5.4	Terrestrial Plants	216
4.5.5	Terrestrial Invertebrates	216
4.5.6	Aquatic Biota.....	217
4.5.7	Amphibians and Reptiles	218
4.5.8	Birds.....	218
4.5.9	Mammals	222
4.6	Lethal and Sublethal Effects	252
4.6.1	General.....	252
4.6.2	Terrestrial Plants and Invertebrates	252
4.6.3	Aquatic Biota.....	253
4.6.4	Amphibians and Reptiles	264
4.6.5	Birds.....	264
4.6.6	Mammals	274
4.7	Recommendations	280
4.8	Summary	289
4.9	Literature Cited	290

Chapter 5

Mercury

5.1	Introduction	313
5.2	Sources of Environmental Mercury	315
5.3	Chemical and Biochemical Properties	318
5.4	Mercury in Minamata, Japan	322
5.5	Concentrations in Field Collections	326
5.5.1	General	326
5.5.2	Nonbiological	326
5.5.3	Biological	330
5.6	Lethal Effects	366
5.6.1	General	366
5.6.2	Aquatic Organisms	366
5.6.3	Birds	369
5.6.4	Mammals	370
5.6.5	Other Groups	373
5.7	Sublethal Effects	373
5.7.1	General	373
5.7.2	Carcinogenicity, Genotoxicity, and Teratogenicity	374
5.7.3	Aquatic Organisms	375
5.7.4	Birds	377
5.7.5	Mammals	380
5.7.6	Other Groups	382
5.8	Recommendations	383
5.9	Summary	390
5.10	Literature Cited	391

Chapter 6

Nickel

6.1	Introduction	411
6.2	Sources and Uses	413
6.2.1	General	413
6.2.2	Sources	413
6.2.3	Uses	415
6.3	Chemical and Biological Properties	416
6.3.1	General	416
6.3.2	Physical and Chemical Properties	416
6.3.3	Metabolism	417
6.3.4	Interactions	420
6.4	Carcinogenicity, Mutagenicity, and Teratogenicity	422
6.4.1	General	422
6.4.2	Carcinogenicity	423
6.4.3	Mutagenicity	425
6.4.4	Teratogenicity	426
6.5	Concentrations in Field Collections	428
6.5.1	General	428
6.5.2	Abiotic Materials	429
6.5.3	Terrestrial Plants and Invertebrates	434
6.5.4	Aquatic Organisms	435
6.5.5	Amphibians	433
6.5.6	Birds	436

6.5.7 Mammals	436
6.5.8 Integrated Studies	437
6.6 Nickel Deficiency Effects	453
6.6.1 General	453
6.6.2 Bacteria and Plants	453
6.6.3 Birds	454
6.6.4 Mammals	454
6.7 Lethal and Sublethal Effects	455
6.7.1 General	455
6.7.2 Terrestrial Plants and Invertebrates	455
6.7.3 Aquatic Organisms	456
6.7.4 Birds	464
6.7.5 Mammals	466
6.8 Proposed Criteria and Recommendations	479
6.9 Summary	486
6.10 Literature Cited	487

Chapter 7

Silver

7.1 Introduction	499
7.2 Sources and Uses	500
7.2.1 General	500
7.2.2 Sources	500
7.2.3 Uses	502
7.3 Chemistry and Metabolism	503
7.3.1 General	503
7.3.2 Physical and Chemical Properties	504
7.3.3 Metabolism	506
7.4 Concentrations in Field Collections	509
7.4.1 General	509
7.4.2 Nonbiological Materials	509
7.4.3 Plants and Animals	513
7.5 Lethal and Sublethal Effects	521
7.5.1 General	521
7.5.2 Terrestrial Plants	521
7.5.3 Aquatic Organisms	522
7.5.4 Birds and Mammals	534
7.6 Recommendations	539
7.7 Summary	542
7.8 Literature Cited	543

Chapter 8

Tin

8.1 Introduction	551
8.2 Chemical and Biochemical Properties	552
8.2.1 General	552
8.2.2 Inorganic Tin	552
8.2.3 Organotins	553
8.3 Sources and Uses	557
8.4 Concentrations in Field Collections	560
8.4.1 General	560

8.4.2 Nonbiological Samples.....	561
8.4.3 Biological Samples.....	566
8.5 Effects.....	572
8.5.1 General.....	572
8.5.2 Aquatic Organisms.....	573
8.5.3 Birds.....	583
8.5.4 Mammals.....	583
8.5.5 Terrestrial Invertebrates.....	591
8.6 Recommendations.....	591
8.7 Summary.....	594
8.8 Literature Cited.....	595

Chapter 9

Zinc	
9.1 Introduction.....	605
9.2 Sources and Uses.....	606
9.3 Chemical and Biochemical Properties.....	608
9.3.1 General.....	608
9.3.2 Chemical Properties.....	608
9.3.3 Metabolism.....	610
9.3.4 Interactions.....	612
9.4 Carcinogenicity, Mutagenicity, and Teratogenicity.....	616
9.4.1 General.....	616
9.4.2 Carcinogenicity.....	616
9.4.3 Mutagenicity.....	617
9.4.4 Teratogenicity.....	618
9.5 Concentrations in Field Collections.....	618
9.5.1 General.....	618
9.5.2 Nonbiological.....	619
9.5.3 Terrestrial Plants and Invertebrates.....	621
9.5.4 Aquatic Organisms.....	622
9.5.5 Birds.....	624
9.5.6 Mammals.....	625
9.6 Zinc Deficiency Effects.....	646
9.6.1 General.....	646
9.6.2 Terrestrial Plants.....	646
9.6.3 Aquatic Organisms.....	646
9.6.4 Birds.....	647
9.6.5 Mammals.....	648
9.7 Lethal and Sublethal Effects.....	652
9.7.1 General.....	652
9.7.2 Terrestrial Plants and Invertebrates.....	652
9.7.3 Aquatic Organisms.....	654
9.7.4 Birds.....	676
9.7.5 Mammals.....	679
9.8 Recommendations.....	685
9.9 Summary.....	694
9.10 Literature Cited.....	696

Index.....	715
