<i>List of Figures</i>	<i>xi</i>
<i>Preface</i>	<i>xv</i>
<i>Introduction</i>	<i>xvii</i>

<b>1 Java Strings</b>	<b>1</b>
Optimization 1: String Concatenation . . . . .	1
Optimization 2: Fight Object Overpopulation . . . . .	6
Optimization 3: String Equality . . . . .	11
Optimization 4: Characters to Bytes and Back . . . . .	14
Optimization 5: StringTokenizer . . . . .	18
Optimization 6: charAt() . . . . .	23
Optimization 7: Prefer charAt() to startsWith() . . . . .	28
Optimization 8: Reserve StringBuffer Capacity . . . . .	30
Key Points . . . . .	31
<b>2 Pure Overhead</b>	<b>33</b>
Optimization 9: Useless Computations . . . . .	33
Optimization 10: Don't Trace Trivial Methods . . . . .	38
Optimization 11: Making Overhead Vanish . . . . .	39
Optimization 12: Premature Object Creation . . . . .	40
Optimization 13: Don't Initialize Twice . . . . .	42
Optimization 14: Do You Really Need to Zero-Out a Buffer? . . . . .	44
Optimization 15: The 80–20 Principle . . . . .	45
Optimization 16: Purge Obsolete Code . . . . .	49
Key Points . . . . .	50

<b>3</b>	<b>Vectors and Hashtables</b>	<b>53</b>
	Optimization 17: Vector Add and Remove .....	53
	Optimization 18: Vector Capacity .....	55
	Optimization 19: Vector Enumeration .....	57
	Optimization 20: Efficient Vector Class .....	60
	Optimization 21: Using the API Wisely .....	67
	Optimization 22: Hashtable Parameters .....	70
	Optimization 23: Speed Up hashCode() .....	72
	Optimization 24: Speed Up equals() .....	77
	Key Points .....	78
<b>4</b>	<b>Caching</b>	<b>81</b>
	Optimization 25: Cache File Contents .....	82
	Optimization 26: Design Caching into Your API .....	84
	Optimization 27: Precompute .....	85
	Optimization 28: Relax Granularity .....	88
	Optimization 29: Inheritance .....	92
	Key Points .....	94
<b>5</b>	<b>I/O Streams</b>	<b>97</b>
	Example I/O Code .....	97
	Optimization 30: Output Buffering .....	100
	Optimization 31: Don't Flush Prematurely .....	102
	Optimization 32: Prefer Byte Stream to Unicode .....	105
	Optimization 33: Input Buffering .....	107
	Optimization 34: Byte-to-Char Conversions .....	109
	Optimization 35: Binary I/O .....	110
	Key Points .....	117
<b>6</b>	<b>Recycling</b>	<b>119</b>
	Optimization 36: Object Recycling .....	120
	Optimization 37: Object Pools .....	122
	Optimization 38: Last In, First Out .....	125
	Key Points .....	126

<b>7</b>	<b>Scalability and Multithreading</b>	<b>127</b>
	Scalability Basics .....	128
	The SMP Architecture .....	130
	Amdahl's Law.....	132
	Multithreaded and Synchronization Terminology.....	133
	The Cost of Synchronization.....	136
	Optimization 39: Parallel Subtasks.....	142
	Optimization 40: Synchronization False Sharing .....	144
	Optimization 41: Lock Fusion.....	148
	Optimization 42: Code Motion.....	152
	Optimization 43: Share Nothing.....	155
	Optimization 44: Partial Sharing .....	156
	Optimization 45: Read/Write Locks .....	158
	Key Points .....	159
<b>8</b>	<b>JNI</b>	<b>161</b>
	Optimization 46: JNI Surprise .....	161
	Optimization 47: JNI to the Rescue .....	163
	Optimization 48: Prefer <code>System.arraycopy()</code> .....	165
	Key Points .....	167
<b>9</b>	<b>RMI</b>	<b>169</b>
	The RMI Network Plumbing .....	169
	Varying the Server Workload .....	174
	RMI Server on Remote Machine .....	181
	Serializing Heavyweight Objects .....	182
	Key Points .....	184
<b>10</b>	<b>Servlets</b>	<b>185</b>
	Servlets Using <code>PrintWriter</code> .....	186
	Servlets Using <code>ServletOutputStream</code> .....	189
	Precomputing Message Bytes .....	191
	Pumping More Data .....	193
	<code>PingServlet</code> —A Performance Upper Bound .....	196

Extending PingServlet .....	197
Session State.....	198
PingJdbc.....	200
Caching JDBC Connections .....	203
JSP—Java Server Pages .....	205
RMI .....	206
Key Points .....	209

## 11 A Java Web Server 211

Version 1: The Original Server .....	211
Version 2 .....	215
Version 3 .....	219
Version 4 .....	222
Version 5 .....	229
Version 6 .....	234
Key Point .....	237

## A Caching JDBC Connections 239

CacheDriver.java.....	239
CacheConnection.java.....	246
CacheStatement.java.....	251
CacheCallableStatement.java.....	255
CachePreparedStatement.java.....	259
CacheDriver.properties .....	264

## B Simple Java Web Server 265

Server.java .....	265
FileInfo.java .....	274
UrlCache.java .....	275
LazyDate.java .....	275
MyGetBytes.java .....	276
server.properties.....	276

<i>Bibliography</i>	277
---------------------	-----

<i>Index</i>	281
