

XHTML™

In Plain English

Sandra E. Eddy

"The first book that I reach for when I need to find out what works where and how in a document."

— Simon St. Laurent, author and XML developer

Preface	ix
Acknowledgements	xv

Part I: XHTML Reference 2

XHTML in Plain English	5
XHTML A to Z	15
XHTML Syntax	21
Using This Section	21
XHTML Elements	23

Cascading Style Sheets in Plain English	343
Cascading Style Sheets A to Z	355
Cascading Style Sheets by Category	363
Cascading Style Sheet Syntax	371
Style Sheet Properties	372

Part II: XHTML Tutorial 502

Chapter 1: Introducing XHTML	505
The History of Hypertext	506
The World Wide Web	506
A Short History of Markup Languages	507
SGML	507
Microsoft, Netscape, and WebTV	
Extensions and Attributes	510
XML	511
XHTML	512
Comparing HTML, XML, and XHTML Documents	512
The Similarities	512
The Differences	513

Chapter 2: Constructing a Basic Document	515
Starting a Document	516
Building Document Structure	519
Inserting Elements, Start Tags, and End Tags	519
Headings and Paragraphs	521
Using Empty Elements	523
Adding Attributes and Attribute Values	524
Inserting Entities	526
The Contents of an XHTML Document	527
The HEAD Section	527
The BODY Section	528
Commenting a Document	528
Adding Links to a Document	529
Decorating a Document with Multimedia	530
Supported Multimedia Formats	531
Converting an HTML Document to XHTML	535
A Sample XHTML Document	537
Chapter 3: Using Lists in Documents	541
Why Use Lists?	542
Ordered Lists Versus Unordered Lists	543
Constructing an Ordered List	543
Constructing an Unordered List	545
Nesting Lists	546
Creating a Glossary	549
Formatting Lists	551
Chapter 4: Adding Tables to Documents	555
Why Use Tables?	556
Building Simple Tables	557
Inserting a Table Caption	558
Adding Table Rows	560
Creating Table Heading Cells	560
Setting Table Data Cells	561
Spanning Rows and Columns	563
Constructing Table Sections	565
Decorating a Table	567
Aligning Table Contents	567
Using Cell Spacing and Cell Padding	569
Bringing Color to a Table	570
Using Tables for Page Layout	574

Chapter 5: Framing Documents	579
Why Use Frames?	580
Planning for Effective Frames	580
Building a Frameset	581
Specifying Frames	584
Adding Content to a Frame	587
Floating an Inline Frame	588
Specifying a No-Frame Alternative	589
A Sample Frameset	590
Chapter 6: Linking to Other Resources	597
Why Use Links?	597
Absolute Versus Relative URIs	598
Learning About the Structure of Links	599
Linking to Another Part of a Document	600
Linking to Another Document	601
Linking with Graphic Images	603
The Future of Linking	604
Chapter 7: Using Interactive Forms	607
Why Use Forms?	608
Learning About Controls	609
Creating a Form and Its Controls	611
Using Text Controls	612
Using Check Boxes and Radio Buttons	613
Inserting List Boxes	616
Sectioning and Labeling a Form	616
Testing Your Forms	618
Processing Forms	619
Learning about CGI	620
Learning about HTTP	621
Chapter 8: Styling Documents with CSS2	623
Why Use Style Sheets?	625
Associating Styles with a Document	625
Learning About the style Element	626
Learning About the style Attribute	628
Laying Out Pages	628
Setting Margins and Padding	630
Applying and Styling Borders	630
Maneuvering Paragraphs and Lines	633
Placing Words and Characters on the Page	633

Specifying Text Characteristics	635
Selecting a Font Family	636
Setting the Font Size	636
Enhancing Text	637
Combining Font Characteristics	638
Changing Case	639
Decorating Text	640
Styling Lists	641
 Chapter 9: Testing and Maintaining Documents	 645
Why Test a Document?	646
Using a Browser for Testing	646
Using a Validator for Testing	648
Maintaining Your Documents	651
 Chapter 10: Creating Dynamic Documents	 655
Why Use Scripts?	656
Learning About Scripting Languages	656
VBScript	657
JScript	657
JavaScript	657
ECMAScript	657
Introducing XHTML Events	658
Including Scripts in Your Documents	659
Using Variables	661
Using Variables in VBScript	662
Using Variables in JScript	664
Using Control Structures	666
Using Control Structures in VBScript	667
Using Control Structures in JScript	669
 Chapter 11: Customizing XHTML	 673
Why Declare New Elements and Attributes?	674
A DTD Primer	675
Planning a DTD	675
Setting Generations of Elements	676
Coding a DTD with EBNF	678
Adding Custom Elements to XHTML	679
Declaring Root and Child Elements	680
Declaring Lists of Attributes	682
Setting Attribute Types and Values	683
Declaring Entities	684

Appendix A: Elements by HTML Version and Activity	689
Appendix B: Unicode Characters and Character Sets	697
Appendix C: Internationalization: Language Codes and Country Codes	743
Appendix D: EBNF Reference	753
Appendix E: Attributes In Depth	759
Glossary	761
Index	776
