Oracle8i™ DBA

Architecture & Administration and Backup & Recovery Study Guide

From the
Leader in
Certification

Exams
1Z0-023 & 1Z0-025

Doug Stuns
Biju Thomas

The #1 Best-Sellers. Over 4 Million
Sybex Study Guides in Print

Prepare for the Exam with
Leading-Edge Software:

- Custom Testing Engine with Hundreds of Sample Questions
- Bonus Practice Exams
- Electronic Flashcards for PCs and Palm Devices
- The Entire Book in Digital Format
- Evaluation Version of Oracle8i Enterprise Edition

Contents

<i>Introduction</i>	<i>xxn</i>
Assessment Test OCP: Oracle8i Architecture & Administration	xxxvii
Assessment Test OCP: Oracle8i Backup & Recovery	li
Part I	OCP: Oracle8i Architecture & Administration
Chapter 1	Oracle Overview and Architecture
Oracle8i Server: An Overview	4
Database Structure	5
Oracle Memory Structures	8
System Global Area	9
Program Global Area	13
Software Code Area	14
Oracle Background Processes	14
Database Writer (DBW _n)	15
Log Writer (LGWR)	16
Checkpoint (CKPT)	17
System Monitor (SMON)	17
Process Monitor (PMON)	18
Archiver (ARC _n)	18
Recoverer (RECO)	19
Lock (LCK _n)	19
Job Queue (SNP _n)	19
Queue Monitor (QMN _n)	19
Dispatcher (Dnnn)	20
Shared Server (Snnn)	20
Connecting to an Oracle Instance	20
Dedicated Server Configuration	21
Multithreaded Configuration	22
Stages in Processing SQL	24
Parse, Execute, and Fetch Stages	24

	Processing a <i>COMMIT</i>	28
	Summary	30
	Key Terms	31
	Review Questions	33
	Answers to Review Questions	38
Chapter 2	Installing and Managing Oracle	41
	Oracle Universal Installer	42
	Oracle Enterprise Manager	44
	Console	45
	Management Server and Common Services	46
	DBA Management Pack	47
	Administrator Authentication Methods	48
	OS Authentication	49
	Password File Authentication	50
	Start Up the Oracle Instance	51
	The Parameter File	53
	Get Parameter Values	55
	Set Parameter Values	57
	Manage Sessions	58
	Shut Down the Oracle Database	60
	Shutdown Options	60
	Instance Messages and Instance Alerts	62
	Summary	63
	Key Terms	65
	Review Questions	66
	Answers to Review Questions	71
Chapter 3	Creating a Database and Data Dictionary	75
	Creating a Database	76
	Preparing Resources	77
	Optimal Flexible Architecture	78
	Parameters	80
	The <i>CREATE DATABASE</i> Command	83
	Data Dictionary	85

	Creating the Dictionary	86
	Completing the Database Creation	89
	Querying the Dictionary	89
	Database Configuration Assistant	91
	Database Event Triggers	94
	Summary	96
	Key Terms	97
	Review Questions	98
	Answers to Review Questions	103
Chapter 4	Control and Redo Log Files	107
	Maintaining the Control File	108
	Multiplexing Control Files	109
	Creating New Control Files	110
	Querying Control File Information	112
	Maintaining Redo Log Files	115
	Log Switch	116
	Multiplexing Log Files	119
	Archive Log Files	122
	Querying Log and Archive Information	126
	Analyzing Log Files	130
	Summary	133
	Key Terms	134
	Review Questions	136
	Answers to Review Questions	142
Chapter 5	Logical and Physical Database Structures	145
	Tablespaces and Data Files	146
	Managing Tablespaces	148
	Creating a Tablespace	149
	Altering a Tablespace	155
	Dropping a Tablespace	159
	Querying Tablespace Information	160
	Managing Data Files	162
	Sizing Files	163

Renaming Files	164
Querying Data File Information	166
Summary	168
Key Terms	169
Review Questions	170
Answers to Review Questions	176

Chapter 6	Segments and Storage Structures	179
	Data Blocks	180
	Block Storage Parameters	181
	Extents	184
	Allocating Extents	185
	Querying Extent Information	186
	Segments	187
	Data and Index Segments	187
	Temporary Segments	188
	Querying Segment Information	189
	Managing Rollback Segments	190
	Using Rollback Segments	191
	Creating Rollback Segments	192
	Altering Rollback Segments	193
	Dropping Rollback Segments	194
	Common Rollback Issues	195
	Querying Rollback Information	197
	Summary	198
	Key Terms	199
	Review Questions	201
	Answers to Review Questions	206

Chapter 7	Managing Tables, Indexes, and Constraints	209
	Managing Tables	210
	Creating Tables	210
	Altering Tables	221
	Analyzing Tables	226
	Querying Table Information	230

