

PATHOLOGY OF LABORATORY RODENTS & RABBITS

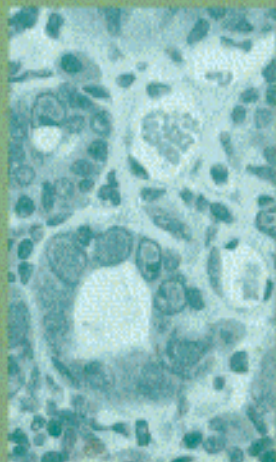

Second Edition

Dean H. Percy

Stephen W. Barthold

CONTENTS

Preface	vii	Parasitic Diseases	184
1. Mouse	3	Nutritional and Metabolic Disorders	189
Nomenclature	3	Environmental, Genetic, and Other Disorders	190
Anatomic Features	3	Diseases Associated with Aging	191
Genetically Engineered Laboratory Mice	10	Neoplasms	195
Viral Infections	15	4. Gerbil	197
Bacterial Infections	46	Anatomic Features	197
Mycotic Infections	71	Viral Infections	198
Parasitic Diseases	74	Bacterial Infections	198
Nutritional and Metabolic Disorders	83	Parasitic Diseases	203
Behavioral Disorders	86	Genetic Disorders	204
Environment-Related Disease	87	Toxic and Metabolic Disorders	205
Aging, Degenerative, and Miscellaneous Disorders	88	Diseases Associated with Aging	206
Genitourinary Disorders	92	Neoplasms	207
Neoplasms	95	5. Guinea Pig	209
2. Rat	107	Anatomic Features	209
Anatomic Features	107	Viral Infections	213
Viral Infections	108	Bacterial Infections	217
Bacterial Infections	121	Mycotic Infections	227
Pulmonary Lesions of Unknown Etiology	141	Parasitic Diseases	228
Mycotic Infections	142	Nutritional, Metabolic, and Other Disorders	232
Parasitic Diseases	145	Diseases Associated with Aging	240
Aging and Degenerative Disorders	149	Neoplasms	244
Neoplasms	158	6. Rabbit	248
3. Hamster	168	Anatomic Features	248
Anatomic Features	168	Viral Infections	250
Viral Infections	169	Bacterial Infections	260
Bacterial and Mycotic Infections	175	Mycotic Infections	284
		Parasitic Diseases	285

Miscellaneous Disorders	297	Neoplasms	303
Nutritional, Toxic, and Metabolic Diseases	300	Index	307
Hereditary Disorders	302
