ISCOWA

Table of contents

Foreword	v
Calcium silicate products with crushed building and demolition waste <i>H. M. L. Schuur</i>	1
Predicting strength properties of fine cementless fly ash — furnace bottom ash concrete <i>N. V. Vegerova</i>	12
Development of utilization technologies for Mt. Pinatubo ejecta as prime material for concrete: Part 1 — Concrete material structure-property characterization <i>G. Shimizu, P.A. Jorillo Jr., H. Adachi, B.A. Lejano, R.O. Baarde, M. Nakanishi</i>	21
Development of utilization technologies for Mt. Pinatubo ejecta as prime material for concrete: Part 2 — Testing the Structural Performance of Modular Panels <i>P.A. Jorillo Jr., B.A. Lejano, H. Adachi, G. Shimizu, R.O. Baarde, M. Nakanishi, H. Tsuboyama</i>	36
New technology approach to age-old waste material (natural fibers) for composites <i>P.A. Jorillo Jr., G. Shimizu, T. Suzuki</i>	45
Production of low-cost by-product fillers <i>C.F. Bonney, V.P. Fenton, R.J. Clark, W.L. Barrett, A.-P. Ziogas, D. Harrison, M. Grossou-Válta</i>	57
Steel Fibers made from Steel Cans in Concrete engineering <i>A. Keyvani, N. Saeki</i>	66
Carbonation and leaching of Portland cement with various blending materials <i>S. Miletić, M. Ilić, Ž. Copkov, R. Munitlak</i>	75
Solidification of lead ions in Portland cement matrix <i>M. Ilić, S. Miletić, D. Mili, I. Brěski</i>	87
Recycling and up-grading utility arisings and quarry wastes for highway construction and maintenance <i>N. Ghazireh, H.L. Robinson</i>	98
Progress towards achieving ecologically sustainable concrete and road pavements in Australia <i>I. Dumitru, R. Munn, G. Smorchevsky</i>	107
The use of reclaimed asphalt pavement (RAP) aggregates in concrete <i>K.E. Hassan, J.J. Brooks, M. Erdman</i>	121
Preliminary laboratory investigation of thermally treated recycled concrete aggregate for general use in concrete <i>J.A. Larbi, W.M.M. Heijnen, J.P. Brouwer, E. Mulder</i>	129
Evaluation of solid-stabilized products made from Cr(VI)-containing ferrochrome bag-filter dust <i>E.W. Giesecke, J.P. Smit, E.A. Viljoen, A.W. Kruger, S.J. Kruger, C.F. Maine</i>	140
Durability study of a sewage sludge-cement-sand system and its environmental impact <i>S. Valls, E. Vázquez</i>	151

