

Microsoft®

Windows® 2000 Professional

Expert Insight

The book presents focused explanations of the core features and complexities of Windows 2000 Professional, including:

- Advanced setup and configuration concepts
- Diagnosing network and configuration problems
- Fine tuning performance to get the most out of networks and workstations
- Understanding the often complex issue of Windows 2000 security
- Using the Command Line Interface for specialized tasks
- Setting up, configuring, and using Linux in combination with Windows 2000

Authoritative Advice

Implement the advice from expert author Paul Cassel to install, administer, and support Windows 2000 Professional

| Boot Errors | 111 |
| Recovery Command Console | 114 |
| Help for Other Issues | 121 |
| Summary | 122 |

Part II Fine-Tuning Windows 2000 Professional 123**5 Tuning Windows 2000 Performance 125**

| | |
|-----------------------------------|-----|
| Underlying Factors | 126 |
| Hard Disk Speed | 126 |
| Processor Speed..... | 129 |
| Processor Type..... | 129 |
| Physical RAM | 130 |
| The Buss | 132 |
| Video Card..... | 133 |
| General Tuning by Option | 133 |
| Diagnosing Bottlenecks | 139 |
| Memory | 139 |
| Disk Problems | 145 |
| Processor | 148 |
| Fixing Performance Problems | 150 |
| Some Performance Red Flags..... | 150 |
| Windows 16 Considerations | 151 |
| Summary | 152 |

6 Advanced Control Panel Tools 153

| | |
|--|-----|
| New Features of the Control Panel..... | 154 |
| Using the Control Panel | 156 |
| The Control Panel Applets | 156 |
| Easier Setup and Configuration..... | 156 |
| Easier to Manage..... | 169 |
| Customizing the Start Menu | 176 |
| Summary | 178 |

7 Fine-Tuning Windows 2000 Security 179

| | |
|---------------------------------------|-----|
| Windows 2000 Security Overview | 180 |
| Users and Password | 180 |
| Built-In Accounts..... | 180 |
| Creating New Users | 182 |
| Additional Account Properties | 184 |
| Groups | 186 |
| User Profiles | 188 |
| Auditing | 191 |
| Policies | 193 |
| Dial-In Security..... | 194 |
| Registry | 197 |
| File System Security..... | 197 |
| Removing Everyone's Permissions | 198 |

| | |
|-----------------------------------|-----|
| Remote Access Service (RAS) | 200 |
| Certificates | 202 |
| Summary | 203 |

8 The Windows 2000 Registry 205

| | |
|--|-----|
| Understanding the Purpose of the Registry | 206 |
| Editing Tools | 207 |
| REGEDT32 | 207 |
| REGEDIT | 208 |
| Local Computer Policy | 209 |
| Safety When Editing | 211 |
| Atomic Changes | 211 |
| Read Only Mode | 211 |
| Key Backup and Restore | 212 |
| Elements of the Registry | 214 |
| The Windows 2000 Trees | 216 |
| HKEY_LOCAL_MACHINE | 217 |
| HKEY_CLASSES_ROOT | 219 |
| HKEY_CURRENT_USER | 221 |
| HKEY_USERS | 224 |
| HKEY_CURRENT_CONFIG | 225 |
| Using REGEDIT | 226 |
| Using REGEDT32 | 230 |
| Customizing Your System Through the Registry | 235 |
| Summary | 236 |

Part III Working with Windows 2000 Professional 239

9 Working with the Windows 2000 File System 241

| | |
|---|-----|
| The FAT System | 243 |
| Overview of the NT File System (NTFS) | 245 |
| FAT Versus NTFS | 247 |
| Converting FAT to NTFS | 248 |
| Lazy and Careful Disk Writes | 249 |
| The Disk Management Utility | 251 |
| Creating and Preparing Partitions | 252 |
| Adding a New Disk | 252 |
| Deleting Partitions | 253 |
| Viewing and Monitoring | 253 |
| Changing Drive Letters | 256 |
| Indexing | 256 |

| | |
|--|-----|
| Standard Disk Management Tasks | 258 |
| The Windows 2000 Explorer | 261 |
| File Associations | 262 |
| File Manipulation | 267 |
