

HANDBOOK OF
CHEMICAL RISK
ASSESSMENT

**Health Hazards to Humans,
Plants, and Animals**

VOLUME 2

Organics

Ronald Eisler

Contents

Chapter 10

Acrolein

10.1	Introduction	739
10.2	Sources and Uses	740
10.2.1	General	740
10.2.2	Sources	740
10.2.3	Uses	741
10.3	Environmental Chemistry.....	742
10.3.1	General	742
10.3.2	Chemical Properties	742
10.3.3	Persistence	743
10.3.4	Metabolism.....	744
10.4	Lethal and Sublethal Effects	745
10.4.1	General	745
10.4.2	Terrestrial Plants and Invertebrates.....	746
10.4.3	Aquatic Organisms.....	746
10.4.4	Birds	751
10.4.5	Mammals	753
10.5	Recommendations	761
10.6	Summary	763
10.7	Literature Cited	764

Chapter 11

Atrazine

11.1	Introduction	767
11.2	Environmental Chemistry.....	767
11.3	Concentrations in Field Collections.....	770
11.4	Effects	773
11.4.1	General	773
11.4.2	Terrestrial Plants and Invertebrates.....	773
11.4.3	Aquatic Plants	776
11.4.4	Aquatic Animals.....	778
11.4.5	Birds	785
11.4.6	Mammals	786
11.5	Recommendations	788
11.6	Summary	790
11.7	Literature Cited	791

Chapter 12

Carbofuran

12.1	Introduction	799
12.2	Chemical Properties and Persistence	800
12.3	Lethal Effects	804
12.3.1	General	804
12.3.2	Aquatic Organisms.....	804
12.3.3	Birds and Mammals	805
12.3.4	Terrestrial Invertebrates.....	809
12.3.5	Plants	810
12.4	Sublethal Effects	810

12.4.1	General	810
12.4.2	Aquatic Organisms	811
12.4.3	Birds	813
12.4.4	Mammals	814
12.4.5	Terrestrial Invertebrates	815
12.5	Recommendations	815
12.6	Summary	816
12.7	Literature Cited	817

Chapter 13

Chlordane

13.1	Introduction	823
13.2	Chemical and Biochemical Properties	824
13.3	Uses	827
13.4	Concentrations in Field Collections	828
13.4.1	General	828
13.4.2	Nonbiological Samples	828
13.4.3	Terrestrial Crops	831
13.4.4	Aquatic Invertebrates	831
13.4.5	Fishes	831
13.4.6	Amphibians and Reptiles	833
13.4.7	Birds	833
13.4.8	Mammals	834
13.5	Lethal and Sublethal Effects	855
13.5.1	General	855
13.5.2	Terrestrial Invertebrates	855
13.5.3	Aquatic Organisms	855
13.5.4	Amphibians and Reptiles	860
13.5.5	Birds	860
13.5.6	Mammals	863
13.6	Recommendations	869
13.7	Summary	871
13.8	Literature Cited	873

Chapter 14

Chlorpyrifos

14.1	Introduction	883
14.2	Environmental Chemistry	883
14.3	Laboratory Investigations	886
14.3.1	Aquatic Organisms	886
14.3.2	Birds and Mammals	889
14.4	Field Investigations	892
14.5	Recommendations	895
14.6	Summary	896
14.7	Literature Cited	897

Chapter 15

Cyanide

15.1	Introduction	903
15.2	Chemical Properties	905
15.3	Mode of Action	908

15.4	Clinical Features.....	909
15.5	Antidotes	911
15.6	Sources and Uses	912
15.7	Concentrations in Field Collections.....	916
15.8	Persistence in Water, Soil, and Air	920
15.9	Lethal and Sublethal Effects.....	921
15.9.1	Terrestrial Flora and Invertebrates.....	921
15.9.2	Aquatic Organisms.....	923
15.9.3	Birds	931
15.9.4	Mammals.....	935
15.10	Recommendations	946
15.11	Summary	950
15.12	Literature Cited	952