Quality control and certification of waste materials in Rotterdam <i>J. van Leeuwen, F. ten Vaarwerk</i>	162
Influence of the cement type on the stabilisation of fly ashes from municipal solid waste incineration <i>E. Fernández, A. Macías, A. Guerrero, M.P. Lorenzo, S. Goñi</i>	169
Hydrothermal treatment of fly ash from municipal solid waste incineration <i>A. Guerrero, E. Fernández, A. Macías, S. Goñi</i>	178
PVC and PET plastics taken from solid urban waste in bituminous concrete <i>M. Bocci, S. Colagrande, A. Montepara</i>	186
Leaching standard for quality control of aggregates <i>R. Białucha</i>	196
Products of steel slags: An opportunity to save natural resources <i>H. Motz, J. Geiseler</i>	207
Accelerated ASR testing of recycled concrete <i>D.L. Gress, R.L. Kozikowski, T.T. Eighmy</i>	221
The use of fly ash as a substitute of cement in microsurfacing <i>A. Nikolaidis, N. Oikonomou</i>	234
Composition of organic matter in bottom ash from MSWI <i>I. Pavasars</i>	241
Environmental impact of ferrochrome slag in road construction <i>B.B. Lind, A.-M. Fällman, L. B. Larsson</i>	247
Mineralogical, hydraulic and mechanical characterisation of solidified and stabilised MSWI Fly Ash. Contribution of blast furnace slag <i>S.B. Morel, P. Clastres, A. Pellequer</i>	260
Lead, zinc and chromium (III) and (VI) speciation in hydrated cement phases <i>I. Moulin, J. Rose, W. Stone, J.-Y. Bottero, F. Mosnier, C. Haehnel</i>	269
Thermal treatment of iron oxide stabilized APC residues from waste incineration and the effect on heavy metal binding <i>M.A. Sørensen, M. Stackpoole, C. Bender-Koch, R. Bordia, M.M. Benjamin, T.H. Christensen</i>	281
On-site treatment and landfilling of MSWI air pollution control residues <i>K. Lundtorp, D.L. Jensen, M.A. Sørensen, T.H. Christensen</i>	287
Stabilization of waste incinerator APC-residues with FeSO_4 <i>T.H. Christensen, K. Lundtorp, D.L. Jensen, M.A. Sørensen, E.P.B. Mogensen</i>	297
Environmental management in tanneries — Waste minimisation opportunities <i>E.A.M.E. Archeti, N.N.B. Salvador</i>	306
Prediction of inorganic pollutant release from various cement based materials in disposal/utilisation scenario based on the application of a multi-parameter leaching tool box <i>A. Imyim, L. Tiruta-Barna, R. Barna, J. Méhu</i>	318
Recycling options for gypsum from construction and demolition waste <i>K.C. Vrancken, B. Laethem</i>	325
Analysis of literature data from 3,000 cement/waste products <i>I. Fernández, P. Somarriba, A. Irabien</i>	332

High-performance concrete for sustainable constructions <i>G.C. Isaia</i>	344
Significance in the results of total composition and potential leachability of screened MSWI BA from different plants and sampling periods <i>A.-M. Fällman</i>	355
Effect of mineral admixtures on some properties of sand-lime bricks <i>Z. Pytel, J. Maolepszy</i>	371
Recycling of partially hydrated concrete <i>A. Katz</i>	383
Leaching behaviour of a chromium smelter waste heap <i>D. Deakin, L.J. West, D.I. Stewart, B.W.D. Yardley</i>	392
Use of sulphate containing sieve sands in building materials <i>J.P. Brouwer, E. Mulder, J. Frénay, J. Blaakmeer, C. van Opstal</i>	402
Observations of leaching of low concentration contaminants from alternative aggregates in road constructions <i>A.R. Hill, A.R. Dawson</i>	411
The use of MSWI (Municipal Solid Waste Incineration) bottom ash as aggregates in hydraulic concrete <i>B. Quenee, G. Li, J.M. Siwak, V. Basuyau</i>	422
Life-cycle impacts of the use of industrial by-products in road and earth construction <i>U.-M. Mroueh, J. Laine-Ylijoki, P. Eskola</i>	438
Assessment of environmental impacts of foundry waste in utilisation and disposal <i>J. Laine-Ylijoki, M. Wahlström, J. Orkas</i>	449
Leaching of PCBs and Chlorophenols from contaminated soil and waste-influence of leaching test characteristics <i>M. Wahlström, J. Laine-Ylijoki, M. Pihlajaniemi, M. Ojala</i>	462
Forecasting the long-term behaviour of municipal solid waste incineration bottom ash: rapid combined tests <i>F. Bodéan, M. Azaroual, P. Piantone</i>	475
Developments in electroremediation and phytoremediation for the treatment of metal contaminated soils <i>M.M. Page, C.L. Page</i>	483
Studies on crystalline rice husk ashes and the activation of their pozzolanic properties <i>J. Payá, J. Monzó, M.V. Borrachero, E. Peris-Mora, L.M. Ordóñez</i>	493
Assessment of the ecocompatibility of waste disposal or waste use scenarios: towards the elaboration and implementation of a comprehensive methodology <i>Y. Perrodin, L. Grelier-Volatie, R. Barna, A. Gobbey</i>	504
Research & development methodology for recycling residues as building materials — A proposal <i>V.M. John, S.E. Zordan</i>	513
A laboratory experimental set-up for the study of organic compounds transport through unsaturated soils <i>P. Viotti, M. Petrangeli Papini, C. Chiulli</i>	525

