

Application of Fractals in Earth Sciences

Editor
V.P. Dimri

Contents

Foreword	iii
Preface	v
List of Contributors	ix
1. An Introduction to Fractals and their Applications in Earth Science <i>D.N. Avasthi</i>	1
2. Fractals <i>Govindan Rangarajan</i>	7
3. The Fractal Redux <i>Vipin Srivastava</i>	17
4. The Percolating Fractals <i>Vipin Srivastava</i>	25
5. Concepts Similar to Self-similarity in Science <i>P.S. Moharir</i>	33
6. Multifractals <i>P.S. Moharir</i>	45
7. Processing (Multi)Fractal Data Strings <i>Rita Singh</i>	59
8. Fractals and Geology <i>R.K. Sukhtankar</i>	83
9. Crustal Fractal Magnetisation <i>V.P. Dimri</i>	89
10. Fractality of Seismic Wave Signature—A Mandelbrot Approach <i>N.L. Mohan and L. Anand Babu</i>	97
11. Can Travel-time Curve Tunnel through Chaotic Regime <i>N.L. Mohan and L. Anand Babu</i>	113

12. Application of Fractals in Seismology with Reference to Koyna Earthquakes <i>V.P. Dimri</i>	139
13. Chaotic Dynamics and Earthquakes <i>H.N. Srivastava</i>	149
14. Multifractal Analysis of Earthquakes: An Overview <i>S.S. Teotia</i>	161
15. Application of Fractals in the Study of Rock Fracture and Rockburst-associated Seismicity <i>K. Shivakumar and M.V.M.S. Rao</i>	171
16. Fractal Dimension Analysis of Soil for Flow Studies <i>V.P. Dimri</i>	189
17. Detecting Chaos from Geophysical Time Series <i>R.K. Tiwari</i>	195
18. Application of Catastrophe Theory to Some Non-linear Geophysical Problems <i>R.K. Tiwari</i>	215
19. Application of Fractal Dimension in Studying Geomorphic Processes—A Case-study from Historical Climate Data Set <i>Dhananjay A. Sant</i>	227
Subject Index	237
