Contents

Chapter 1 Introduction and Technology Overview

| | |
|---|---|
| 1.1 Project Background..... | 1 |
| 1.2 Test Release Facilities Database..... | 2 |
| 1.3 Development of the ECRS..... | 7 |

Chapter 2 ECRS Engineering Design and Operation — Unit 1

| | |
|--|----|
| 2.1 Design Parameters..... | 15 |
| 2.2 Unit 1 Modules Overview | 16 |
| 2.2.1 Process Equipment Skid..... | 18 |
| 2.2.2 Instrumentation Building..... | 19 |
| 2.2.3 Soil Tank | 19 |
| 2.2.4 Reservoirs and Treatment Equipment | 21 |
| 2.3 Unit 1 Engineering Design | 21 |
| 2.4 Description of System Functions..... | 22 |
| 2.5 Process Control | 26 |
| 2.6 Health and Safety..... | 29 |
| 2.7 Operating Procedures and Maintenance..... | 30 |
| 2.7.1 Routine Operating Procedures..... | 30 |
| 2.7.2 Non-Routine Operating Procedures..... | 34 |
| 2.7.3 Waste Handling and Disposal..... | 36 |
| 2.7.4 Troubleshooting and Maintenance | 37 |
| 2.8 Setup — Background and Schedule..... | 38 |
| 2.9 Soil Packing and Well Installation..... | 41 |
| 2.10 Tank Cover and Shelter Installation | 45 |

Chapter 3 ECRS Engineering Design and Operation — Unit 2

| | |
|--|----|
| 3.1 Design Parameters..... | 47 |
| 3.2 Unit 2 Engineering Diagrams | 48 |
| 3.3 Description of System Components | 49 |
| 3.3.1 Process Equipment Skid..... | 49 |
| 3.3.2 ECRS Soil Tank..... | 53 |
| 3.3.3 Ancillary Equipment..... | 54 |
| 3.3.4 Instrumentation Building | 54 |
| 3.3.5 Process Control and Data Acquisition | 54 |
| 3.4 Site Hazards | 56 |
| 3.5 Site-Specific Requirements | 57 |
| 3.6 Operating Procedures and Maintenance..... | 57 |
| 3.6.1 Routine Operating Procedures..... | 57 |
| 3.6.2 Non-Routine Operating Procedures..... | 60 |
| 3.6.3 Waste Handling and Disposal..... | 62 |
| 3.6.4 Data Recorder Programming..... | 63 |
| 3.6.5 General Maintenance | 64 |
| 3.6.6 Filter Elements..... | 64 |

Chapter 4 System Modifications — Units 1 and 2

| | |
|--------------------------------------|----|
| 4.1 System Performance | 69 |
| 4.1.1 System Controls..... | 69 |
| 4.1.2 Groundwater Level Control..... | 69 |

| | |
|---|-----|
| 4.1.3 Air Injection Pressure Spikes | 70 |
| 4.2 System Modifications..... | 70 |
| 4.2.1 ECRS Unit 1 | 71 |
| 4.2.2 ECRS Unit 2 | 72 |
| Chapter 5 ECRS Shipping and Setup | |
| 5.1 Packing, Assembly, and Disassembly..... | 73 |
| 5.2 Soil Packing and Removal..... | 76 |
| 5.3 Relocation Costs | 78 |
| Chapter 6 Test Data and Research Projects | |
| 6.1 System Tests..... | 79 |
| 6.1.1 Test Objectives..... | 79 |
| 6.1.2 Leak Testing..... | 79 |
| 6.1.3 Flow Tests | 80 |
| 6.2 Research Projects in Unit 1 | 81 |
| 6.2.1 Equilon (Shell Development Co.) — Air Sparging and Oxygen-Releasing Material | 81 |
| 6.2.2 Waterways Experiment Station, USAE — Degradation of Munitions Compounds | 91 |
| 6.3 Research Projects in Unit 2..... | 91 |
| 6.3.1 Arizona State University — Air Sparging | 91 |
| 6.3.2 Rice University — Surfactant Biodegradation..... | 96 |
| Chapter 7 Findings and Conclusions | |
| 7.1 Summary | 101 |
| 7.2 Modifications in Unit 2 Design | 102 |
| 7.3 General Attributes of ECRS | 103 |
| Appendices | |
| A. ECRS Unit 1 Engineering Diagrams..... | 107 |
| B. Example of an ECRS Health and Safety Plan..... | 119 |
| B.1 Project Health and Safety Plan..... | 121 |
| B.2 Example Procedure for Confined Space Entry | 129 |
| B.3 Example Procedure for Line Breaking..... | 135 |
| B.4 Example Procedure for Electrical/Hazardous Energy Lockout..... | 141 |
| C. ECRS Unit 1 System Tests and Research by Equilon (Shell Development Co.)..... | 149 |
| D. Unit 2 Bid Package and Engineering Specifications | 169 |
| 1.0 Instructions to Bidders..... | 174 |
| 2.0 Specifications: General | 185 |
| 3.0 Specifications: Process Equipment Skid | 199 |
| 4.0 Specifications: ECRS Tank..... | 239 |
| 5.0 Specifications: Ancillary Equipment | 247 |
| E. Final ECRS Unit 2 Engineering Diagrams | 257 |
| References | 269 |
