<b>Preface</b> .....	<b>ix</b>
<b>Chapter 1—Introduction</b> .....	<b>1</b>
Importance of Structure in Foods .....	2
Crystalline Microstructure .....	3
Controlling Crystallization .....	7
Summary .....	9
<b>Chapter 2—Structure of the Solid State</b> .....	<b>10</b>
Crystal Systems and Coordinates .....	11
Molecular Complexity in Lattice Organization .....	15
Crystal Shape .....	22
Lattice Imperfections .....	26
Composite Crystals .....	26
Liquid Crystals .....	27
Summary .....	30
<b>Chapter 3—Measurement of Crystalline Structure in Foods</b> .....	<b>34</b>
Importance of Crystal Size Distributions .....	35
Crystal Characterization Techniques .....	37
Crystal Size .....	74
Size Distributions .....	78
Distribution Statistics .....	80
Empirical Distributions .....	84
Summary .....	87
<b>Chapter 4—Solution Characteristics and Glass Transition</b> .....	<b>91</b>
Properties of Fluids .....	92
Phase Diagrams .....	98
Calculating Crystalline Yield .....	111
Supersaturated Systems .....	113
Glass Transitions .....	130
Summary .....	141

<b>Chapter 5—Nucleation</b> .....	<b>145</b>
Nucleation Theories .....	145
Nucleation Kinetics .....	152
Nucleation from the Amorphous State .....	160
Nucleation of Lipid Polymorphs .....	163
Secondary Nucleation .....	170
Parameters Influencing Nucleation .....	175
Summary .....	188
<b>Chapter 6—Crystal Growth</b> .....	<b>192</b>
Crystal Growth Mechanisms .....	195
Related Growth Phenomena .....	205
Factors Affecting Crystal Growth .....	213
Summary .....	229
<b>Chapter 7—Controlling Crystallization</b> .....	<b>233</b>
Control To Produce Desired Crystalline Structure .....	235
Control To Prevent Crystallization .....	241
Control of Change in Crystalline Structure .....	243
Factors Affecting Control of Crystallization .....	243
Controlling Crystallization: Several Examples .....	249
Summary .....	280
<b>Chapter 8—Recrystallization Processes</b> .....	<b>284</b>
Mechanisms of Recrystallization .....	286
Factors that Influence Recrystallization .....	300
Summary .....	306
<b>Sources</b> .....	<b>309</b>
<b>Index</b> .....	<b>317</b>