Chapter 16

Diazinon

16.1	Introduction	961
16.2	Environmental Chemistry.....	962
16.3	Lethal Effects	964
16.3.1	General	964
16.3.2	Aquatic Organisms.....	964
16.3.3	Birds	966
16.3.4	Mammals.....	967
16.3.5	Terrestrial Invertebrates.....	969
16.4	Sublethal Effects	970
16.4.1	General	970
16.4.2	Aquatic Organisms.....	970
16.4.3	Birds	973
16.4.4	Mammals.....	973
16.4.5	Terrestrial Invertebrates.....	975
16.5	Recommendations	976
16.6	Summary	977
16.7	Literature Cited	978

Chapter 17

Diffubenzuron

17.1	Introduction	983
17.2	Environmental Chemistry.....	983
17.2.1	General	983
17.2.2	Chemical and Biochemical Properties.....	984
17.2.3	Persistence in Soil and Water	986
17.3	Uses	988
17.4	Lethal and Sublethal Effects.....	988
17.4.1	General	988
17.4.2	Terrestrial Plants.....	989
17.4.3	Terrestrial Invertebrates.....	990
17.4.4	Aquatic Organisms: Laboratory Studies.....	993
17.4.5	Aquatic Organisms: Field Studies	1002
17.4.6	Birds	1004
17.4.7	Mammals.....	1007
17.5	Recommendations	1011

17.6	Summary	1013
17.7	Literature Cited	1014

Chapter 18

Dioxins

18.1	Introduction	1021
18.2	Environmental Chemistry.....	1022
18.3	Concentrations in Field Collections.....	1025
18.4	Lethal and Sublethal Effects	1039
18.4.1	General	1039
18.4.2	Terrestrial Plants and Invertebrates.....	1039
18.4.3	Aquatic Organisms.....	1040
18.4.4	Birds	1047
18.4.5	Mammals	1048
18.5	Recommendations	1052
18.6	Summary	1056
18.7	Literature Cited	1057

Chapter 19

Famphur

19.1	Introduction	1067
19.2	Uses	1067
19.3	Chemistry and Metabolism.....	1068
19.4	Lethal and Sublethal Effects	1071
19.4.1	General	1071
19.4.2	Terrestrial Invertebrates.....	1071
19.4.3	Aquatic Organisms.....	1073
19.4.4	Birds	1074
19.4.5	Mammals.....	1077
19.5	Recommendations	1083
19.6	Summary	1084
19.7	Literature Cited	1085

Chapter 20

Fenvalerate

20.1	Introduction	1089
20.2	Environmental Chemistry.....	1090
20.2.1	General	1090
20.2.2	Chemical Properties	1090
20.2.3	Uses	1091
20.2.4	Persistence	1093
20.3	Mode of Action	1097
20.3.1	General	1097
20.3.2	Types of Pyrethroids	1097
20.3.3	Sodium Gating Kinetics.....	1098
20.3.4	Metabolism.....	1099
20.3.5	Mutagenicity, Teratogenicity, and Carcinogenicity	1100
20.4	Effects.....	1101
20.4.1	General	1101
20.4.2	Terrestrial Plants and Invertebrates.....	1102
20.4.3	Aquatic Organisms.....	1104

20.4.4	Birds	1113
20.4.5	Mammals	1115
20.5	Recommendations	1122
20.6	Summary	1124
20.7	Literature Cited	1125

Chapter 21

Mirex

21.1	Introduction	1133
21.2	Chemical Properties	1133
21.3	Lethal Effects	1134
21.3.1	Aquatic Organisms	1134
21.3.2	Birds and Mammals	1135
21.4	Sublethal Effects	1136
21.4.1	Aquatic Organisms	1136
21.4.2	Birds	1137
21.4.3	Mammals	1137
21.5	Bioaccumulation	1139
21.5.1	Aquatic Organisms	1139
21.5.2	Birds and Mammals	1140
21.6	Mirex in the Southeastern United States	1143
21.7	Mirex in the Great Lakes	1146
21.8	Mirex in Other Geographic Areas	1149
21.9	Recommendations	1150
21.10	Summary	1152
21.11	Literature Cited	1152

