

CURRENT PERSPECTIVES IN GEOLOGY

2000 EDITION

Michael L. McKinney • Kathleen M. McHugh • Susan P. Meadows

Contents

PART 1: The Origin of the Earth and Its Internal Processes 1

- 1 Dynamics of Earth's Interior 3
- 2 Mantle Plumes and Mountains 7
- 3 The Globe Inside Our Planet 14
- 4 Travels of America 18

PART 2: Earthquakes and Volcanos 25

- 5 What's This Volcano Trying to Tell Us? 27
- 6 Faulty Premise 32
- 7 Clues from a Village: Dating a Volcanic Eruption 37
- 8 Like a Bolt from the Blue 41

PART 3: External Earth Processes and Extraterrestrial Geology 47

- 9 Ancient Sea-Level Swings Confirmed 49
- 10 The Seafloor Laid Bare 53
- 11 Rocks at the Mars Pathfinder Landing Site 58
- 12 A Martian Chronicle 65
- 13 Pluto Reconsidered 72

PART 4: Resources and Pollution 75

- 14 Sharing the Planet: Can Humans and Nature Coexist? 77
- 15 Sharing the Wealth 84
- 16 Water for Food Production: Will There Be Enough in 2025? 90
- 17 Paradise Lost: America's Disappearing Wetlands 101
- 18 Hydrologic Manipulations of the Channelized Kissimmee River 106
- 19 Do Soils Need Our Protection? 115
- 20 Waste Not 119
- 21 The Greening of Plastics 123
- 22 Is Combustion of Plastics Desirable? 126

- 23 Acid Rain Control: Success on the Cheap 134

- 24 The Complexity of Urban Stone Decay 138

PART 5: Global Climate Change—Past, Present, and Future 143

- 25 Spending Our Great Inheritance—Then What? 145

- 26 Deep Freeze 149

- 27 Underground Temperatures Reveal Changing Climate 153

- 28 Verdict (Almost) In 157

- 29 The Heat is On 160

- 30 The Day the Sea Stood Still 164

- 31 The Storm in the Machine 167

PART 6: The History of Life—Origins, Evolution, and Extinction 173

- 32 Life's First Scalding Steps 175

- 33 Digging Up the Roots of Life 180

- 34 When Life Exploded 184

- 35 Cooking Up a Storm 191

- 36 What the Dinosaurs Left Us 196

- 37 Fossils Indicate Dinosaurs Nested on Eggs 202

- 38 Feathers Don't Make the Bird 204

- 39 The Dinosaur Detectives 206

- 40 Meteors That Changed the World 210

- 41 Did Darwin Get It All Right? 216

- 42 New Mammal Data Challenge Evolutionary Pulse Theory 220
