

THIRD EDITION

GEOLOGY  
*and the environment*

*Bernard W. Pipkin and D.D. Trent*

# chapter one

## Humans, Geology, and the Environment 1

### WHAT IS ENVIRONMENTAL GEOLOGY? 2

- The Environmental Geologist 3
- Tools of the Trade 4

### TOO MANY PEOPLE 6

- Exponential Growth and the Population Bomb 7
- U.S. Population Growth and Immigration 8

### *Case Study 1.1: A Billion Big Macs, Please* 9

- World Population Growth, Resources, and the Environment 10

### TOWARD A SUSTAINABLE SOCIETY 10

- Energy and Global Warming 11

### *Case Study 1.2: Earth Day 1995—Assessing 25 Years of “Thinking Green”* 12

### *Case Study 1.3: The Kyoto Protocol—A Lot of Hot Air?* 14

- The Land 15

- Water—A Limiting Resource 15

### *Gallery—Overpopulation Problems* 16

- Forests 18

- Other Resources 18

### SUMMARY 19

### KEY TERMS 19

### STUDY QUESTIONS 20

### FOR FURTHER INFORMATION 20

### WORLD WIDE WEB ACTIVITIES 20

### EARTH SYSTEMS TODAY CD CORRELATIONS 21

# chapter two

## Getting Around in Geology 22

### THE EARTH SYSTEM 24

### EARTH MATERIALS 26

- Elements, Atoms, and Atomic Structure 26

- Minerals 27

- Rock-Forming Silicates 29

- Mineral Identification 30

- Rocks 31

### *Case Study 2.1: Minerals, Cancer, and OSHA—Fact and Fiction* 32

- Rock Defects 38

### GEOLOGIC TIME 38

### *Case Study 2.2: A Girl’s Best Friend and Other Gems* 42

### AGE OF THE EARTH 45

### *Case Study 2.3: Minerals, Cats, and the Litter Belt* 46

### *Gallery—A Rock Collection* 51

### SUMMARY 53

### KEY TERMS 54

### STUDY QUESTIONS 54

### FOR FURTHER INFORMATION 54

### WORLD WIDE WEB ACTIVITIES 55

### EARTH SYSTEMS TODAY CD CORRELATIONS 55

## chapter three

### Plate Tectonics 56

- CONTINENTAL DRIFT** 58
  - Structure of the Earth 59
- SEA-FLOOR SPREADING** 61
- PLATE TECTONICS: THE GLOBAL THEORY** 61
  - Proof of Plate Tectonics 62
  - How Plate Tectonics Works 65
- Case Study 3.1: Exotic Terranes—A Continental Mosaic* 70
  - The Earth's Reservoirs and Plate Tectonics 73
- Gallery—Visions of How the Earth Works* 74
- SUMMARY** 76
- KEY TERMS** 76
- STUDY QUESTIONS** 77
- FOR FURTHER INFORMATION** 77
- WORLD WIDE WEB ACTIVITIES** 78
- EARTH SYSTEMS TODAY CD CORRELATIONS** 78

## chapter four

### Earthquakes and Human Activities 80

- THE NATURE OF EARTHQUAKES** 82
  - Locating the Epicenter 84
  - Earthquake Measurement 86
  - Fault Creep, the "Nonearthquake" 89
- SEISMIC DESIGN CONSIDERATIONS** 89
  - Ground Shaking 89
  - Landslides 91
  - Ground or Foundation Failure 93
- Case Study 4.1: Earthquakes, Landslides, and Disease* 94
  - Ground Rupture and Changes in Ground Level 96
  - Fires 96
  - Tsunamis 97
- SOME MAJOR EARTHQUAKES, 1989–1999** 101
  - Case Study 4.2: Distant Tsunamis—The Silent Threat* 102
    - Loma Prieta, 1989 104
    - Northridge, California, 1994 105
  - Case Study 4.3: Predictable "Future Shocks"* 106
    - Kobe, Japan, 1995 108
  - Case Study 4.4: Rx for Failed Freeways* 110
    - Izmit (Kocaeli), Turkey, 1999 113
    - Does Earthquake Country Include Idaho, Missouri, and New York? 116
    - The Pacific Northwest 119
- EARTHQUAKE PREDICTION** 120
  - Statistical Methods 120
  - Geophysical Methods 121
  - Geological Methods 121
- MITIGATION** 122
  - Survival Tips 123
- Case Study 4.5: Depressed Tigers, Restless Turtles, and Earthquakes!* 124
- Gallery—Seismic Photo Ops* 126
- SUMMARY** 128
- KEY TERMS** 128
- STUDY QUESTIONS** 129
- FOR FURTHER INFORMATION** 129
- WORLD WIDE WEB ACTIVITIES** 130
- EARTH SYSTEMS TODAY CD CORRELATIONS** 130

