Contributors	ix
Preface	xv

I HISTORICAL OVERVIEW

1. Molecular Mechanisms of T Cell-Mediated Cytotoxicity	1
<i>Pierre Golstein</i>	

II TARGET CELL RECOGNITION

2. MHC Class I Interactions in T Cell and Natural Killer Cell Immunity	15
<i>David H. Margulies, Doo Hyun Chung, Fumito Tani, and Kannan Natarajan</i>	
3. Antigen Recognition by CD8 ⁺ CTLs	25
<i>Denis Hudrisier and Immanuel F. Luescher</i>	
4. Murine NK Receptors: Ly-49 Expression, Function, and Intracellular Signaling	45
<i>John R. Ortaldo and Daniel W. McVicar</i>	
5. TCR-Initiated Adhesion and Signaling Cascades in CTL Activation ...	65
<i>Matthew F. Mescher and Paige L. Jensen</i>	
6. Lysis of Innocent Bystanders by Antigen-Specific Cytotoxic Lymphocytes	79
<i>Hidefumi Kojima and Michail V. Sitkovsky</i>	

III EFFECTOR CELL SIGNALING PATHWAYS

7. Signaling for Cytotoxicity in LGLs	87
<i>Dragan Jevremovic and Paul J. Leibson</i>	
8. Role of Nonimmune Extracellular Signaling Molecules in the Local Tissue Environment During CTL Differentiation and Effector Functions	101
<i>Michail V. Sitkovsky and Sergey G. Apasov</i>	

IV CYTOTOXIC EFFECTOR MOLECULES

9. Overview of Cytotoxic Lymphocyte Effector Mechanisms	111
<i>Pierre A. Henkart</i>	

10. Control of Perforin Gene Expression: A Paradigm for Understanding Cytotoxic Lymphocytes?	123
<i>Mathias G. Lichtenheld</i>	
11. Perforin: Structure, Biosynthesis, and Immune Regulatory Functions ..	147
<i>Eckhard R. Podack</i>	
12. Granule-Mediated Apoptosis: Delivering Death	157
<i>Christopher J. Froelich</i>	
13. Granzymes: Mediation of Pro-apoptotic and Nonapoptotic Functions of Cytolytic Lymphocytes and Regulation by Endogenous Intracellular and Circulating Inhibitors	179
<i>Joseph A. Trapani and Phillip I. Bird</i>	
14. Role of Granzymes in Target Cell Lysis and Viral Infections	197
<i>Markus M. Simon and Arno Müllbacher</i>	
15. Granulysin and NK-Lysin: Cytotoxic and Antimicrobial Proteins of Cytolytic Lymphocytes	213
<i>Dennis A. Hanson and Alan M. Krensky</i>	
16. TCR-Induced Signaling for Cytotoxicity: Regulation of CD95L (Fas Ligand) Expression in Activated T Lymphocytes	229
<i>Lyse A. Norian and Gary A. Koretzky</i>	
17. Transcriptional Regulation of the FasL Gene	239
<i>Alicia Algeciras-Schimmich and Carlos V. Paya</i>	

V CYTOTOXIC LYMPHOCYTES *IN VIVO*

18. Perforin-Dependent Cytotoxicity in Autoimmunity and Antiviral Resistance	249
<i>David Kägi</i>	
19. Cytotoxic Lymphocytes in Hepatitis B	257
<i>Barbara Rehermann</i>	
20. Cytotoxic T-Cell Responses to Intracellular Pathogens	269
<i>Steffen Stenger and Robert L. Modlin</i>	
21. Tumor Surveillance <i>In Vivo</i> Depends on Perforin-Mediated Cytolysis	281
<i>Maries F. van den Broek, David Kägi, and Hans Hengartner</i>	
22. Role of Fas-Dependent Lytic Function in <i>In Vivo</i> Immune Regulation and Pathogenesis	289
<i>Kimberly A. Sabelko-Downes, Anja R. B. Thilenius, Kathleen A. Kelly, and John H. Russell</i>	

VI CTL GENERATION AND MEMORY

23. Helping Killers 303
John Paul Ridge, Francesca Di Rosa, and Polly Matzinger
24. Cytotoxic T Cell Memory 317
Arno Müllbacher and Robert V. Blanden
25. CD8 Memory to Viruses and the T Cell Network 327
*Liisa K. Selin, Meei Y. Lin, Steven M. Varga, and
Raymond M. Welsh*

VII MEDICAL APPLICATIONS OF CYTOTOXIC LYMPHOCYTES

26. Tumor Antigens Recognized by Cytotoxic Lymphocytes 363
Paul F. Robbins, Rong-Fu Wang, and Steven A. Rosenberg
27. Manipulation of T Cell Activation to Generate Antitumor CTLs 385
*Arthur A. Hurwitz, Andrea van Elsas, Dana R. Leach,
Jennifer Ziskin, Jennifer Villasenor, Tan Truong,
and James P. Allison*
28. Use of Bacterial DNA in Vaccines for CTL Generation 395
Grayson B. Lipford and Hermann Wagner
29. Redirected Cellular Cytotoxicity 405
*David M. Segal, Stuart W. Hicks, Alessandra Mazzoni,
and Alberto Visintin*
30. Clinical Applications of Redirected Cytotoxicity 423
Reinder L. H. Bolhuis, Ralph A. Willemsen, and Jan W. Gratama
31. Cytotoxic T Lymphocyte Adoptive Immunotherapy for
HIV Infection 441
Judy Lieberman

- Subject Index 459
