## 1 Tools, Fasteners, and Safety

Objectives	1
Threaded Fasteners	1
Metric Bolts	2
Grades of Bolts	2
Nuts	3
Washers	4
Basic Tool List	4
Brand Name versus Proper Term	11
Safety Tips for Using Hand Tools	12
Safety Tips for Technicians	12
Safety in Lifting (Hoisting) a Vehicle	13
Hazardous Materials	17
Material Safety Data Sheets	18
Summary	24
Review Questions	24
ASE Certification-Type Questions	24

---

## 2

---

### Engine Operation and Identification 25

Objectives	25
Energy and Power	25
Four-Stroke Cycle Operation	25
The 720-Degree Cycle	26
Engine Classification	27
VIN Year Chart	29
Engine Design Classification	30
Engine Rotation Direction	32
Bore	32
Stroke	32

Over Square and Under Square	32
Engine Displacement	34
Engine Size versus Horsepower	34
Compression Ratio	34
Horsepower	35
Brake-Specific Fuel Consumption	36
Where the Energy Goes	36
Watts and Horsepower	36
Taxable Horsepower	36
SAE Gross versus Net Horsepower	36
Metric versus Brake Horsepower	37
Deutsche Industrie Norm Horsepower versus SAE Horsepower	37
Japan Industry Standard versus SAE Horsepower	37
Horsepower and Altitude	37
Summary	38
Review Questions	38
ASE Certification-Type Questions	38

---

## 3

---

### Lubrication System Operation and Diagnosis 39

Objectives	39
Lubrication Principles	39
Engine Lubrication Systems	40
Properties of Engine Oil	40
SAE Rating	40
API Rating	41
ILSAC Oil Rating	42
European Oil Ratings	42
Japanese Oil Ratings	42
Engine Oil Additives	42
Energy-Conserving Engine Oils	43
Oil Brand Compatibility	43
Synthetic Oil	43
Oil Temperature	44
Oil Change Intervals	44

Oil Change Procedure	44
Oil Filters	45
Changing Oil in a Turbocharged Engine	45
Oil Pumps	47
Oil Pressure Regulation	48
Factors Affecting Oil Pressure	49
Oil Pump Checks	50
Oil Passages in the Block	51
Valve Train Lubrication	51
Oil Pans	53
Oil Coolers	53
Positive Crankcase Ventilation	54
Summary	54
Review Questions	54
ASE Certification-Type Questions	54

## 4

### Starting and Charging System Operation and Diagnosis 56

Objectives	56
Purpose of a Battery	56
How a Battery Works	56
Specific Gravity	57
Battery Ratings	59
Battery Service	59
Jump Starting	63
Cranking Circuit	63
Starting System Troubleshooting	64
Starter Amperage Testing	65
Bench Testing	66
AC Generators	66
Summary	79
Review Questions	79
ASE Certification-Type Questions	79

## 5

### Ignition System Operation and Diagnosis 81

Objectives	81
Ignition System Operation	81
Primary Circuit Operation	82
Direct-Fire Ignition Systems	83
Coil-on-Plug Ignition	87
Checking for Spark	87
Pickup Coil Testing	90
Distributor Cap and Rotor Inspection	90
Spark Plug Wire Inspection	92
Firing Order	93
Spark Plug Service	93
Ignition Timing	97
Summary	107
Review Questions	107
ASE Certification-Type Questions	107

## 6

### Fuel and Emission System Operation and Diagnosis 109

Objectives	109
Gasoline	109
Volatility	109
Volatility Problems	110
Normal and Abnormal Combustion	110
Research and Motor Methods of Octane Rating	112
Gasoline Grades and Octane Number	112
Oxygenated Fuels	113
Combustion Chemistry	114
Valve Recession and Unleaded Fuel	114
Reformulated Gasoline	115
Government Test Fuel	115
General Gasoline Recommendations	115
Fuel System Operation	115
Mechanical Fuel Pump	116
Electronic Fuel-Injection Operation	116
Throttle-Body Injection	118
Port Fuel Injection	119
Need for Emission Controls	121
Positive Crankcase Ventilation System	123
PCV System Performance Check	124
Air-Pump System	124
Evaporative Emission Control System	126
Exhaust Gas Recirculation System	126
Catalytic Converters	130
Summary	142
Review Questions	142
ASE Certification-Type Questions	142