## chapter five

### Volcanoes 132

#### WHO SHOULD WORRY 134

*Case Study 5.1: New Zealand's Blast in the Past, a Skifield, and Fluidization 136*

#### THE NATURE OF THE PROBLEM 138

#### TYPES OF ERUPTIONS AND VOLCANIC CONES 141

Effusive Eruptions 141

Explosive Eruptions 144

#### BENEFITS OF VOLCANIC ACTION 147

Geothermal Energy 148

#### VOLCANIC HAZARDS 149

Lava Flows 149

Ash Falls 150

Pyroclastic Flows 151

#### *Case Study 5.2: Montserrat, Paradise Lost 152*

Lahars 154

Tsunamis 155

Weather and Climate 156

Gases 156

#### MITIGATION AND PREDICTION 157

Diversion 157

*Case Study 5.3: Carbon Dioxide, Earthquakes, and the Los Angeles Water Supply 158*

*Case Study 5.4: Volcanic CO<sub>2</sub> and Fountaining Lakes 160*

Volcano Hazard Zones and Risk 162

Prediction 163

*Gallery—Volcanic Wonders 164*

What to Do when an Eruption Occurs 166

#### SUMMARY 167

#### KEY TERMS 168

#### STUDY QUESTIONS 168

#### FOR FURTHER INFORMATION 168

#### WORLD WIDE WEB ACTIVITIES 169

#### EARTH SYSTEMS TODAY CD CORRELATIONS 169

## chapter six

### Soils, Weathering, and Erosion 170

#### WEATHERING 172

Physical Weathering 172

Chemical Weathering 173

The Rate of Weathering 175

Geologic Features of Weathering 175

#### SOILS 77

Soil Profile 77

Soil Color and Texture 180

Soil Classification 181

*Case Study 6.1: Salinization and Waterlogging 182*

#### SOIL PROBLEMS 183

Soil Erosion 183

The Impact of Cropland Loss on Humans 186

Expansive Soils 188

Permafrost 189

Settlement 191

Other Soil Problems 192

*Case Study 6.2: Soils, Health, and Locoweed 194*

*Case Study 6.3: Rx for Contaminated Soils 196*

*Gallery—A Few Inches between Humanity and Starvation 198*

#### SUMMARY 200

#### KEY TERMS 201

#### STUDY QUESTIONS 201

#### FOR FURTHER INFORMATION 201

#### WORLD WIDE WEB ACTIVITIES 202

#### EARTH SYSTEMS TODAY CD CORRELATIONS 202

## chapter seven

### Mass Wasting and Subsidence 203

#### FLOWS 204

Types of Flows 204

Causes of Debris Flows and Debris Avalanches 205

*Case Study 7.1: Dynamic Real Estate in Oregon* 206

#### LANDSLIDES THAT MOVE AS A UNIT 209

Types 209

*Case Study 7.2: Colorado's Slumgullion Landslide—A Moving Story 300 Years Old* 214

Falls 216

The Mechanics of Slides 216

Lateral Spreading 218

#### FACTORS THAT LEAD TO LANDSLIDES 219

#### REDUCING LOSSES FROM MASS WASTING 220

Landslide Hazard Zonation 220

Building Codes and Regulations 221

#### CONTROL AND STABILIZATION 222

Water Drainage and Control 222

Excavation and Redistribution 222

Retaining Devices 223

Diversion Techniques 224

#### SNOW AVALANCHES 224

#### SUBSIDENCE 227

Human-Induced Subsidence 227

Natural Subsidence 227

*Case Study 7.3: A Rescue Plan for the Merchants of Venice* 228

#### A CLASSIFICATION OF SUBSIDENCE 230

Deep Subsidence 230

Shallow Subsidence 233

#### MITIGATION 234

*Gallery—Slip, Slide, and Fall* 235

#### SUMMARY 237

#### KEY TERMS 238

#### STUDY QUESTIONS 238

#### FOR FURTHER INFORMATION 239

#### WORLD WIDE WEB ACTIVITIES 239

#### EARTH SYSTEMS TODAY CD CORRELATIONS 240

## chapter eight

### Fresh-Water Resources 241

#### WATER AS A RESOURCE 242

#### FRESH WATER UNDERGROUND 244

#### WATER SUPPLY 245

#### LOCATION AND DISTRIBUTION 245

Static Water Table 246

*Case Study 8.1: Ground-Water Law* 248

Pressurized Underground Water 249

#### GROUND-WATER STORAGE AND MANAGEMENT 251

*Case Study 8.2: The Edwards Aquifer, A Texas Bonanza* 252

Ground-Water Mining 254

Ground Water–Salt Water Interaction 255

Ground Water–Surface Water Interaction and Usage Trends 256

*Case Study 8.3: Long Island, New York—Saltwater or Fresh Water for the Future?* 257

