

The background of the cover is a light blue color with a faint, stylized circuit board pattern. Various electronic symbols are scattered across the page, including a logic gate at the top, a digital display showing '0' at the top center, a sine wave generator symbol on the left, a graph with a sine wave and a peak on the bottom left, a multi-channel oscilloscope display in the center, and a computer monitor at the bottom center. The title and author's name are prominently displayed in a dark rectangular box in the upper half of the cover.