Chapter 22

Paraquat

22.1	Introduction	1159
22.2	Uses	1160
22.3	Concentrations in Field Collections	1160
22.4	Environmental Chemistry	1161
22.4.1	General	1161
22.4.2	Chemical Properties	1162
22.4.3	Mode of Action	1162
22.4.4	Fate in Soils and Water	1165
22.5	Lethal and Sublethal Effects	1167
22.5.1	General	1167
22.5.2	Terrestrial Plants and Invertebrates	1167
22.5.3	Aquatic Organisms	1169
22.5.4	Birds	1174
22.5.5	Mammals	1177
22.6	Recommendations	1183
22.7	Summary	1185
22.8	Literature Cited	1186

Chapter 23

Pentachlorophenol

23.1	Introduction	1193
23.2	Environmental Chemistry	1194

23.2.1	General	1194
23.2.2	Sources and Uses	1194
23.2.3	Properties	1196
23.2.4	Fate	1198
23.3	Concentrations in Field Collections.....	1200
23.3.1	General	1200
23.3.2	Biological and Nonbiological Samples	1200
23.4	Effects.....	1203
23.4.1	General	1203
23.4.2	Terrestrial Plants and Invertebrates.....	1204
23.4.3	Aquatic Biota	1205
23.4.4	Birds	1213
23.4.5	Mammals	1215
23.5	Recommendations	1221
23.6	Summary	1225
23.7	Literature Cited	1226

Chapter 24

Polychlorinated Biphenyls

24.1	Introduction	1237
24.2	Sources and Uses	1237
24.3	Chemical and Biochemical Properties.....	1238
24.3.1	General	1238
24.3.2	Physical Properties	1240
24.3.3	Toxic Equivalency Factors	1245
24.3.4	Structure-Function Relations.....	1247
24.3.5	Quantitation	1250
24.4	Concentrations in Field Collections.....	1255
24.4.1	General	1255
24.4.2	Nonbiological Materials.....	1255
24.4.3	Marine Mammals	1262
24.4.4	Other Aquatic Organisms.....	1280
24.4.5	Reptiles.....	1285
24.4.6	Birds	1287
24.4.7	Terrestrial Mammals	1298
24.5	Lethal and Sublethal Effects	1301
24.5.1	General	1301
24.5.2	Aquatic Organisms	1302
24.5.3	Birds	1307
24.5.4	Mammals	1312
24.6	Recommendations	1318
24.7	Summary	1322
24.8	Literature Cited	1323

Chapter 25

Polycyclic Aromatic Hydrocarbons

25.1	Introduction	1343
25.2	Environmental Chemistry, Sources, and Fate.....	1344
25.2.1	Properties.....	1344
25.2.2	Sources	1345
25.2.3	Fate	1349

25.3	Concentrations in Field Collections.....	1353
25.3.1	General	1353
25.3.2	Nonbiological*Samples	1353
25.3.3	Biological Samples.....	1361
25.4	Lethal and Sublethal Effects	1370
25.4.1	General	1370
25.4.2	Fungi.....	1370
25.4.3	Terrestrial Plants.....	1371
25.4.4	Aquatic Biota	1371
25.4.5	Amphibians and Reptiles	1385
25.4.6	Birds	1385
25.4.7	Mammals	1386
25.5	Recommendations	1391
25.6	Summary	1396
25.7	Literature Cited	1397

Chapter 26

Sodium Monofluoroacetate

26.1	Introduction	1413
26.2	Uses	1414
26.2.1	Domestic Use	1414
26.2.2	Nondomestic Use	1417
26.3	Environmental Chemistry.....	1419
26.3.1	General	1419
26.3.2	Chemical Properties	1419
26.3.3	Persistence	1420
26.3.4	Metabolism.....	1422
26.3.5	Antidotes	1424
26.4	Lethal and Sublethal Effects	1426
26.4.1	General	1426
26.4.2	Terrestrial Plants and Invertebrates.....	1426
26.4.3	Aquatic Organisms.....	1428
26.4.4	Amphibians and Reptiles	1429
26.4.5	Birds	1430
26.4.6	Mammals	1437
26.5	Recommendations	1449
26.6	Summary	1451
26.7	Literature Cited	1452

Chapter 27

Toxaphene

27.1	Introduction	1459
27.2	Environmental Chemistry.....	1460
27.3	Concentrations in Field Populations	1462
27.4	Lethal Effects	1467
27.5	Sublethal Effects	1470
27.6	Recommendations	1474
27.7	Summary	1475
27.8	Literature Cited	1478

Index	1483
