

W. Barthlott M. Winiger (Eds.)

Biodiversity

A Challenge for
Development Research
and Policy

Springer

Contents

Part 1. Introduction

Convenor: Wilhelm Barthlott

Biodiversity - Is there a Second Chance?

| | |
|---|----|
| C. M. Naumann | 3 |
| 1 News about an old topic | 4 |
| 2 The potential of biodiversity | 5 |
| 3 A basic view of environmental concepts | 6 |
| 4 The extinction of species past and present | 7 |
| 5 Man and nature – Or nature without man ? | 8 |
| 6 The valuation of the natural heritage in modern societies | 9 |
| 7 To conclude: A parable | 10 |

Knotted Ropes, Rings, Lattices and Lace: Retrofitting Biodiversity into the Cultural Landscape

| | |
|---|----|
| N. Harrison and H. Mayer Harrison | 13 |
| 1 The lattice | 13 |
| 2 Mosaic | 16 |
| 3 The lace | 19 |
| 4 The knotted rope | 22 |
| 5 The ring | 24 |
| 6 Notes | 31 |

Teaching Sustainable Management of Renewable Resources

| | |
|--|----|
| D. L. Meadows and Thomas S. Fiddaman | 33 |
| 1 Introduction | 33 |
| 2 Gaming | 33 |
| 3 Approach | 34 |
| 4 Fish Banks, Ltd. | 34 |
| 5 Conclusion | 40 |
| 6 Availability | 40 |
| References | 40 |

Part 2. Biodiversity: Basis facts and trends

Convenors: Wilhelm Barthlott, Clas. M. Naumann

Marine Biodiversity - Thoughts on the Subjects and their Investigators

| | | |
|---------------|--|----|
| G. Haszprunar | | 43 |
| 1 | Introduction | 43 |
| 2 | Ecosystem characteristics of marine systems | 44 |
| 3 | Characteristics of faunas | 46 |
| 4 | Characteristics of marine biodiversity research | 48 |
| 5 | Consequences - what should be done and what should we do | 50 |
| 6 | Conclusions | 52 |
| References | | 52 |

Aspects of Botanical Biodiversity in Southern African Arid Regions - An Outline of Concepts and Results

| | | |
|------------|---|----|
| N. Jürgens | | 53 |
| 1 | Introduction | 53 |
| 2 | Biodiversity research in the Namib Desert region | 54 |
| 3 | A continental-scale view of Africa's arid regions | 56 |
| 4 | Introduction to the greater Namib Desert region | 59 |
| 5 | Spatial analysis | 59 |
| 6 | Temporal analysis | 64 |
| References | | 69 |

The Surumoni Project: The Botanical Approach Toward Gaining an Interdisciplinary Understanding of the Functions of the Rain Forest Canopy

| | | |
|-------------|--------------------|----|
| W. Morawetz | | 71 |
| 1 | Background | 73 |
| 2 | Our main questions | 73 |
| References | | 80 |

Part 3. Biodiversity in change

Convenors: Matthias Winiger, Marina Keller

Zonal Features of Phytodiversity under Natural Conditions and under Human Impact - a Comparative Survey

| | | |
|------------|---|-----|
| M. Richter | | 83 |
| 1 | Some principals regarding biodiversity | 84 |
| 2 | Phytodiversity patterns in different ecozones | 86 |
| 3 | Conclusions | 105 |
| References | | 108 |

Fluctuations, Chaos and Succession in a Living Environment

| | |
|-------------------------|-----|
| F. Klötzli | 111 |
| 1 Introduction | 113 |
| 2 Thesis 1 | 114 |
| 3 Thesis 2 | 116 |
| 4 Thesis 3 | 119 |
| 5 Thesis 4 | 120 |
| 6 Thesis 5 | 120 |
| 7 Thesis 6 | 121 |
| 8 Thesis 7 | 123 |
| 9 Thesis 8 | 124 |
| 10 Thesis 9 | 124 |
| 11 Thesis 10 | 124 |
| References | 126 |