## 7

### Cooling System Operation and Diagnosis 144

Objectives	144
Cooling System Purpose and Function	144
Low-Temperature Engine Problems	144
High-Temperature Engine Problems	145
Cooling System Design	146
Thermostat Temperature Control	147
Testing the Thermostat	148
Thermostat Replacement	149
Antifreeze	150
Organic Additive Technology Coolant	150
Propylene Glycol Antifreeze	151
Phosphate-Free Antifreeze	151
Antifreeze Can Freeze	151
Hydrometer Testing	151
Recycling Coolant	152
Disposing of Used Coolant	152
Radiator	153
Pressure Cap	154

Metric Radiator Caps	155
Coolant Recovery System	155
Pressure Testing	156
Coolant Dye Leak Testing	156
Water Pump Operation	157
Coolant Flow in the Engine	157
Water Pump Service	158
Cooling Fans	159
Thermostatic Fans	161
Heater Core	162
Heater Problem Diagnosis	162
Coolant Temperature Warning Light	163
Common Causes of Overheating	164
Cooling System Maintenance	164
Flush and Refill	165
Burping the System	165
Hoses	167
Back Flushing a Radiator	167
Cleaning the Radiator Exterior	167
Summary	169
Review Questions	169
ASE Certification-Type Questions	169

## 8

### Engine Condition Diagnosis 171

Objectives	171
Typical Engine-Related Complaints	171
Engine Smoke Diagnosis	172
The Driver Is Your Best Resource	172
Visual Checks	172
Engine Noise Diagnosis	174
Oil Pressure Testing	177
Oil Pressure Warning Lamp	177
Oil Analysis	178
Getting the Sample	178
Studying the Results	178
Compression Test	180
Wet Compression Test	181
Running Compression Test	182
Cylinder Leakage Test	182
Cylinder Power Balance Test	183
Power Balance Test Procedure	184
Vacuum Testing	184
Exhaust Restriction Test	185
Testing Back Pressure with a Vacuum Gauge	185
Testing Back Pressure with a Pressure Gauge	186
Timing Chain Slack Diagnosis	186
Exhaust Analysis and Combustion Efficiency	187
Diagnosing Head Gasket Failure	188
Dash Warning Lights	189
Summary	200
Review Questions	200
ASE Certification-Type Questions	200

## 9

### Engine Removal and Disassembly 202

Objectives	202
Component Repair	202
Valve Job	202
Minor Overhaul	203
Major Overhaul	203
Short Block	203
Fitted Block	204
Long Block	204
Remanufactured Engines	204
Engine Removal	204
Engine Disassembly	207
Removing the Cylinder Ridge	208
Piston Removal	209
Piston Condition	209
Rotating Engine Assembly Removal	213
Cylinder Head Disassembly	214
Summary	216
Review Questions	216
ASE Certification-Type Questions	216

## 10

### Engine Cleaning, Crack Detection, and Repair 218

Objectives	218
Mechanical Cleaning	218
Chemical Cleaners	219
Solvent-Based Cleaning	220
Water-Based Chemical Cleaning	220
Spray Washing	220
Steam Cleaning	220
Thermal Cleaning	221
Cold Tank Cleaning	221
Hot Tank Cleaning	221
Vapor Cleaning	222
Ultrasonic Cleaning	222
Vibratory Cleaning	222
Blasters	222
Visual Inspection	223
Magnetic Crack Inspection	223
Dye Penetrant Testing	223
Fluorescent Penetrant Testing	224
Pressure Testing	224
Crack Repair	224
Crack Welding Cast Iron	226
Crack Welding Aluminum	226
Crack Plugging	227
Summary	230
Review Questions	230
ASE Certification-Type Questions	230

