

**International
Workshop
Current Research
and Development on
Use of Cassava as
Animal Feed**

**Khon Kaen University, Thailand
July 23-24, 2001**

Organized and Sponsored by

**Khon Kaen University
Khon Kaen,
Thailand**

Cooperation with Developing Countries

Contents

Potential of cassava in integrated farming systems	5
Role of cassava hay as animal feed in the tropics.....	13
Effect of cassava hay and high-quality feed block supplementation on milk production in lactating dairy cows.....	21
Blocks or cakes of urea-molasses as supplements for Sindhi x Yellow growing cattle fed rice straw and cut grass or cassava foliage	27
Nutritive value of cassava leaves for monogastric animals.....	31
Effect of condensed tannins in cassava hay on fecal parasitic egg counts in swamp buffaloes and cattle	41
Studies on the nutritive value of ensiled cassava leaves for pigs in Cambodia.....	45
Cassava as small ruminant feed in the hilly and mountainous area of Bavi district in North Vietnam	53
Optimum cassava chip levels in lactating cow diets.....	59
Effect of level of cassava hay supplementation and concentrate use on milk yield and composition.....	65
Effects of roughage source on rumen microbes, feed intake and digestibility in swamp buffaloes.....	69
Site and extent of cassava starch digestion in ruminants.....	73
Feeding cassava chip-based rations to lactating dairy cows.....	77
The effect of molasses on quality, feed intake and digestibility by heifers of silage made from cassava tops	81
Studies on the processing and use of cassava tops as animal feed	91
Cassava-Legumes intercropping: A potential food-feed system for dairy farmers	97
Effects of planting method and fertilization on cassava hay yield and chemical composition.....	109
Effects of cassava leaf meal on the rumen environment of local yellow cattle fed urea-treated paddy straw	113
