

PROTEIN-BASED FILMS *and* COATINGS

Edited by
Aristippos Gennadios

CRC

CRC PRESS

Table of Contents

1. PROTEINS AS RAW MATERIALS FOR FILMS AND COATINGS: DEFINITIONS, CURRENT STATUS, AND OPPORTUNITIES	1
JOHN M. KROCHTA	
Introduction	1
Definitions, Functions, and Rationale	2
Film and Coating Composition	6
Film and Coating Formation	9
Properties of Protein Films and Coatings	10
Protein Film and Coating Application Opportunities	25
Summary and Conclusions	31
References	32
2. FORMATION AND PROPERTIES OF CORN ZEIN FILMS AND COATINGS	43
GRACIELA W. PADUA and QIN WANG	
Introduction	43
Zein Structure	44
Physicochemical Properties of Zein	46
Glass Transition Temperatures	46
Zein Coatings	47
Zein Films	48
Resin Films	53
Conclusions	62
References	63

3. FORMATION AND PROPERTIES OF WHEAT GLUTEN FILMS AND COATINGS	69
STÉPHANE GUILBERT, NATHALIE GONTARD, MARIE HÉLÈNE MOREL, PASCALE CHALIER, * VALERIE MICARD, and ANDRÉAS REDL	
Introduction	69
Composition, Structure, and Thermal Properties of Wheat Gluten	71
Shaping Process of Wheat Gluten Materials	79
Postproduction Treatments of Wheat Gluten Films	95
Functional Properties of Wheat Gluten-Based Materials	99
Applications of Wheat Gluten-Based Films and Coatings	114
Conclusions	115
References	115
4. FORMATION AND PROPERTIES OF SOY PROTEIN FILMS AND COATINGS	123
SANG K. PARK, NAVAM S. HETTIARACHCHY, ZHI Y. JU, and ARISTIPPOS GENNADIOS	
Introduction	123
Formation of Soy Protein Films	124
Properties of Soy Protein Films	126
Biodegradation of Soy Protein Films	133
Potential Applications and Future Research Needs	133
References	134
5. FORMATION AND PROPERTIES OF COTTONSEED PROTEIN FILMS AND COATINGS	139
CATHERINE MARQUIÉ and STÉPHANE GUILBERT	
Introduction	139
Protein Nature and Recovery	139
Film Formation Techniques and Mechanisms	142
Film Properties	151
Biodegradability	155
Potential Uses	155
Conclusions	156
References	156
6. FORMATION AND PROPERTIES OF WHEY PROTEIN FILMS AND COATINGS	159
MARÍA B. PÉREZ-GAGO and JOHN M. KROCHTA	
Introduction	159
Nature of Major Whey Proteins	160
Whey Protein Recovery	163
Whey Protein Film Formation	164
Whey Protein Film Properties	165
Applications	176

Research Needs	177
References	177
7. FORMATION AND PROPERTIES OF CASEIN FILMS AND COATINGS	181
HONGDA CHEN	
Introduction	181
Nutritional Value of Casein	181
Chemical and Physical Characteristics of Casein and Caseinates	182
Manufacture of Casein and Caseinates	184
Film Formation Mechanisms	186
Film Functional Properties	189
Uses of Casein Films and Coatings	207
The Future of Casein and Caseinate Films	208
References	209
8. FORMATION AND PROPERTIES OF FISH MYOFIBRILLAR PROTEIN FILMS AND COATINGS	213
BERNARD CUQ	
Introduction	213
Myofibrillar Proteins	214
Physicochemical Properties of Myofibrillar Proteins	217
Formation of Myofibrillar Protein-Based Films	219
Properties of Myofibrillar Protein-Based Films	222
Conclusion	228
References	229
9. FORMATION AND PROPERTIES OF EGG WHITE FILMS AND COATINGS	233
LOONG-TAK LIM, YOSHINORI MINE, IAN J. BRITT, and MARVIN A. TUNG	
Introduction	233
Film Formation	234
Factors Affecting Mechanical and Barrier Properties	241
Conclusions	249
References	250
10. FORMATION AND PROPERTIES OF WOOL KERATIN FILMS AND COATINGS	253
ASAO YAMAUCHI and KIYOSHI YAMAUCHI	
Introduction	253
Molecular Characteristics of Keratins	254
Preparation of Reduced Keratins	256
Keratin Films	259
Keratin Microcapsules	267
Conclusions	271
References	271

