Related Topics	xxxviii
Part I Administration	1
Chapter 1 Web Site Management	3
About Web Site Management	4
Getting Started	4

Defining Home Directories	4
What is a Virtual Directory?	5
Reroute Requests with Redirects	6
Other Useful Tools	6
Choosing an Authoring Tool	7
Overview of Available Options	7
Multimedia Content and Other File Formats	8
Advanced Web Site Development	9
Using ASP to Manage Web Site Content	10
Discover Scripting	10
ASP: A Brief Overview	10
ASP Solutions	12
Changing the Home Directory	13
Creating Virtual Directories	13
Redirecting Requests to a Directory	14
Redirecting Requests to a Program	15
Enabling Content Expiration	15
Using Content Ratings	16
Adding a Footer to Web Pages	17
Server-Side Includes	17
About Server-Side Includes	17
Enabling Server-Side Includes	18
Using Server-Side Include Directives	19
Chapter 2 Server Administration	21
Web and FTP Sites	22
About Web and FTP Sites	22
Starting and Stopping Sites	27
Adding Sites	28
Setting FTP Messages and Directory Output Style	28
Naming Web Sites	29
Restarting IIS	30
Supporting Host Header Names in Older Browsers	32
Changing the Inherited Defaults	34
Backing Up and Restoring IIS	35
Assigning Web Site Operators	36
Remote Administration	37
Downlevel Site Administration	38

WebDAV Publishing	39
About WebDAV	39
Creating a Publishing Directory	41
Managing WebDAV Security	41
Searching a WebDAV Directory	44
Publishing and Managing Files	45
Name Resolution	47
About Name Resolution	48
Getting an Internet Name and Address	52
Verifying Your Computer Identity	53
Configuring Applications	53
Security	63
Authentication	73
Access Control	85
Encryption	99
Certificates	104
Auditing	120
Custom Error Messages	126
About Custom Error Messages	126
Adding a Custom Error Message	128
Enabling Detailed Custom Error Messages	130
Enabling ASP Error Processing	131
Logging Site Activity	131
About Logging Site Activity	132
Enabling Logging	138
Tracking Processor Use	139
Customizing W3C Extended Logging	140
Saving Log Files	140
Converting Log Files to NCSA Format	141
Performance Tuning	143
About Performance Tuning	144
Memory Management	148
Processor Utilization	151
Network Capacity	154
Replication and Clustering	164
About Clustering	164
Replication and Clustering in IIS	166
Upgrading IIS Cluster Resources	169

Part 2 Active Server Pages Guide	171
Chapter 3 Active Server Pages	173
Understanding Active Server Pages	173
Introduction to Active Server Pages	174
Important Changes in ASP	176
Building ASP Pages	178
Creating an ASP Page	178
Working with Scripting Languages	184
Using Variables and Constants	187
Interacting with Client-Side Scripts	193
Writing Procedures	194
Working with Collections	197
Processing User Input	202
Using Components and Objects	208
Setting Object Scope	213
Sending Content to the Browser	217
Including Files	224
Managing Sessions	227
Accessing a Data Source	235
Understanding Transactions	248
Debugging ASP Scripts	253
Built-in ASP Objects	257
Active Server Pages Objects Quick Reference Card	259
Chapter 4 Developing Web Applications	261
Web Applications: An Overview	261
Building on the Client/Server Architecture	262
The New System Design	263
Microsoft Windows Distributed interNet Application Architecture	264
Internet Information Services Architecture	265
Design Decisions	268
Defining Application Boundaries	269
Controlling Application Flow	271
Accommodating International Clients	279
Accessing Data with ASP	282
ADO Overview	282
Remote Data Binding with Remote Data Service	284

Processing Transactions	286
Designing Transactional Web Applications	286
Transaction Processing Technology	288
Security Ramifications for IIS Applications	289
Accessing Client Certificates with ASP	290
Passing Security Context	290
Additional Security Considerations	291
Development Technologies	292
Component Services	292
Dynamic HTML	293
Windows Script Components	293
XML	294
Active Directory Service Interfaces	294
Developing Scalable Web Applications	295
Performance	295
Scalability	295
Design Considerations for Performance and Scalability	296
Developing Scalable ASP Applications	297
Developing Scalable Components	300
Designing High-Performance ISAPI Applications	302
Data Access Performance	303
Performance and Scalability Testing	305
Chapter 5 Administering IIS Programmatically	307
Overview of Programmatic Administration	307
Introduction to the IIS Metabase	307
Development Choices for Programmatic Administration	312
Using IIS Admin Objects	313
IIS Admin Objects Overview	314
Administrative Tasks Using the IIS Admin Objects	316
Part 3 Administration Reference Material	319
Chapter 6 Administrator's Reference	321
Server-Side Includes Reference	321
#config	321
#echo	324
#exec	327
#flastmod	328

#size	329
#include	330
Registry	331
About the Registry	332
Global Registry Entries	333
Service-Specific Registry Entries	336
WWW Service Registry Entries	338
FTP Service Registry Entries	341
Metabase	342
About the Metabase	343
Windows Events for IIS	344
About Windows Events	344
Web Services Events	345
FTP Services Events	351
Active Server Pages Events	352
Counters Reference	359
Counter Descriptions	363
Timeouts Reference	369
Timeout Settings Locations in IIS Snap-in	370
Logging Properties Reference	371
Redirect Reference	375
Redirect Variables	375
Redirect Wildcards	376
Part 4 Programmatic Administration Reference	377
Chapter 7 IIS Admin Objects Reference	379
IIsCertMapper	380
CreateMapping	381
DeleteMapping	382
GetMapping	383
SetAcct	384
SetEnabled	385
SetName	386
SetPwd	387
IIsCompressionScheme	388
IIsCompressionSchemes	389
IIsComputer	390
Backup	392