**Engine Measuring and Math 231**

- Objectives 231
- Micrometer 231
- Crankshaft Measurement 231
- Telescopic Gauge 233
- Small-Hole Gauge 234
- Vernier Dial Caliper 234
- Feeler Gauge 236
- Straightedge 237
- Dial Indicator 237
- Dial Bore Gauge 237
- Engine Math and Formulas 237
- Summary 244
- Review Questions 244
- ASE Certification-Type Questions 244

## 12

**Intake and Exhaust Manifolds 246**

- Objectives 246
- Carburetor and Throttle-Body Injection
  - Intake Manifolds 246
- Open and Closed Intake Manifolds 248
- Manifold Heat 250
- Choke Heat 253
- Port-Injection Intake Manifolds 254
- Plastic Intake Manifolds 254
- Exhaust Gas Recirculation 254
- Intake Manifold Gaskets 255
- Turbocharging 256
- Wastegate Operation 257
- Turbocharger Failures 258
- Supercharging 259
- Boost Is the Result of Restriction 259
- Exhaust Manifold Design 259
- Exhaust Manifold Gaskets 260
- How Headers Work 261
- Heat Risers 262
- Catalytic Converters 263
- Mufflers 264
- Summary 265
- Review Questions 265
- ASE Certification-Type Questions 266

## 13

**Cylinder Head and Valve Guide Service 267**

- Objectives 267
- Hemispherical Combustion Chamber 267
- Wedge Combustion Chamber 268
- Surface Quenching 268

- Stratified Charge Combustion Chamber 269
- Multiple-Valve Combustion Chamber 270
- Four-Valve Head 271
- Intake and Exhaust Ports 272
- Cylinder Head Coolant Passages 273
- Lubricating Overhead Valves 275
- Removing the Overhead Camshaft 275
- Disassembly of the Cylinder Head 275
- Cylinder Head Reconditioning Sequence 275
- Cylinder Head Resurfacing 276
- Aluminum Cylinder Head Straightening 277
- Resurfacing Methods 278
- Surface Finish 279
- Correcting Intake Manifold Alignment 279
- Valve Guides 281
- Valve Stem-to-Guide Clearance 281
- Measuring Valve Guides for Wear 282
- Oversize Stem Valves 282
- Valve Guide Knurling 283
- Valve Guide Replacement 284
- Valve Guide Inserts 285
- Spiral Bronze Insert Bushings 285
- Summary 291
- Review Questions 291
- ASE Certification-Type Questions 291

## 14

**Valve and Seat Service 292**

- Objectives 292
- Intake and Exhaust Valves 292
- Valve Size Relationships 293
- Valve Design 293
- Valve Materials 294
- Sodium-Filled Valves 294
- Valve Seats 294
- Valve Inspection 295
- Valve Springs 299
- Valve Spring Inspection 300
- Valve Keepers 301
- Valve Rotators 302
- Valve Reconditioning Procedure 302
- Valve Face Grinding 303
- Valve Seat Reconditioning 306
- Valve Guide Pilots 308
- Valve Seat Grinding Stones 309
- Dressing the Grinding Stone 310
- Valve Seat Grinding 310
- Narrowing the Valve Seat 311
- Valve Seat Cutters 313
- Valve Seat Testing 313
- Valve Seat Replacement 314
- Valve Stem Height 316
- Checking Installed Height 318
- Valve Stem Seals 318
- Installing the Valves 321

Flow Testing Cylinder Heads	322
Cylinder Head Flow versus Horsepower	324
Summary	330
Review Questions	330
ASE Certification-Type Questions	330