Sustainable ash pond development in India — a resource for forestry and agriculture <i>C. Zevenbergen, J.P. Bradley, A.K. Shyam, H.A. Jenner, R.J.P.M. Platenburg</i>	533
Behaviour of cement-treated MSWI bottom ash <i>G. Pecqueur, C. Crignon, B. Quénée</i>	541
The re-utilisation of discarded building materials in cement-stabilised layers of road and airfield pavements <i>M. Pasetto</i>	548
Variation in mechanical properties of MSW incinerator bottom ash: Results from triaxial tests <i>M. Arm</i>	567
Self-cementing properties of crushed demolishing concrete in unbound layers: Results from triaxial tests and field tests <i>M. Arm</i>	579
The mechanism of lead (Pb) leaching from incinerator fly ash in monodisposal landfill <i>K. Miyawaki, T. Shimaoka, M. Hanashima, T. Shinohara, M. Nishigaki</i>	588
Heavy metal elution characteristics from municipal solid waste scrubber residue by a centrifugation method <i>T. Shimaoka, K. Miyawaki, M. Hanashima, T. Yoshida, T. Uchida</i>	595
Requirements for a realistic estimate of the source term for heavy metal elution from mineral wastes <i>J. Mönig, C. Reichelt, T. Brasser</i>	604
Disposal options for spent potlining <i>I. Rustad, K.H. Karstensen, K.E. Ødegård</i>	617
Speciation of metals in soil solutions — the concept of forced — shift — equilibrium: quantification of the complexing ability of soil solutions <i>K.E. Ødegård, K.H. Karstensen, W. Lund</i>	633
Seven years of experiences with lysimeter leaching of pulverised fuel ash <i>R. Meij, B.H. te Winkel</i>	645
Utilization of wastes in ground improvement works <i>G. Rajasekaran, S. Nagan</i>	656
Leaching processes in cement-stabilised municipal incinerator air pollution control residues <i>I. Baur, Ch. Ludwig, C.A. Johnson</i>	662
Using rice husk ash as a cement replacement material in concrete <i>M. Anwar, T. Miyagawa, M. Gaweesh</i>	671
Modelling the effects of waste components on cement hydration <i>R.J. van Eijk, H.J.H. Brouwers</i>	685
Leaching behaviour of synthetic aggregates <i>H.A. van der Sloot, D. Hoede, D.J.F. Cresswell, J.R. Barton</i>	695
Leaching of heavy metals from soils — an analysis <i>T. Honders, M. Gadella, P. de Wilde, C. Zevenbergen</i>	707
The development of a code of practice for the environmental sound use of PFA as a fill <i>R. Coombs, L.K.A. Sear</i>	717