Using ROWID	231
Managing Indexes	234
Creating Indexes	234
Altering Indexes	240
Querying Index Information	243
Managing Constraints	244
Creating Constraints	245
Enabling and Disabling Constraints	250
Deferring Constraint Checks	252
Querying Constraint Information	253
Summary	254
Key Terms	256
Review Questions	257
Answers to Review Questions	263

Chapter 8	Managing Users and Security	267
Profiles		269
Resource Management		269
Password Management		271
Managing Profiles		272
Querying Profile Information		276
Users		277
Managing Users		278
Authenticating Users		281
Complying with Oracle Licensing Terms		282
Querying User Information		283
Privileges and Roles		285
Object Privileges		286
System Privileges		288
Granting System Privileges		292
Revoking Privileges		293
Querying Privilege Information		294
Managing Roles		296
Predefined Roles		297
Enabling and Disabling Roles		297

Querying Role Information	299
Auditing the Database	301
Summary	302
Key Terms	304
Review Questions	305
Answers to Review Questions	310

Chapter 9	Data Utilities	313
	Loading Data	314
	Direct-Load Insert	315
	SQL*Loader	317
	Moving Data	320
	Export and Import Utilities	320
	Transportable Tablespaces	325
	Using National Language Support	329
	NLS Parameters	330
	NLS Data Dictionary Information	332
	Summary	335
	Key Terms	336
	Review Questions	337
	Answers to Review Questions	342

Part II OCP: Oracle8i Backup & Recovery 345

Chapter 10	Backup and Recovery Considerations	347
	Requirements for a Backup and Recovery Strategy	348
	Losing Data in a Database Failure	349
	Surviving without the Database in a Database Failure	349
	Performing an Offline Backup	350
	Knowing Your Backup and Recovery Resources	350
	Undoing Changes to the Database	351
	Weighing the Costs	352
	The Importance of Management Concurrency for the Strategy	352
	Identifying the Components of a Disaster Recovery Plan	353

High-Availability Oracle Server Features	354
Configuring the Database for Recoverability	356
Testing a Backup and Recovery Plan	358
Summary	359
Key Terms	359
Review Questions	361
Answers to Review Questions	365

Chapter 11 Oracle Recovery Structures and Processes 367

Oracle Recovery Processes, Memory Components, and File Structures	368
Recovery Processes	369
Memory Structures	370
File Structures	372
Checkpoints, Redo Logs, and Archive Logs	376
Multiplexed Control Files and Redo Logs	378
Types of Failures	380
Structures for Instance and Media Recovery	381
Instance Recovery Structures	382
Media Recovery Structures	384
Deferred Transaction Recovery Concept	386
Summary	386
Key Terms	387
Review Questions	389
Answers to Review Questions	394

Chapter 12 Oracle Backup and Recovery Configuration 397

Choosing ARCHIVELOG Mode or NOARCHIVELOG Mode	398
ARCHIVELOG Mode	399
NOARCHIVELOG Mode	400
Understanding Recovery Implications of NOARCHIVELOG	400
Configuring a Database for ARCHIVELOG Mode and Automatic Archiving	401
Setting ARCHIVELOG Mode	402

Setting Automatic Archiving	406
Using <i>init.ora</i> Parameters for Multiple Archive Processes and Locations	409
Manually Archiving Logs	414
Summary	414
Key Terms	415
Review Questions	416
Answers to Review Questions	421

Chapter 13	Physical Backup without Oracle Recovery Manager	425
	Understanding Closed and Opened Database Backups	426
	Performing Closed and Opened Database Backups	429
	Understanding the Logging and Nologging Options	433
	Backing Up Control Files	434
	Working with Read-Only Tablespaces	436
	Using Data Dictionary Views for Backups	437
	Summary	441
	Key Terms	442
	Review Questions	443
	Answers to Review Questions	446

Chapter 14	Complete Recovery without Recovery Manager	449
	Recovering from Media Failure in <i>NOARCHIVELOG</i> and <i>ARCHIVELOG</i> Modes	450
	Recovering the Database under Different Scenarios	453
	Scenario 1: <i>NOARCHIVELOG</i> Loss of a Data File	454
	Scenario 2: <i>NOARCHIVELOG</i> Loss of All Data Files	460
	Scenario 3: <i>ARCHIVELOG</i> Loss of a Data File	463
	Scenario 4: <i>ARCHIVELOG</i> Loss of All Data Files	470
	Restoring Files to a Different Location in Both Modes	484
	Recovery in <i>NOARCHIVELOG</i> Mode	485
	Recovery in <i>ARCHIVELOG</i> Mode	492
	Using Dictionary Views for Recovery	499
	Summary	500
	Key Terms	501