## 15

### **Camshaft and Valve Train Service 331**

Objectives	331
Camshaft Function	331
Camshaft Location	331
Camshaft Problem Diagnosis	332
Camshaft Removal	333
Camshaft Design	333
Composite Camshafts	334
Camshaft Lubrication	335
Fuel-Pump Eccentrics	335
Camshaft Drives	337
Camshaft Chain Drives	337
Camshaft Belt Drives	337
Camshaft Twisting Movement	337
Cam Chucking	337
Lifter Rotation	337
Camshaft Lift	341
Rocker Arms	342
Pushrods	345
Pushrod Length	346
Camshaft Duration	347
Valve Overlap	347
Lobe Centers	348
How to Determine Lobe Center Angle	348
Cam Timing Specifications	349
Intake Valve	349
Exhaust Valve	349
Cam Timing Chart	349
Measuring and Regrinding Camshafts	350
Installing the Camshaft	350
Degreeing the Camshaft	352
Lifters or Tappets	355
Solid Lifters	356
Hydraulic Lifters	356
Lifter Preload	359
Determining Lifter Preload	359
Determining Proper Lifter Travel	361
Valve Noise Diagnosis	361
Mechanical Lifter Service	362
Hydraulic Lifter Service	362
Hydraulic Valve Lifter Installation	363
Bleeding Hydraulic Lifters	363
Summary	368
Review Questions	368
ASE Certification-Type Questions	368

## 16

### **Engine Block Construction and Service 369**

Objectives	369
Block Manufacturing	369
Casting Numbers	370
Block Machining	370
Aluminum Blocks	371
Block Condition Inspection	372
Lower Engine Block Design	373
The Block Deck	373
Cylinder Skirts	373
Cooling Passages	375
Lubricating Passages	375
Main Bearing Caps	375
Engine Block Service	377
Main Bearing Housing Bore Alignment	377
Machining the Deck Surface of the Block	379
Cylinder Boring	380
Sleeving the Cylinder	384
Cylinder Honing	384
Cylinder Surface Finish	386
Plateau Honing	388
Cylinder Cleaning	388
Block Detailing	388
Summary	396
Review Questions	397
ASE Certification-Type Questions	398

## 17

### **Pistons, Rings, and Connecting Rods 399**

Objectives	399
Purpose and Function of Pistons, Rings, and Connecting Rods	399
Piston and Rod Removal	400
Piston Design	401
Piston Heads	402
Piston Ring Grooves	403
Cam Ground Pistons	404
Piston Head Size	404
Piston Strut Inserts	405
Hypereutectic Pistons	406
Forged Pistons	406
Piston Skirt Finish	406
Piston Balance	407
Piston Service	408
Piston Pins	408
Piston Pin Offset	410
Piston Pin Fit	411
Piston Pin Retaining Methods	412
Piston Pin Service	412
Piston Rings	413

Compression Rings 414  
Piston Ring Forces 414  
Ring Gap 415  
Piston Ring Cross Sections 415  
Chromium Piston Rings 416  
Molybdenum Piston Rings 416  
Moly-Chrome-Carbide Rings 417  
Oil Control Rings 417  
Connecting Rods 417  
Connecting Rod Design 418  
Rod Twist 419  
Connecting Rod Service 421  
Piston and Rod Balancing 423  
Piston and Rod Assembly 423  
Piston Ring Service 424  
Summary 426  
Review Questions 436  
ASE Certification-Type Questions 436

