

In Vitro

Toxicology

Second Edition

Shayne C. Gad

Contents

Contributors	vi
Preface	ix
1. Introduction S. C. Gad	1
2. General Principles for <i>In Vitro</i> S. C. Gad	12
3. Ocular Toxicity Assessment <i>In Vitro</i> Toxicology J. F. Sina	23
4. <i>In Vitro</i> Methods to Predict Skin Irritation A. L. Chew & H. I. Maibach	49
5. Lethality Testing S. C. Gad	62
6. <i>In Vitro</i> Genetic Toxicity Testing A. D. Mitchell	94
7. Pyrogenicity and Muscle Irritation S. C. Gad	128
8. <i>In Vitro</i> Models for Evaluating Developmental Toxicity T. A. Lewadowski, R. A. Ponce, S. G. Whittaker, and E. M. Faustman	139
9. Neurotoxicology <i>In Vitro</i> S. C. Gad	188
10. <i>In Vitro</i> Assessment of Nephrotoxicity J. B. Tarloff	222
11. Primary Hepatocyte Culture as an <i>In Vitro</i> Toxicologic System for the Liver S. C. Gad	275
12. Application of <i>In Vitro</i> Model Systems to Study Cardiovascular Toxicity K. S. Ramos and D. Acosta	305
13. Gastrointestinal Toxicology: <i>In Vitro</i> Test Systems S. C. Gad	326

14. <i>In Vitro</i> Immunotoxicology <i>M. Pallardy, H. Lebrech, S. Kerdine, F. G. Burleson, and G. R. Burleson</i>	347
13. Strategy and Tactics for Employment <i>S. C. Gad</i>	365
16. Scientific and Regulatory Considerations in the Development of <i>In Vitro</i> Techniques in Toxicology <i>P. D. Williams</i>	380
17. Safety Issues in the Use of Human Tissue by <i>In Vitro</i> Metabolism and Toxicology Laboratories <i>C. E. Green, J. Teichman, and K. L. Allen</i>	388
Index	397
