

Restoration of
Motion Picture Film

Paul Read & Mark-Paul Meyer

Contents

Editors' preface

- 1 Introduction to the restoration of motion picture film
Mark-Paul Meyer

PART 1 CINEMATOGRAPHIC TECHNOLOGY

- 2 Light, sound and audiovisual perception
3 Before motion pictures
4 The film making industry
5 Talking motion pictures
6 Editing, cutting and post-production
7 Colour
8 Motion picture film materials

PART 2 RECONSTRUCTING A FILM

- 9 Identification of archive film and interpretation of historical data
10 Principles of film restoration and film reconstruction

PART 3 IMAGE AND SOUND RESTORATION

- 11 Film damage, repair and preparation
12 Sensitometry and quality control
13 Printing
14 Grading
15 Principles of duplication and contrast control
16 Processing
17 The restoration and duplication of early coloured films
18 Restoration of natural colour film
19 Restoration of film sound
20 Video images and digital restoration of archival film

vii PART 4 TECHNIQUES AND CASE STUDIES

- 21 *Menschem am Sonntag*: a reconstruction and documentation case study
Martin Koerber
22 The reconstruction of F.W. Murnau's *Faust* (1926): a case study
Luciano Berriatúa
23 Film bases and tests
24 Deshrinking and other treatments
25 Scratch treatments
26 Film cements
27 Printers for shrunken film
28 Production of a grader training aid
29 Black and white duplication methods
30 Flashing techniques for film
31 Original tinting and toning techniques and their adaption for the restoration of archive film
32 Recording and reproducing the original tints and tones of *Quo Vadis* (1912): a technical case study
33 The Desmet method for restoring tinted and toned films
34 Laboratory Aim Density values and other useful data for duplication
35 Duplication of colour negatives using colour intermediate film stocks
36 Duplication of colour prints using colour internegative (or camera negative) film stocks
37 Black and white separations for duplicating, preserving and restoring colour negatives and prints
38 Notes on the schematic diagrams of Technicolor restoration routes

39	Notes on restoring subtractive two-colour process prints	310	Glossary of terms	317
40	Sound restoration case studies	314	Bibliography	342