## 18

### **Crankshafts and Bearings 437**

Objectives 437  
Crankshaft Purpose and Function 437  
Forged Crankshafts 437  
Cast Crankshafts 438  
Six-Cylinder Engine Crankshafts 439  
V-8 Engine Crankshafts 439  
Four-Cylinder Engine Crankshafts 440  
Five-Cylinder Engine Crankshafts 440  
Three-Cylinder Engine Crankshafts 441  
Odd-Firing 90-Degree V-6 Engine Crankshafts 441  
Even-Firing 90-Degree V-6 Engine Crankshafts 441  
60-Degree V-6 Engine Crankshafts 441  
Crankshaft Oiling Holes 442  
Crankshaft Lightening Holes 443  
Crankshaft Forces 443  
Crankshaft Balance 445  
Thrust Surface 447  
Crankshaft Inspection 447  
Crankshaft Grinding 447  
Welding a Crankshaft 449  
Balancing a Crankshaft 449  
Stress Relieving the Crankshaft 451  
Auxiliary Shafts 451  
Balance Shafts 451  
Causes of Unbalance 452  
Engine Bearings 454  
Bearing Loads 455  
Bearing Fatigue 456  
Bearing Conformability 457  
Bearing Embedability 457  
Bearing Damage Resistance 457  
Bearing Materials 459

Bearing Manufacturing 459  
Bearing Sizes 460  
Bearing Clearance 460  
Bearing Spread and Crush 460  
Cam Bearings 461  
Summary 467  
Review Questions 467  
ASE Certification-Type Questions 467

## 19

### **Engine Assembly 468**

Objectives 468  
Block Preparation 468  
Installing Cups and Plugs 468  
Cam Bearings 469  
Causes of Premature Bearing Failure 470  
Measuring Main Bearing Clearance 470  
Correcting Bearing Clearance 471  
Lip Seal Installation 472  
Rope Seal Installation 473  
Additional Sealing Locations 474  
Installing the Crankshaft 474  
Thrust Bearing Clearance 475  
Tightening Procedure for the Main Bearing 475  
Installing Timing Chains and Gears 476  
Piston Fitting 477  
Ring End Gap 477  
Installing Piston and Rod Assemblies 479  
Connecting Rod Side Clearance 482  
Installing the Camshaft for Overhead Cam Engines 482  
Head Gaskets 482  
Installing the Head Gasket 485  
Head Bolt Torque Sequence 486  
Torque-to-Yield Bolts 486  
Timing Drives for Overhead Cam Engines 487  
Lifter and Pushrod Installation 488  
Hydraulic Lifters 488  
Solid Lifters 488  
Assembly Sealants 489  
Installing Manifolds 490  
Cover Gasket Materials 490  
Hints for Gasket Usage 491  
Installing Timing Covers 491  
Installing the Vibration Damper 491  
Installing the Oil Pump 492  
The Oil Pan 492  
Installing the Water Pump 492  
Engine Painting 493  
Checking for Proper Oil Pressure 493  
Setting Initial Ignition Timing 495  
Summary 497  
Review Questions 497  
ASE Certification-Type Questions 497

## **Engine Installation and In-Vehicle Service 498**

Objectives	498
Manual Transmission Installation	498
Automatic Transmission Installation	499
Starter	499
Accessories	500
Engine Installation	500
Cooling System	500
Fuel and Emission Controls	500
Electrical System	501
Break-In Engine Oil	501
Engine Break-In	501
Normal Operating Temperature	502
How to Warm Up a Cold Engine	502
Break-In Precautions	502
Summary	514
Review Questions	514
ASE Certification-Type Questions	514

## **APPENDICES**

1 Engine Repair (A1) Sample ASE Certification Test (70)	515
2 Cylinder Head Specialist (M1) Sample ASE Certification Test (40)	521
3 Cylinder Block Specialist (M2) Sample ASE Certification Test (40)	525
4 Engine Assembly Specialist (M3) Sample ASE Certification Test (40)	529
5 Fraction/Decimal/Millimeter Conversion Chart	533
6 Fraction/Decimal Equivalents	535
7 Newton-Meter to Pound-Feet Conversion Chart	536
8 Pound-Feet to Newton-Meter Conversion Chart	537
9 Celsius Degrees to Fahrenheit Degrees Conversion Chart	538
10 Timing Belt Replacement Guide	539

### **Answers to Even-Numbered ASE Certification-Type Questions 545**

### **Glossary 546**

### **Index 553**
