

Cleaner Cars

The History and Technology
of Emission Control
Since the 1960s

J. Robert Mondt

Contents

| | |
|---|-------------|
| Foreword | ix |
| Preface | xi |
| Acknowledgments | xiii |
| Introduction | xv |
| | |
| Chapter 1 California Crusade to Control Emissions | 1 |
| | |
| Chapter 2 The Air We Breathe | 7 |
| What is Smog? | 8 |
| Hydrocarbons, Carbon Monoxide, and Oxides of Nitrogen .. | 10 |
| 1989 Study to Understand Ozone Chemistry | 13 |
| National Ambient Air Quality Standards (NAAQS) 1970 | 16 |
| Clean Air Act Classification for Urban Areas | 17 |
| | |
| Chapter 3 Automotive Emissions Identified | 21 |
| Hydrocarbons | 25 |
| Carbon Monoxide | 26 |
| Oxides of Nitrogen | 27 |
| Particulates | 27 |
| A Word on Diesel Engines | 28 |
| | |
| Chapter 4 The Role of Industry and the Role of Government..... | 29 |
| Clean Air Act Legislation | 31 |
| U.S. Driving Test Procedures | 32 |
| European Emissions Test Procedures | 38 |
| Japanese Emissions Test Procedures | 42 |
| The Role of Industry | 43 |
| Inter-Industry Emission Control (IIEC) Program | 45 |
| A Final Word on the Roles of Industry and Government | 48 |
| | |
| Chapter 5 U.S. Emission Controls Prior to Catalytic Converters | 51 |
| Emission Controls in the 1960s | 53 |
| 1971 Emission Controls | 58 |
| Inter-Industry Emission Control One (IIEC1) | 75 |

Cleaner Cars

| | | |
|------------------|---|-----------|
| Chapter 6 | U.S. Emission Controls and the Catalytic Converter | 79 |
| | Chronology of the Development of Catalytic | |
| | Converters for Automobiles | 81 |
| | 1966 California Emissions Requirements | 86 |
| | Inter-Industry Emission Control Two (IIEC2) | 91 |
| | Catalysts and Lead in Gasoline | 93 |
| | Dual Converter Systems | 95 |
| | Catalyst Elements | 96 |
| | Alternative Catalyst Elements | 96 |
| | The Contributions by Catalyst Companies | 98 |
| | Catalyst Aging | 99 |
| | Development of Catalytic Converters | |
| | by the Auto Industry | 100 |
| | The Ceramic Monolith Catalytic Converter | 106 |
| | Catalyst Processes | 107 |
| | 1975 Catalytic Converter Emission Control System | 115 |
| | Catalysts for Diesel Engines | 119 |
| | Temperature Effects | 121 |
| | Limitations on Engine Operation | 125 |
| | Three-Way Catalytic Converter Era | 126 |
| | Three-Way Catalyst Transient Testing | 128 |
| | Closed Loop Emission Control | 129 |
| | Audit and Customer Inspections | 137 |
| | Summary | 139 |
| Chapter 7 | Revised Clean Air Act of 1990 and Exhaust | |
| | Aftertreatment Systems | 143 |
| | Impact of the 1990 Revised Clean Air Act on | |
| | Exhaust Engineering | 149 |
| | Exhaust System Thermal Management | 149 |
| | Multidimensional Modeling | 155 |
| | Three-Way Converter Modeling | 157 |
| | Thermal Durability | 159 |
| | Alternative Subsystems | 160 |
| | Passive Subsystems | 161 |
| | Active Subsystems | 167 |
| | Exhaust System Pressures and Pressure Drop | 176 |
| | Flow Processes | 177 |
| | Sources of Pressure Drop | 180 |
| | Loss Coefficients | 184 |
| | Vehicle Applications | 187 |

Contents

| | | |
|-------------------------------|---|-----|
| Chapter 8 | Alternative Fuels and Global Emissions | 193 |
| | Alternative Fuels | 193 |
| | Auto/Oil Air Quality Improvement Research Program | 199 |
| | Fuel Compositional Changes | 200 |
| | Ozone Modeling | 201 |
| | Global Warming (Greenhouse Effect) | 202 |
| | Lean Burn NO _X Catalyst Consortium | 206 |
| | Acid Rain | 209 |
| Chapter 9 | Future Perspective | 213 |
| | Fuel Quality | 213 |
| | Alternative Fuels | 213 |
| | Emission Standards | 215 |
| | Emissions Control Progress | 217 |
| | Air Quality Data | 218 |
| | Future Projections | 223 |
| Appendices | | |
| A | Timeline for Control of Automotive Emissions in the United States | 227 |
| B | People and Places | 231 |
| | General Motors | 231 |
| | Ford Motor Company | 233 |
| | Inter-Industry Emission Control (IIEC) Program | 233 |
| | Catalytic Converter Development | 233 |
| | Chrysler Corporation | 234 |
| C | Acronyms | 237 |
| Index | | 241 |
| About the Author | | 261 |
