

# PRINCIPLES OF WEED SCIENCE

*Second Edition*

Suranaree University of Technology

31051000652205

**V. S. RAO**

# Contents

<i>Preface</i>	v
<i>Acknowledgement</i>	vii
1. Introduction	1
2. Weed Biology and Ecology	7
3. Traditional, Ecophysiological and Other Approaches in Weed Management	36
4. Introduction to Chemical Weed Management	59
5. Classification and Information on Herbicides, Bioherbicides and Herbicide Safeners	67
6. Absorption and Translocation of Herbicides	116
7. Mechanisms of Action of Herbicides	145
8. Herbicide Transformations in Plants	199
9. Persistence and Behaviour of Herbicides in Soil and Environment	232
10. Herbicide Resistance and Genetic Engineering	277
11. Biological Approaches in Weed Management	319
12. Herbicide Interactions with Herbicides, Safeners and Other Agrochemicals	348
13. Herbicide Discovery and Development	376
14. Herbicide Application	386
15. Some Prominent Weeds and Their Management	411
16. Weed Management in Field and Plantation Crops	447
17. Weed Management in Aquatic System	464
18. Weed Management in Forestry and Non-Agricultural Systems	481
19. Weed Research Methodology—Field Experimentation	487
<i>Glossary</i>	506
<i>Appendices</i>	515
<i>Subject Index</i>	530
<i>Weed Index</i>	551
<i>The Author</i>	557
