

STEVEN G. KRANTZ

Handbook of

Typography
for the
**Mathematical
Sciences**

CHAPMAN & HALL/CRC

Table of Contents

1	Basic Principles	1
1.1	An Overview	1
1.2	Choice of Notation	3
1.3	Displaying Mathematics	7
1.4	Consistency	8
1.5	Overall Design	9
2	Typesetting Mathematics	13
2.0	Introductory Remarks	13
2.1	What is TeX?	13
2.2	Methods of Typesetting Mathematics	15
2.3	A Lightning Tour of TeX	16
2.4	The Guts of TeX	19
2.5	Modes of Typesetting Mathematics	25
2.6	Line Breaks in Displayed Mathematics	26
2.7	Types of Space	30
2.8	Technical Issues	34
2.9	Including Graphics in a TeX Document	40
2.9.1	Handling Graphics in the Computer Environment	45
2.9.2	The Inclusion of a PostScript® Graphic	45
2.9.3	Graphics and the L ^A T _E X ₂ _ε Environment	47
2.9.4	The Use of PCT _E X®	48
2.9.5	Freeware that Will Handle Graphics	49
3	TeX and the Typesetting of Text	51
3.1	Other Word Processors and Typesetting Systems	51
3.2	Modes of Typesetting Text	53
3.3	Hyphens and Dashes	57
3.4	Alignment	58
3.5	Typesetting Material in Two Columns	59
3.6	Some Technical Textual Issues	59
4	Front Matter and Back Matter	63
4.1	The Beginning	63
4.2	The End	64
4.3	Concluding Remarks	69
5	Copy Editing	71
5.1	Traditional Methods of Copy Editing	71
5.2	Communicating with Your Copy Editor	71
5.3	Communicating with Your Typesetter	72

5.4	Communicating with Your Editor	73
5.5	Modern Methods of Copy Editing	73
5.6	More on Interacting with Your Copy Editor	73
5.7	Manuscript Proofs, Galley Proofs, and Page Proofs . . .	75
5.8	The End of the Process	76
6	The Production Process	79
6.1	Production of a Paper	79
6.2	Production of a Book	81
6.3	What Happens at the Printer's	83
7	Publishing on the Web	87
7.1	Introductory Remarks	87
7.2	How to Get on the Web	87
7.3	Web Resources	89
7.4	Mathematics and the Web	91
7.5	Software to Go with your Book or Article; Web Sites . .	93
	Appendix I: Copy Editor's/Proofreader's Marks	97
	Appendix II: Use of Copy Editor's Marks	101
	Appendix III: Specialized Mathematics Symbols	103
	Appendix IV: Standard Alphabets	109
	Appendix V: Alternative Mathematical Notations	111
	Appendix VI: T_EX, PostScript,[®] Acrobat,[®] and Related Internet Sites	113
	Appendix VII: Basic T_EX Commands	117
	Appendix VIII: A Sample of L^AT_EX	123
	Glossary	133
	References	159
	Resources by Type	161
	Index	167