11. FORMATION AND PROPERTIES OF COLLAGEN AND GELATIN FILMS AND COATINGS	275
IOANNIS S. ARVANITOYANNIS	
Introduction	275
Collagen and Gelatin Structure	276
Physical Properties	278
Rheology of Gelatin Films	290
Gas and Water Vapor Permeability of Gelatin Films	292
Optical Rotation and Circular Dichroism of Gelatin Solutions/Films	294
Gelatin-Based Films	298
References	300
12. FILMS AND COATINGS FROM PROTEINS OF LIMITED AVAILABILITY	305
HYUN J. PARK, JONG W. RHIM, CURTIS L. WELLER, ARISTIPPOS GENNADIOS, and MILFORD A. HANNA	
Introduction	305
Peanut Protein	306
Rice Protein	309
Pea Protein	312
Lupin Protein	314
Grain Sorghum Protein	316
Winged Bean Protein	318
Pistachio Protein	319
Cucumber Pickle Brine Protein	321
Feather Keratin	322
Implication	323
References	323
13. MODELING WATER VAPOR, GAS, AND SOLUTE TRANSPORT THROUGH PROTEIN FILMS	329
P. (KUMAR) MALLIKARJUNAN, IRINA ANTONOVA, and MANJEET S. CHINNAN	
Introduction	329
Water Sorption Isotherm	330
Mass Transfer through Edible Films	332
Mathematical Models	333
Conclusion	336
References	337
14. PROTEINS AS MICROENCAPSULATING AGENTS AND MICROENCAPSULATED ACTIVE COMPOUNDS IN PHARMACEUTICAL APPLICATIONS	341
ALLISON E. RADWICK and DIANE J. BURGESS	
Introduction	341

Pharmaceutical Applications of Protein Microparticles	343
Core and Wall Material Properties	345
Microencapsulation Methods	346
Microparticle Release Mechanisms	349
Limitations of Microparticles in Delivering Therapeutic Drugs and Proteins	350
Potential Causes of Protein Coating or Core Denaturation during Microparticle Processing	351
Stabilization of Proteins during Encapsulation	356
Stabilization of Proteins with Cosolvents	357
Summary	359
References	360
15. HARD GELATIN CAPSULES.....	367
<i>BILL J. BOWMAN and CLYDE M. OFNER III</i>	
Introduction	367
Raw Materials	368
Manufacture of HGC	372
Capsule Filling	376
Drug Release from HGC	381
Conclusion	387
References	387
16. SOFT GELATIN CAPSULES.....	393
ARISTIPPOS GENNADIOS	
Introduction	393
Nature and Uses	394
Manufacturing	404
Softgels with Modified Release Characteristics	425
Softgels with Gelatin Extenders or Substitutes	427
Caplets/Tablets Enrobed/Coated with Gelatin	431
References	433
17. COLLAGEN CASINGS.....	445
WESLEY N. OSBURN	
Introduction	445
History of Collagen Casing Manufacture	446
Collagen Casing Properties	453
Techniques and Procedures for Stuffing Collagen Casings	454
Techniques and Procedures for Smoking/Cooking Collagen Casings	457
Summary	461
Acknowledgments	461
Glossary of Terms (Derro-Teepak, 1996)	461
References	464

