Table of Contents

Preface	xix
Introduction	xxiii
Chapter 1 Getting Started	1
Avid's Roots	1
Film and Tape Editing—The Old Way	1
Working with Picture and Sound	2
The Editing Process	2
Avid's Digital Approach	3
It's Just a Computer (with a Lot of Things Connected to It)	4
Avid Editing Workflow	6
Turning on Your Avid	8
The Avid Interface on Your Computer	9
Project Window	11
Bins	11
Clips	12
Subclips	12
Bins Views	12
Pop-up Monitor or Source Monitor	13
The Composer Monitor (Xpress) or Record Monitor (MC)	14
The Timeline	15
Commands	15
The Keyboard	16
Three-Button Play	17
Important Commands	17
Starting an Editing Session	19
Making Your First Cut	19
Adding Shots to Your Sequence	22
Ending an Editing Session	24
Script for "Wanna Trade"	24

Chapter 2 Basic Editing	27
Editing Rules	27
Starting Your Second Editing Session	28
Basic Editing Skills	28
Marking Clips	28
Splice and Overwrite	29
Source Monitor Menu - MC	29
Reviewing the Timeline	30
Home and End	31
Moving with the Mouse	31
Snapping to Cut Points	31
Selecting and Deselecting Tracks	32
The Timeline Fast Menu	33
Zooming and Positioning in the Timeline	34
Additional Timeline Controls in the Media Composer	35
Enlarge or Reduce Tracks	36
Track Monitors	36
Marking Clips in the Timeline	37
Lift and Extract	37
Duplicating a Sequence	38
Trim Shots Using Extract	40
It Takes Three Marks to Make an Edit	40
Like a Mantra	41
Using the Clipboard	41
Suggested Assignments	42
Chapter 3 The Project Window	43
Starting a New Project and Becoming a New User	43
More About the Project Window	44
Creating a Bin	45
All About Bins	46
Bin Views	46
Bin Headings	46
Moving Columns	47
Sorting	47
Frame View	48
Storyboard Technique	49
The Bin Fast Menu	50
Subclips	50
Deleting Sequences and Clips	51
Settings: Have It Your Way	53
Kinds of Settings	53
Bin Settings	55
Keyboard Settings	56

Composer Settings	57
Trim Settings	59
Suggested Assignments	60
Chapter 4 Trimming	61
Trimming the Old Way	62
Trim Mode	63
Getting into Trim Mode	63
Avid Express Trim Mode	63
Media Composer Trim Mode	64
Lassoing the Transition	65
Leaving Trim Mode	66
Dual-Roller Trim	67
Trim Frame Keys	67
Review Transition Button	68
Frame Counters	69
Undo in Trim Mode	70
Trim by <i>Dragging</i>	70
Single-Roller Trim Mode	70
Getting into Single-Roller Trim Mode	71
Trim Practice	72
Changing from Single-Roller to Dual-Roller Trim Mode	73
Adding Tracks for Trimming	73
Adding and Removing Rollers	74
Advanced Trim Mode Techniques	74
Trimming while Watching	74
Trim One Side, Then the Other	75
Using the Keyboard Not the Mouse	76
Dragging to a Mark	77
Picture and Sound Overlaps	77
Removing an Overlap	79
Sync Problems in Single-Roller Trim Mode	79
The Tilde Key	80
Trim Mode Review	80
Suggested Assignments	81
Chapter 5 Menus	83
Screening a Work in Progress	83
Menus	85
File Menu	85
Edit Menu	88
Bin Menu	90
Items Found in Xpress Bin Menu and Not in MC Bin Menu	95
Menu Madness	96

Clip Menu - Avid Xpress	96
Clip Menu - Media Composer	98
Output Menu - Media Composer Only	102
Special Menu - Media Composer Only	103
Tools Menu - Xpress and Media Composer	105
Script Menu	109
Help Menu	110
Monitor and Tracking Menus	110
Tracking Menu	110
Monitor Menu	111
Mapping Menu Items on the Media Composer	112
Suggested Assignments	113
Chapter 6 Digitizing	115
Getting Your Project into the Computer	115
Tape Formats - Digital and Analog	116
Video Capture Boards	116
Connecting Your Equipment	117
Image Resolution	118
Audio Sampling	119
Getting Organized	120
Starting a New Project	120
Organizing Your Bins	120
Opening the Digitize Tool	121
Log or Digitize	122
Configuring the Digitize Tool	122
Setting Video and Audio Levels	125
Audio Levels	126
Video Settings	126
Digitize Tool on Windows NT	128
The Digitizing Process - Video or Audio or Both	128
Logging Tips	130
Batch Digitizing Your Logged Clips	130
Digitizing Each Clip As You Mark It	131
Digitizing "On-the-Fly"	131
Digitizing Material Without Timecode	132
Deck Settings	133
Logging Without an Avid	133
Suggested Assignments	134
Chapter 7 Sound	135
The Importance of Sound	135
Track Monitors	136
Monitoring Only One Track	136