Leaching behaviours of heavy metals from MSWI residues and Pb adsorption onto the residues under alkaline condition <i>S. Mizutani, S. Sakai, H. Takatsuki</i>	726
Assessment of the leaching due to degradation factors of stabilised/solidified waste materials <i>F. Felix, A.L.A. Fraaij, Ch.F. Hendriks</i>	733
Reuse of secondary lead smelter slag in the manufacture of concrete blocks <i>R. Cioffi, M. Lavorgna, L. Santoro</i>	741
Calcium sulphotoaluminate cements made from fluidized bed combustion wastes <i>G. Bernardo, M. Marroccoli, F. Montagnaro, G.L. Valenti</i>	750
Synthetic aggregates from combustion ashes using an innovative rotary kiln <i>P.J. Wainwright, D.J.F. Cresswell</i>	759
The properties of recycled precast concrete hollow core slabs for use as replacement aggregate in concrete <i>B.E. Marmash, K.S. Elliott</i>	769
Effects of foundry dusts on the mechanical, microstructural and leaching characteristics of a cementitious system <i>C. Gervais, S.K. Ouki</i>	782
Physical properties and acid neutralisation capacity of incinerator bottom ash — Portland cement mixtures <i>A. Poletini, S. Poletini, R. Pomi, P. Sirini</i>	791
Synthesis of solidification experience for synthetic wastes <i>J.A. Stegemann, N.R. Buenfeld</i>	803
Re-use of abandoned coal mining waste deposits for the production of construction materials: a case of innovative tendering <i>D. Smink, J.J.M. Heynen</i>	814
Construction waste characterisation for production of recycled aggregate — Salvador/Brazil <i>A.P. Carneiro, J.C. Cassa, I.A. de Brum, A.M. Vieira, A.D.B. Costa, T.S. Sampaio, E.P.V. Alberte</i>	825
Solid urban wastes minimization and energy conservation — A challenge for the 21 st century in Brazil <i>P.H. Kanayama, L.B. dos Reis, M.E.M. Udaeta</i>	836
Use of waste generated by shoe counter scrap pieces in plaster of Paris composites <i>C.S. Kazmierczak, A.P. Kern, I.S. Santos, H.C. Silva, M.V. Ramires</i>	848
Testing of soil and inorganic residues prior to utilisation: Development of rational limit values and adaptation of test methods <i>O. Hjelm, P.E. Holm, N.K.J. Lehmann</i>	857
Further development of a process for treatment of APC residues from MSW incinerators <i>O. Hjelm, H. Birch, J.B. Hansen</i>	872
Recycled aggregate concrete sound barriers for urban freeways <i>Z.A. Krezel, K. McManus</i>	884

Substance flow analysis of persistent toxic substances in the recycling process of municipal solid waste incineration residues <i>S. Sakai, S. Mizutani, T. Uchida, T. Yoshida</i>	893
New trends on EAF slags management in the Basque Country <i>G. Ortiz de Urbina, A. Egizabal, R. San Martín</i>	904
The environmental quality of fly ashes from co-combustion <i>F.J.M. Lamers, M. Beerlage, J.W. van den Berg</i>	916
A dynamic approach to the assessment of leaching behavior <i>K.H. Gardner, T.L. Theis</i>	927
An initial investigation of the use of a rubber waste (EPDM) in asphalt concrete mixtures <i>J.B. Metcalf, K. Gopalakrishnan, M.D. Waters</i>	940
Immobilisation of PAH in waste materials <i>E. Mulder, J.P. Brouwer, J. Blaakmeer, J.W. Frénay</i>	953
The Building Materials Decree: an example of a Dutch regulation based on the potential impact of materials on the environment <i>R.T.Eikelboom, E. Ruwiel, J.J.J.M. Goumans</i>	963
The following papers were presented as posters:	
Chemical-mineralogical valuation of the leachate potential of municipal solid waste incineration (MSWI) bottom ashes <i>G. Pfrang-Stotz, J. Reichelt, R. Roos</i>	975
Fine cementless concretes from industrial by-products for various uses <i>S.I. Pavlenko, N.V. Vegerova, A.V. Aksenov, V.I. Malyshkin</i>	984
Use of crushed waste aggregates for DBM road bases <i>A. Montepara, G. Tebaldi</i>	996
The Recycled Materials Resource Center: a new partnership promoting the wise use of recycled materials in the highway environment <i>B.J. Magee, K.H. Gardner, D.L. Gress, T. T. Eighmy, M. Simon</i>	1008
Characterization of lagoon sediments and their pollutant charge. Proposals for reusing <i>E. Peris Mora, J. Monzó, J. Payá, M.V. Borrachero</i>	1014
A proposed methodology for in-situ treatment of MSW leachate <i>E. Safari, C. Baronian</i>	1022
Re-use of arisings and waste materials for reinstatements <i>M.H. Burtwell</i>	1030
Cold in-situ recycling of structural pavement layers <i>M. Earland</i>	1037
A preliminary investigation of the removal of heavy metal species from aqueous media using crushed concrete fines <i>D.C. Johnson, N.J. Coleman, J. Lane, C.D. Hills, A.B. Poole</i>	1044