18. APPLICATION OF EDIBLE COATINGS ON MUSCLE FOODS	467
CATHERINE N. CUTLER and SUSAN S. SUMNER	
Introduction	467
Application of Edible Films	468
Properties and Types of Edible Films	469
Antimicrobial Films	478
References	480
19. PROTEIN-BASED EDIBLE FILMS AND COATINGS CARRYING ANTIMICROBIAL AGENTS	485
JUNG H. HAN	
Introduction	485
Antimicrobial Edible Films and Coatings	486
Antimicrobial Substances	488
Factors Considered in Designing Antimicrobial Edible Film and Coating Systems	490
Research and Development Trends for Antimicrobial Edible Protein Films and Coatings	496
Conclusion	498
References	498
20. USE OF PROTEINS IN EDIBLE COATINGS FOR WHOLE AND MINIMALLY PROCESSED FRUITS AND VEGETABLES	501
ELIZABETH A. BALDWIN and ROBERT A. BAKER	
Introduction	501
Postharvest Fruit and Vegetable Physiology	502
Types of Coatings Used on Fruits and Vegetables	503
Protein Materials Used in Fruit and Vegetable Coatings	504
Factors that Affect Coating Permeability	505
Protein-Based Coatings for Fresh Fruits and Vegetables	507
Protein as an Ingredient of Fruit and Vegetable Coatings	510
Labeling Issues	513
References	513
21. PROTEIN-BASED EDIBLE COATINGS FOR FRIED FOODS	517
IRINA ANTONOVA, P. (KUMAR) MALLIKARJUNAN, and MANJEET S. CHINNAN	
Introduction	517
Protein Films and Coatings	518
Film Properties	519
Heat and Mass Transfer Application of Coatings on Fried Foods	521
Conclusion	523
References	523

22. APPLICATION OF EDIBLE PROTEIN COATINGS TO NUTS AND NUT-CONTAINING FOOD PRODUCTS	527
THOMAS A. TREZZA and JOHN M. KROCHTA	
Importance of Nuts	527
Spoilage of Nuts	529
Traditional Strategies for Maintaining the Quality and Extending the Shelf Life of Nuts	532
Edible Protein Coatings for Maintaining the Quality of Nuts	535
Application of Edible Coatings on Nuts	539
Research Needs	543
Conclusions	544
References	544
23. PROTEIN-BASED FILMS AND COATINGS FOR MILITARY PACKAGING APPLICATIONS.	551
KAREN R. CONCA	
Introduction	551
General Information	552
Unique Military Needs	553
Past Studies	555
Recent Studies	561
Future Studies	575
References	575
24. EDIBLE FILMS AND COATINGS AS AROMA BARRIERS	579
FRÉDÉRIC DEBEAUFORT, JESÚS-ALBERTO, QUEZADA-GALLO, and ANDRÉE VOILLEY	
Introduction	579
Influence of Aroma-Packaging Interactions on Food Quality	580
Control of Flavor Interactions and Transfers by Edible Barriers	581
Aroma Barrier Properties of Edible Films and Coatings	583
Factors Affecting Aroma Transfers through Edible Barriers	588
Conclusion	597
References	598
25. KOSHER AND HALAL ISSUES PERTAINING TO EDIBLE FILMS AND COATINGS.	601
JOE M. REGENSTEIN and MUHAMMAD M. CHAUDRY	
Introduction	601
The Kosher and Halal Market	603
Kosher Dietary Laws	604
Halal Dietary Laws	607
Dealing with Kosher and Halal Supervision Agencies	613
Gelatin	616
Biotechnology	617

Kosher and Allergies	618
References	620
Additional Reading	620
26. SOY PROTEIN UTILIZATION IN COMPRESSION- MOLDED, EXTRUDED, AND INJECTION- MOLDED DEGRADABLE PLASTICS	621
PERMINUS MUNGARA, JINWEN ZHANG, SUSHE ZHANG, and JAY-LIN JANE	
Introduction	621
Experimental Materials	624
Results and Discussion	626
Extruded Soy Protein Foam Sheets	630
Conclusions	635
References	637
INDEX	639
