

# A MATLAB® Companion for Multivariable Calculus

Jeffery Cooper

# Contents

<b>Preface</b> . . . . .	<b>ix</b>
<b>List of mfiles</b> . . . . .	<b>xv</b>
<b>1 Basic MATLAB: The Command Line</b> . . . . .	<b>1</b>
1.1 First steps . . . . .	1
1.2 Vectors and matrices . . . . .	3
1.3 Array operations . . . . .	6
1.4 Matrix multiplication and linear systems . . . . .	8
1.5 MATLAB functions . . . . .	10
1.6 Symbolic calculations . . . . .	12
1.7 Two-dimensional graphs . . . . .	16
1.8 Managing the workspace and getting help . . . . .	19
<b>2 Basic MATLAB: mfiles</b> . . . . .	<b>21</b>
2.1 Creating and editing files in MATLAB . . . . .	21
2.2 Mfiles . . . . .	22
2.3 Function functions . . . . .	24
2.4 Script mfiles . . . . .	25
2.5 MATLAB documents . . . . .	27

<b>3 Vectors, Lines, and Planes . . . . .</b>	<b>33</b>
3.1 Vectors . . . . .	33
3.2 Plotting lines in two- and three-dimensional space . . . . .	35
3.3 Planes . . . . .	37
3.4 Viewing three-dimensional graphs . . . . .	41
<b>4 Curves in Space . . . . .</b>	<b>47</b>
4.1 Parametric representation of curves . . . . .	47
4.2 Tangent vectors and velocity . . . . .	49
4.3 Arc length . . . . .	54
4.4 The geometry of curves . . . . .	56
4.5 Rotations in the plane . . . . .	59
4.6 Numerical differentiation . . . . .	61
<b>5 Functions of Two Variables . . . . .</b>	<b>69</b>
5.1 Defining numerical functions of several variables . . . . .	69
5.2 Graphing numerical functions of two variables . . . . .	70
5.3 Level curves . . . . .	76
5.4 Graphing techniques for symbolically defined functions . . . . .	78
5.5 Partial derivatives and the directional derivative . . . . .	79
5.6 The gradient vector and level curves . . . . .	83
5.7 The tangent plane approximation . . . . .	86
5.8 More about colormaps . . . . .	89
5.9 Cutting off a graph . . . . .	90
5.10 The subplot command . . . . .	93
<b>6 Functions of Three Variables and Parametric Surfaces . . . . .</b>	<b>101</b>
6.1 Level sets and surfaces . . . . .	101
6.2 Color slices of a solid . . . . .	105
6.3 The gradient vector field . . . . .	108
6.4 Parametric representation of surfaces . . . . .	110
6.5 Normal vectors and tangent planes in parametric form . . . . .	118
<b>7 Solving Equations . . . . .</b>	<b>123</b>
7.1 Symbolic solutions . . . . .	123
7.2 Numerical solutions in one dimension . . . . .	125
7.3 Solving a single equation in two variables . . . . .	128
7.4 Newton's method in two dimensions . . . . .	130

<b>8 Optimization</b>	<b>141</b>
8.1 Critical points and the second-derivative test	141
8.2 Estimating the maximum and minimum	147
8.3 Constrained maximum and minimum problems	153
8.4 Functions of three variables	157
<b>9 Multiple Integrals</b>	<b>169</b>
9.1 Double integrals over rectangles	169
9.2 Nonrectangular regions of integration	177
9.3 Change of variable in double integrals	179
9.4 Triple integrals	188
<b>10 Scalar Integrals Over Curves and Surfaces</b>	<b>197</b>
10.1 Scalar integrals along curves	197
10.2 Scalar integrals on surfaces	199
10.3 Integrals over surfaces given parametrically	201
10.4 Surfaces composed of triangles	203
<b>11 Integrals of Vector Fields Over Curves and Surfaces</b>	<b>219</b>
11.1 Vector fields	219
11.2 Line integrals	223
11.3 Curl and Green's theorem	227
11.4 Flux integrals	232
11.5 The divergence theorem	234
<b>12 Problems from Electrostatics and Fluid Flow</b>	<b>241</b>
12.1 An important tool	241
12.2 Electrostatics	242
12.3 The geometry of fluid flow	247
12.4 The Euler equations	254
12.5 Incompressible flow	257
<b>13 More Features of MATLAB</b>	<b>271</b>
13.1 Data classes	271
13.2 The command <code>feval</code>	274
13.3 Vectorizing computations	275
13.4 Programming	276

**Appendix: Instructor Demos** . . . . . *Additional material* **279**

**Solutions to Selected Exercises** . . . . . *Additional material* **281**

**Index** . . . . . *Additional material* **291**

Algebraic Expressions . . . . . *Additional material* **17**

Algebraic Fractions . . . . . *Additional material* **19**

Linear Equations . . . . . *Additional material* **21**

Quadratic Equations . . . . . *Additional material* **23**
