

Heavy Metals: A Problem Solved?

Methods and Models to Evaluate
Policy Strategies for Heavy Metals

Edited by

Ester van der Voet,
Jeroen B. Guinée and
Helias A. Udo de Haes

Table of Contents

ABSTRACT	vii
PREFACE	ix
PART I: INTRODUCTION	1
I.1 General Introduction	3
<i>Ester van der Voet, Jeroen B. Guinée & Helias A. Udo de Haes</i>	
I.2 Basic concepts and approaches	11
<i>Ester van der Voet, Jeroen B. Guinée & Helias A. Udo de Haes</i>	
PART II: MODELS FOR THE ANALYSIS AND MANAGEMENT OF HEAVY METALS IN THE NETHERLANDS	17
II.1 General modelling issues for economic and substance flow models	19
<i>Mathijs N. Bouman</i>	
II.2 FLUX, a tool for substance flow analysis	25
<i>Xander Olsthoorn & Jos Boelens</i>	
II.3 Economic analysis of Material-Product Chains	37
<i>Patricia P.A.A.H. Kandelaars & Jeroen C.J.M. van den Bergh</i>	
II.4 Heavy-metal balances of agricultural soils	47
<i>Simon W. Moolenaar & Theo M. Lexmond</i>	
II.5 <i>Dynabox</i> : A dynamic multi-media fate model for the case of heavy metals	65
<i>Reinout Heijungs</i>	
II.6 Sustainability indicators for the case of heavy metals	77
<i>Ester van der Voet, Jeroen B. Guinée & Helias A. Udo de Haes</i>	
II.7 Combining SFA and economic models	91
<i>Mathijs N. Bouman, Reinout Heijungs & Ester van der Voet</i>	

PART III: APPLICATIONS OF THE DEVELOPED MODELS	111
III.1 Metals in the Netherlands: application of FLUX, Dynabox and the indicators <i>Ester van der Voet, Jeroen B. Guinée & Helias A. Udo de Haes</i>	113
III.2 Applications of Material-Product Chain analysis <i>Patricia P.A.A.H. Kandelaars & Jeroen C.J.M. van den Bergh</i>	127
III.3 Applications of dynamic balances in agricultural systems <i>Simon W. Moolenaar & Theo M. Lexmond</i>	139
PART IV: TOWARD SUSTAINABLE METALS MANAGEMENT: THREE SCENARIOS FOR COPPER AND ZINC MANAGEMENT IN THE NETHERLANDS	153
IV.1 Introduction <i>Ester van der Voet & Lauran van Oers</i>	155
IV.2 The generation of solutions for the environmental problems related to zinc and copper in the Netherlands <i>Ester van der Voet & Lauran van Oers</i>	157
IV.3 Results of the scenario calculations <i>Lauran van Oers, Ester van der Voet, Evert Verkuijlen, Patricia P.A.A.H. Kandelaars, Jeroen C.J.M. van den Berg, Simon W. Moolenaar & Theo M. Lexmond</i>	169
IV.4 Discussion and conclusions <i>Ester van der Voet & Lauran van Oers</i>	203
PART V: DISCUSSION, CONCLUSIONS AND RECOMMENDATIONS	209
V.1 Summary of results	211
V.2 Conclusions	225
V.3 Recommendations	229
GLOSSARY	231