DeleteBackup	393
EnumBackups	394
Restore	395
IIsCustomLogModule	397
IIsFilter	398
IIsFilters	399
IIsFtpInfo	400
IIsFtpServer	401
Continue	403
Pause	404
Start	404
Status	405
Stop	405
IIsFtpService	406
IIsFtpVirtualDir	408
IIsIPSecurity	409
IPDeny	411
IPGrant	412
DomainDeny	413
DomainGrant	414
GrantByDefault	415
IIsLogModule	416
IIsLogModules	417
IIsMimeMap	419
IIsMimeType	421
MimeType	422
Extension	423
IIsWebDirectory	424
AppCreate	427
AppCreate2	428
AppDelete	429
AppDeleteRecursive	430
AppDisable	431
AppDisableRecursive	431
AppEnable	432
AppEnableRecursive	433
AppGetStatus	434
AppUnload	435

AppUnloadRecursive	435
AspAppRestart	436
IIsWebFile	437
IIsWebInfo	438
IIsWebServer	439
Continue	444
Pause	444
Start	445
Status	445
Stop	445
IIsWebService	446
IIsWebVirtualDir	450
Constants	454
Chapter 8 ADSI Reference	457
ADSI Object Properties	457
ADSI Object Methods	458
Get	460
GetDataPaths	461
GetEx	463
GetInfo	464
GetPropertyAttribObj	465
Put	466
PutEx	467
SetInfo	468
ADSI Container Object Properties	469
ADSI Container Object Methods	469
CopyHere	470
Create	471
Delete	472
GetObject	472
MoveHere	473
ADSI Changes for IIS 5.0	474
IIS Performance Features	475
ADSI Properties Removed from IIS 5.0	475
ADSI Properties Added to IIS 5.0	475
ADSI Property Key Type Changes for IIS 5.0	477
ADSI Properties Changed in IIS 5.0	477

Chapter 9 Administration Property Reference	479
Alphabetical Property List	479
AccessExecute	484
AccessFlags	485
AccessNoRemoteExecute	487
AccessNoRemoteRead	488
AccessNoRemoteScript	489
AccessNoRemoteWrite	490
AccessRead	491
AccessScript	492
AccessSource	493
AccessSSL	494
AccessSSL128	495
AccessSSLFlags	496
AccessSSLMapCert	497
AccessSSLNegotiateCert	498
AccessSSLRequireCert	499
AccessWrite	500
AdminACL	502
AdminServer	503
AllowAnonymous	504
AllowKeepAlive	505
AllowPathInfoForScriptMappings	505
AnonymousOnly	506
AnonymousPasswordSync	507
AnonymousUserName	508
AnonymousUserPass	509
AppAllowClientDebug	510
AppAllowDebugging	510
AppFriendlyName	511
AppIsolated	512
AppOopRecoverLimit	513
AppPackageID	514
AppPackageName	515
AppRoot	516
AppWarnClsID	517
AspAllowOutOfProcComponents	518
AspAllowSessionState	518

AspBufferingOn	519
AspCodepage	520
AspEnableApplicationRestart	521
AspEnableAspHtmlFallback	522
AspEnableChunkedEncoding	522
AspEnableParentPaths	523
AspEnableTypelibCache	524
AspErrorsToNTLog	525
AspExceptionCatchEnable	527
AspLogErrorRequests	527
AspProcessorThreadMax	530
AspQueueConnectionTestTime	531
AspQueueTimeout	532
AspRequestQueueMax	533
AspScriptEngineCacheMax	533
AspScriptErrorMessage	534
AspScriptErrorSentToBrowser	535
AspScriptFileCacheSize	536
AspScriptLanguage	537
AspScriptTimeout	538
AspSessionMax	539
AspSessionTimeout	540
AspThreadGateEnabled	541
AspThreadGateLoadHigh	542
AspThreadGateLoadLow	543
AspThreadGateSleepDelay	544
AspThreadGateSleepMax	545
AspThreadGateTimeSlice	546
AspTrackThreadingModel	547
AuthAnonymous	549
AuthBasic	550
AuthFlags	551
AuthNTLM	552
AuthPersistence	553
AuthPersistSingleRequest	556
AuthPersistSingleRequestIfProxy	557
AuthPersistSingleRequestAlwaysIfProxy	558
CacheControlCustom	559

CacheControlMaxAge	560
CacheControlNoCache	561
CacheISAPI	562
CertCheckMode	562
CGITimeout	563
ConnectionTimeout	564
ContentIndexed	565
CpuAppEnabled	565
CpuCgiEnabled	566
CpuCgiLimit	568
CpuEnableActiveProcs	568
CpuEnableAllProcLogging	569
CpuEnableAppLogging	570
CpuEnableCgiLogging	571
CpuEnableEvent	572
CpuEnableKernelTime	573
CpuEnableLogging	573
CpuEnablePageFaults	574
CpuEnableProcType	575
CpuEnableTerminatedProcs	576
CpuEnableTotalProcs	577
CpuEnableUserTime	578
CpuLimitLogEvent	579
CpuLimitPause	580
CpuLimitPriority	581
CpuLimitProcStop	582
CpuLimitsEnabled	584
CpuLoggingInterval	585
CpuLoggingMask	586
CpuLoggingOptions	588
CpuResetInterval	590
CreateCGIWithNewConsole	591
CreateProcessAsUser	592
CustomErrorDescriptions	593
DefaultDoc	593
DefaultDocFooter	594
DefaultLogonDomain	595