Review Questions	502
Answers to Review Questions	507

Chapter 15	Incomplete Oracle Recovery with Archiving	509
	Determining When to Use Incomplete Recovery	510
	Performing an Incomplete Database Recovery	512
	Cancel-Based Recovery	512
	Time-Based Recovery	515
	Change-Based Recovery	515
	Recovering after Losing Current and Inactive Nonarchived Redo Logs	517
	Summary	518
	Key Terms	519
	Review Questions	520
	Answers to Review Questions	522
Chapter 16	Oracle Export and Import Utilities	523
	Creating a Complete Logical Backup with the Export Utility	524
	Creating an Incremental Backup with the Export Utility	530
	Invoking the Direct-Path Export	541
	Recovering a Database Object with the Import Utility	543
	Performing a Tablespace Point-in-Time Recovery	548
	Summary	559
	Key Terms	559
	Review Questions	561
	Answers to Review Questions	566
Chapter 17	Additional Recovery Issues	569
	Minimizing Downtime	570
	Performing Parallel Recovery	571
	Recovering a Database with Missing Data Files	579
	Re-Creating a Lost Temporary Tablespace	584
	Reconstructing Lost or Damaged Control Files	588
	Recovering Read-Only Tablespaces	595

Scenario 1: Read-Only to Read-Only	596
Scenario 2: Read-Only to Read-Write	597
Scenario 3: Read-Write to Read-Only	600
Scenario 4: Using a Backup Control File Recovery	602
Summary	604
Key Terms	605
Review Questions	606
Answers to Review Questions	611

Chapter 18	Oracle Utilities for Troubleshooting	613
	Using Log and Trace Files to Diagnose Problems	614
	Using Various Methods to Detect Corruption	621
	DBMS_REPAIR	621
	ANALYZE TABLE <TABLE_NAME> VALIDATE STRUCTURE	622
	DBVERIFY	623
	DB_BLOCK_CHECKING	623
	Using the DBMS_REPAIR Package	623
	Using the DBVERIFY Utility	632
	Analyzing Redo Log Files with LogMiner	635
	Summary	638
	Key Terms	638
	Review Questions	639
	Answer to Review Questions	642

Chapter 19	Oracle Recovery Manager	643
	The Capabilities of Oracle Recovery Manager (RMAN)	644
	The Components of RMAN	646
	Connecting to RMAN without a Recovery Catalog	648
	Starting Up and Shutting Down a Target Database Using RMAN	649
	Summary	653
	Key Terms	653
	Review Questions	654
	Answers to Review Questions	656

Chapter 20

Oracle Recovery Manager Catalog Creation and Maintenance

657

Considerations for Using the Recovery Catalog	658
The Components of Recovery Catalog	660
Create a Recovery Catalog	660
Use RMAN Commands to Maintain the Recovery Catalog	662
Registering and Unregistering the Target Database	663
Resetting the Recovery Catalog	665
Resynchronizing the Recovery Catalog	666
Changing the Availability of Backups	666
Deleting Backup Copies	667
Validating the Restore of Backup Copies	667
Cataloging OS Backups	668
Generate Lists and Reports from the Recovery Catalog	669
Create, Store, and Run RMAN Scripts	674
Summary	676
Key Terms	677
Review Questions	678
Answers to Review Questions	681

Chapter 21

Backups Using RMAN

683

Describing Backup Concepts Using RMAN	684
Describing Types of RMAN Backups	687
Full or Incremental Backups	687
Opened or Closed Backups	688
Consistent or Inconsistent Backups	689
Performing Incremental and Cumulative Backups	689
Tuning Backup Operations	691
Improving I/O Operations	692
Increasing Disk Reads	692
Adjusting Throughput	693
Parallelizing Channel Allocation	693
Viewing Information from the Data Dictionary	695

Summary	697
Key Terms	697
Review Questions	698
Answers to Review Questions	701

Chapter 22 Restoration and Recovery using RMAN 703

Restore and Recovery Considerations	
Using RMAN	704
Restore a Database in <i>NOARCHIVELOG</i> Mode	705
Restore and Recover a Tablespace	707
Restore and Recover a Data File	709
Incomplete Recovery Using RMAN	711
Summary	714
Key Terms	715
Review Questions	716
Answers to Review Questions	718

Chapter 23 Oracle Standby Database 719

Using a Standby Database	720
Configuring Initialization Parameters	722
Creating, Maintaining, and Activating a Standby Database	724
Creating the Standby Database	724
Maintaining the Standby Database	726
Activating the Standby Database	727
Using Managed Recovery Mode	728
Setting the Standby Database in	
Read-Only Mode	731
Propagating Structural Changes to a Standby Database	733
Adding New Data Files	733
Renaming Data Files	734
Modifying the Online Redo Logs	735
Changing the Control File	735
Understanding the Impact of Nologging Actions on the	
Primary Database	736

Summary	737
Key Terms	737
Review Questions	738
Answers to Review Questions	740

Appendix A	Oracle8i Architecture & Administration Practice Exam	741
	Practice Exam Questions	742
	Answers to Practice Exam	754

Appendix B	Oracle8i Backup & Recovery Practice Exam	761
	Practice Exam Questions	762
	Answers to Practice Exam	775

Glossary	781