Landscape Diversity - a Holistic Approach

| | |
|--|-----|
| H. Leser and P. Nagel | 129 |
| 1 Introduction | 130 |
| 2 Holism: reviving the roots of ecosystem science | 130 |
| 3 Landscape ecosystems: their role in ecosystem science | 131 |
| 4 Diversity as an inherent component of ecosystems | 132 |
| 5 The holistic approach compared to the sectoral approach | 137 |
| 6 Aims and objectives of conservation strategies | 138 |
| 7 Landscape diversity, development and environmental ecology | 139 |
| 8 Summary and conclusions | 141 |
| References | 142 |

Loss of Biodiversity in European Agriculture during the 20th Century

| | |
|------------------------------------|-----|
| W. Kühbauch | 145 |
| 1 The basis for biodiversity | 146 |
| 2 Change in biodiversity | 149 |
| 3 Prospects | 153 |
| References | 155 |

Traditional Use of Tropical Biodiversity in Melanesia

| | |
|--|-----|
| W. Schiefenhövel | 157 |
| 1 Introduction | 158 |
| 2 Two Melanesian cultures | 159 |
| 3 Living close to nature | 159 |
| 4 Utilizing nature in the highlands | 161 |
| 5 Utilizing nature on the islands | 167 |
| 6 Ethnoscience knowledge - The enigma and danger | 168 |
| References | 171 |

Part 4. Consequences for development and environmental policy

Convenor: Udo Vollmer

Science and Technology - Sustainable Economics (condensed version)

| | |
|--|-----|
| J. A. Lutzenberger..... | 175 |
| 1 Introduction..... | 175 |
| 2 Traditional and modern agriculture - a comparison..... | 175 |
| 3 Alternatives: the way out..... | 178 |

Biodiversity - Resource for New Products, Development and Self-Reliance

| | |
|--|-----|
| W. Nader and N. Mateo..... | 181 |
| 1 Introduction..... | 182 |
| 2 Biodiversity - resource for new products and socio-economic development..... | 184 |
| 3 Biodiversity - a source of self-reliance..... | 192 |
| 4 Biodiversity and legal framework..... | 194 |
| References..... | 194 |

Access to Genetic Resources and Benefit Sharing

| | |
|--|-----|
| M. Auer..... | 199 |
| 1 Facts and figures..... | 201 |
| 2 Introduction..... | 201 |
| 3 The Convention on Biological Diversity and the access issue..... | 204 |
| 4 Bioprospecting - risks and chances..... | 205 |
| 5 Research and policy-making requirements - their implementation in Germany..... | 206 |
| 6 Outlook for the future..... | 207 |

Part 5. Bolivia - A megadiversity country

Convenors: Alexandra Sánchez de Lozada, Michael von Websky, Horst Korn

1 The Biodiversity of Bolivia

Bolivia is a Megadiversity Country and a Developing Country

| | |
|---|-----|
| P. L. Ibisch..... | 213 |
| 1 Introduction: One of the world's 'richest poorest' countries..... | 215 |
| 2 Bolivia is a megadiversity country..... | 215 |
| 3 Bolivia is an underdeveloped and a developing country..... | 222 |

| | | |
|---|---|-----|
| 4 | Underdevelopment and development - both present a threat to biodiversity | 225 |
| 5 | Development for biodiversity and biodiversity for development | 228 |
| 6 | The challenges: biodiversity conservation, development research and development cooperation in and with Bolivia | 234 |
| | References | 235 |

Floristic Inventory of Bolivia - an Indispensable Contribution to Sustainable Development?

| | | |
|------------------|---|-----|
| S. G. Beck | 243 | |
| 1 | Introduction | 244 |
| 2 | Brief history of botanical exploration | 244 |
| 3 | Where are the collections deposited? | 246 |
| 4 | The floristic inventory of Bolivia: where do we stand? | 247 |
| 5 | Diversity of Bolivian flora and the status of our knowledge | 248 |
| 6 | Commercial use of botanical inventories | 250 |
| 7 | Plant genetic resources | 261 |
| 8 | Problems conducting in getting an inventory | 262 |
| 9 | Conclusion - towards a flora of Bolivia | 263 |
| References | 266 | |

Richness and Utilization of Palms in Bolivia - some Essential Criteria for their Management

| | | |
|-------------------|--|-----|
| M. Moraes R. | 269 | |
| 1 | Introduction | 269 |
| 2 | Traditional use of palms | 270 |
| 3 | Management of palms | 273 |
| 4 | Essential criteria for palm management | 275 |
| References | 278 | |

