

ACS SYMPOSIUM SERIES 749

# Olefin Polymerization Emerging Frontiers

EDITED BY

Palanisamy Arjunan, James E. McGrath,  
and Thomas L. Hanlon

# Contents

Preface .....	vii
---------------	-----

## PROGRESS IN CATALYSIS

<b>1. Reactivity and Mechanistic Studies of Stereocontrol for Ziegler-Natta Polymerization Utilizing Doubly-Silylene Bridged Group 3 and Group 4 Metallocenes .....</b>	<b>2</b>
D. L. Zubris, D. Veghini, T. A. Herzog, and J. E. Bercaw	
<b>2. Recent Developments in Lanthanide Catalysts for 1,3-Diene Polymerization .....</b>	<b>15</b>
L. Porri, G. Ricci, A. Giarrusso, N. Shubin, and Z. Lu	
<b>3. Siloxy-Substituted Group IV Metallocene Catalysts .....</b>	<b>31</b>
Reko Leino and Hendrik J. G. Luttikhedde	

## PROGRESS IN POLYMERIZATION

<b>4. Advances in Propene Polymerization Using Magnesium Chloride-Supported Catalysts .....</b>	<b>50</b>
J. C. Chadwick, G. Morini, G. Balbontin, V. Busico, G. Talarico, and O. Sudmeijer	
<b>5. Homo- and Copolymerization of Styrene by Bridged Zirconocene Complex with Benz Indenyl Ligand .....</b>	<b>66</b>
Toru Arai, Shigeru Suzuki, and Toshiaki Ohtsu	
<b>6. Random Copolymerization of Propylene and Styrene with Homogeneous Monocyclopentadienyltitanium-Methylaluminoxanes Catalyst .....</b>	<b>81</b>
Qing Wu, Qinghai Gao, Zhong Ye, and Shangan Lin	

## PROGRESS IN POLYMER DESIGN

<b>7. Advantaged Polyethylene Product Design .....</b>	<b>94</b>
J. LaMonte Adams, George N. Foster, and Scott H. Wasserman	

8. Polyolefin Copolymers Containing *p*-Methylstyrene Units:  
Preparation by Metallocene Catalysts and Application  
in the Functionalization of Polyolefins.....104  
T. C. Chung

## PROGRESS IN CHARACTERIZATION

9. The Distribution of Asymmetric and Symmetric Chains  
in Highly Isotactic Polypropylenes.....130  
J. C. Randall, C. J. Ruff, and Masatoshi Ohkura
10. Short Chain Branching Distribution of Amorphous  
Ethylene Copolymers .....151  
Lecon Woo, Michael T. K. Ling, Atul R. Khare,  
and Stanley P. Westphal
11. Variable Temperature, Solid-State <sup>13</sup>C NMR Study  
of Linear Low-Density Polyethylene.....163  
Mingming Guo, Stephen Z. D. Cheng, and Roderic P. Quirk
12. Determination of Trimethylaluminum and Characterization  
of Methylaluminoxanes Using Proton NMR.....177  
Donald W. Imhoff, Larry S. Simeral, Don R. Blevins,  
and William R. Beard

## INDEXES

- Author Index .....194
- Subject Index.....195