The Hollow/Green Speaker Icon	137
Audio Scrub	137
Selecting the Track for Scrubbing	138
Adding Audio Tracks	138
Patching Audio Tracks	138
Deleting Tracks	140
Changing Audio Levels	140
Audio Mix Tool	141
Changing Volume and Panning on Multiple Clips	144
Audio Gain Automation	145
Key Frames	146
Audio Mix Tool Vs. Automation Gain Tool	147
Waveforms	147
Using Trim Mode to Fine-Tune the Audio	149
Using the Clipboard to Fix Audio	151
Add Edits	152
EQ - Equalization	153
Setting the EQ	154
EQ Templates	154
Saving Your EQ Effect	155
Setting Up Your Tracks	156
Suggested Assignments	157
Chapter 8 Advanced Editing	159
Segment Mode Editing	159
Extract/Splice Segment Mode Button	160
Lift/Overwrite Segment Mode Button	163
Moving Sound to Different Tracks	164
Lassoing to Get into Segment Mode	166
Delete Segments with Segment Mode	167
Using Segment Mode Vs. the Extract and Lift Buttons to Delete Material	167
Trimming in Two Directions	168
Watch Point	170
Match Frame	170
Slipping and Sliding	171
Slip	171
Slide	173
Some Great Features Not Available on the Xpress	174
Find Bin	174
Replace	174
Do Xpress Users Miss These Features?	176
Suggested Assignments	177

Chapter 9 Titles	179
Opening the Title Tool	180
Choosing a Background	180
Creating Your First Title	180
Shadows	182
Saving Titles	182
Cutting Titles into Your Sequence	183
Rendering Your Titles	185
Colored Titles	186
Blending a Title	187
Creating Title Style Sheets	188
Drawing Objects	189
Grouping and Locking	190
Transparency	191
Alignment Menu	192
Lines and Arrows	192
Other Buttons	192
Rolling Titles	193
Cutting in Rolling Titles	193
Crawling Titles	194
Suggested Assignments	194
Chapter 10 Effects	195
Kinds of Effects	196
Effect Palette	196
Real-Time Effects and Colored Dots	197
Applying an Effect	198
Rendering a Single Effect	199
Waiting for Effects to Render	201
Rendering Multiple Effects	201
Effect Editor	201
Opening the Effect Editor	202
Effect Editor Tools	204
Manipulating Key Frames	207
Effect Quick Review	208
Deleting Effects	208
Adding Dissolves	208
Dissolve Button	209
Saving an Effect as a Template	209
Freeze Frames	210
Motion Effects	210
Slow Motion/Fast Motion	210
Reverse Motion	211

Strobe	211
A World of Effects	212
Suggested Assignments	212
Chapter 11 Saving Your Work	213
If It's a Computer It Will Crash	213
Backing Up	214
After the Crash	216
Saving User Settings	216
Copy User Settings to a Floppy or Zip	216
The Attic	217
Retrieving a File from the Attic	218
Backing Up Media Files	218
Batch Digitizing Offline Material—Redigitizing Offline Media	219
Suggested Assignments	221
Chapter 12 Keeping in Sync	223
Sync Problems	223
The Source of Your Problems	224
Sync Break Indicators	224
Many Tracks Mean Many Sync Problems	225
Locators	226
Locator Information	228
Deleting Locators	229
Editing Tricks to Stay in Sync	229
Trimming in Two Directions — A Review	229
Add Edits in Black Fill	231
Deleting Add Edits	232
Sync Locks	232
Locking Tracks	237
Suggested Assignments	237
Chapter 13 Importing and Exporting	239
Types of Files	239
Importing	240
Import Dialog Box	241
Computers Vs. Television	242
Aspect Ratio	243
Color	244
File Field Dominance	245
Import Practice	245
Importing a Photoshop File	245
Importing Color Bars	249

Importing Other File Types	249
Exporting	250
Preparing to Export	250
Export Dialog Box	251
Export Practice	252
Exporting a Frame to Photoshop	252
Exporting Audio	253
Exporting Other File Types	255
Suggested Assignments	256
Chapter 14 Finishing	257
Paths to the Finish Line	257
Finding Room on the Hard Drives	258
Deleting Unreferenced Precomputes	258
Consolidating Your Sequence	260
Checking for Space	261
Blowing It All Away	261
Deleting Your Low-Resolution Media	261
Preparing to Redigitize Your Sequence	262
Redigitizing Your Sequence	263
Replacing Your Audio Tracks	263
Recreating Title Media and Rendering Effects	264
Checking Audio Levels	264
Outputting to Tape	264
Connecting the Avid Cables to the Tape Deck	265
Manual Recording or Crash Recording to Tape	265
Digital Cut	266
Starting Sequence Timecode	266
EDL (Edit Decision List)	268
Suggested Assignments	270
Chapter 15 Finishing on Film	271
Why Film?	271
Film and the Avid	271
The Film-to-Tape Transfer	272
Finishing on Film or Finishing on Tape	272
Hire a Negative Cutter First	272
The \$64,000 Question	273
The 2-3 Pulldown	273
It's really 29.97	274
Keycode and Timecode	274
Problems with the Transfer	276
Identifying the First Frame with a Punch	276

Checking the Numbers	277
Types of Timecode	277
Work Order to Your Lab	277
The Matchback Process	278
Telecine Log File	278
Logging Keycode by Hand	279
Phantom Master Clip	280
Sound and the Avid	281
Nagra 4.2	281
Timecode Nagra and Timecode DAT	282
Slowing Down the Audio During Digitizing	282
Syncing Rushes	282
Effects	283
Add Edits	283
SMPTE Leader and Beep	284
Cut Lists and Video Copy	284
"Matchback Shortened the Tail of the Clip by 1 Frame"	286
Mix and Optical Sound Track	286
Checking Sync	287
It Works	287
Next Stop Cannes	287
Chapter 16 Present and Future	289
Where Do You Go from Here?	289
Information on the Internet	290
Getting a Job as an Avid Editor	290
Other Avid Products	291
Television's Future	291
Avid's Future	292
Index	295