Diversity of Mammals in Bolivia

| | | |
|-------------------|------------------------------------|-----|
| R. Hutterer | 279 | |
| 1 | Introduction | 279 |
| 2 | Recording Bolivian mammals | 280 |
| 3 | Mammals and their habitats | 282 |
| 4 | Examples of current research | 283 |
| 5 | Conservation | 285 |
| 6 | Conclusions | 285 |
| References | 286 | |

Geocology and Biodiversity - Problems and Perspectives for the Management of Natural Resources of Bolivia's Forest and Savanna Ecosystems

| | | |
|-------------------------------------|--------------------|-----|
| W. Hanagarth and A. Szwagrzak | 289 | |
| 1 | Introduction | 290 |

| | | |
|---|---|-----|
| 2 | A brief review of the geography and geocology of the Bolivian lowlands and the eastern Andean slope | 290 |
| 3 | Outlooks for natural resource management | 298 |
| 4 | Final comments | 310 |
| | References | 310 |

Priorities for Conservation in Bolivia, Illustrated by a Continent-Wide Analysis of Bird Distributions

| | | |
|--------------------------------|---|-----|
| J. Fjeldså and C. Rahbek | | 313 |
| 1 | Preface | 314 |
| 2 | Materials and methods | 315 |
| 3 | Biogeographic patterns and conservation needs | 318 |
| 4 | Discussion | 323 |
| | References | 325 |

Amphibian Species Diversity in Bolivia

| | | |
|---|--|-----|
| J. Köhler, S. Lötters, and S. Reichle | | 329 |
| 1 | Introduction | 329 |
| 2 | Bolivian amphibians - a short survey | 331 |
| 3 | Spatial patterns of species richness | 331 |
| 4 | Discussion | 333 |
| | References | 334 |

2 Sustainable Use of Biodiversity - Case Studies from the Andes

Land Use, Economy and the Conservation of Biodiversity of High-Andean Forests in Bolivia

| | | |
|------------------|---|-----|
| M. Kessler | | 339 |
| 1 | Introduction | 340 |
| 2 | Present-day land use | 341 |
| 3 | The effects of unsustainable land use | 343 |
| 4 | An economic perspective | 344 |
| 5 | What are the solutions? | 346 |
| | References | 349 |

Using Lake Titicaca's Biological Resources - Problems and Alternatives

| | | |
|-------------------|--|-----|
| W. Villwock | | 353 |
| 1 | Introduction | 353 |
| 2 | Case study: Lake Titicaca and its fauna | 357 |
| 3 | Eco-social consequences | 358 |
| 4 | Ecological consequences | 359 |
| 5 | Loss of evolutionary potency | 361 |
| 6 | Sustainable use of natural resources: Some suggestions | 362 |
| | References | 364 |

3 Facing the Challenges of Biodiversity Conservation in Bolivia

Conservation of Biodiversity: a National Task

| | |
|---|-----|
| A. Sánchez de Lozada | 369 |
| 1 Introduction | 370 |
| 2 The biodiversity of Bolivia | 370 |
| 3 Institutional reforms and the challenge of biodiversity conservation | 371 |
| 4 The National Directorate for the Conservation of Biodiversity | 372 |
| 5 Biodiversity conservation policy making | 372 |
| 6 Management of protected areas | 373 |
| 7 Citizen participation in the conservation process | 375 |
| 8 Genetic resources conservation and management | 376 |
| 9 Wildlife management and conservation | 377 |
| 10 Primary achievements | 377 |
| 11 Conclusions | 378 |

Friends of Nature Foundation (FAN Bolivia) - The Involvement of NGOs in Conservation in Bolivia

| | |
|--|-----|
| H. Justiniano | 389 |
| 1 Historic background | 389 |
| 2 Conservation projects that started to change the reality of Bolivian national parks | 391 |
| 3 Initial efforts to enlarge and strengthen a very special park | 392 |
| 4 FAN grows to meet the challenges | 392 |
| 5 Creative ideas for vital priorities | 394 |

4 Call for research and action

Development and Biodiversity Conservation in Bolivia - A Call for Research and Action

| | |
|--|-----|
| P. L. Ibisch and S. G. Beck | 399 |
| 1 Introduction | 399 |
| 2 The Call for Research and Action and reactions to it | 400 |
| 3 General statements and comments | 409 |