Geologic Work by Underground Water 260

#### WATER QUALITY 261

Dissolved Substances 261

Ground-Water Pollutants 263

*Case Study 8.4: DNAPL and LNAPL* 266

#### CONSERVATION AND ALTERNATIVE SOURCES 267

*Gallery—Wonders of Karst—That Sinking Feeling* 268

#### SUMMARY 270

#### KEY TERMS 271

#### STUDY QUESTIONS 271

#### FOR FURTHER INFORMATION 272

#### WORLD WIDE WEB ACTIVITIES 272

#### EARTH SYSTEMS TODAY CD CORRELATIONS 273

## chapter nine

---

### Surface Hydrologic Hazards 274

**RIVER SYSTEMS 276**

**STREAM FEATURES 277**

*Case Study 9.1: The Nile River—Three Cubits between Security and Disaster 278*

*Case Study 9.2: Water, Water, Everywhere 283*

**WHEN THERE IS TOO MUCH WATER 286**

Flood Measurement 288

Flood Frequency 289

The Flood of 1993 292

**MITIGATION 293**

Options 293

*Case Study 9.3: The Colorado River—In Need of a Flood 298*

*Gallery: Going . . . Going . . . Gone! 302*

Flood Planning 306

**SUMMARY 307**

**KEY TERMS 308**

**STUDY QUESTIONS 308**

**FOR FURTHER INFORMATION 308**

**WORLD WIDE WEB ACTIVITIES 309**

**EARTH SYSTEMS TODAY CD CORRELATIONS 309**

## chapter ten

---

### The Coastal Ocean Environment 310

**WIND WAVES 312**

Waves in Deep Water and at the Shore 312

Wave Refraction 315

**SHORELINES 316**

Beaches 317

Sea Cliffs 323

Mitigation of Beach Erosion 325

Estuaries 326

*Case Study 10.1: The Care and Feeding of Undernourished Beaches 330*

**HURRICANES AND COASTAL FLOODING 333**

*Case Study 10.2: Sea Sickness: Bleached Reefs and Oceanic Dead Zones 334*

El Niño and the Coastal Zone 339

Hurricane Predictors 341

*Gallery—Shoreline Wonders 343*

**SUMMARY 344**

**KEY TERMS 345**

**STUDY QUESTIONS 345**

**FOR FURTHER INFORMATION 345**

**WORLD WIDE WEB ACTIVITIES 346**

**EARTH SYSTEMS TODAY CD CORRELATIONS 346**

## chapter eleven

### Glaciation and Long-Term Climate Change 347

#### GLACIATION 348

- Origin and Distribution of Glaciers 349
- Glacier Budget 349
- Glacial Features 350

#### THE EFFECTS OF GLACIATION 351

##### *Case Study 11.1: When Glaciers Surge It's a Moving Experience* 352

- Distribution of Soils 352
- Ground-Water Resources 353
- Sea-Level Changes 355
- Isostatic Rebound 355

##### *Case Study 11.2: Continental Glaciers and the New York Transit Authority* 356

- Human Transportation Routes 358
- Pleistocene Lakes 359
- Glaciation and Climate Change 360

#### CLIMATE 361

- Factors that Control Climate 361
- Causes of Climate Change 365

##### *Case Study 11.3: The Carbon Cycle* 368

- Glacier Evidence of Climate Change 372

##### *Case Study 11.4: Is There a New Beat to the Rhythm of the Ice Ages?* 373

#### TODAY'S GLOBAL WARMING 374

- Evidence of Global Warming 374

##### *Case Study 11.5: Global Warming Is for the Birds* 377

- Causes of Today's Global Warming 378
- Living with Uncertainty 380

#### IMPLICATIONS FOR THE FUTURE 381

- What Individuals Can Do 383
- What Industry and Governments Can Do 383

##### *Gallery—Wonders of Glaciation* 384

#### SUMMARY 387

#### KEY TERMS 388

#### STUDY QUESTIONS 388

#### FOR FURTHER INFORMATION 388

#### WORLD WIDE WEB ACTIVITIES 389

#### EARTH SYSTEMS TODAY CD CORRELATIONS 389

## chapter twelve

### Arid Lands and Desertification 390

#### DESERTS 392

- Kinds of Deserts 392

#### DESERTIFICATION 393

##### *Case Study 12.1: The Sahel and Climate Change* 396

#### WIND AS A GEOLOGIC AGENT IN DESERTS 398

#### SUMMARY 401

#### KEY TERMS 401

#### STUDY QUESTIONS 401

#### FOR FURTHER INFORMATION 402

#### WORLD WIDE WEB ACTIVITIES 402

#### EARTH SYSTEMS TODAY CD CORRELATIONS 402

# chapter thirteen

## Mineral Resources and Society 403

### MINERAL ABUNDANCES AND DISTRIBUTION 404

- Economic Mineral Concentration 404
- Factors that Change Reserves 406
- Distribution of Mineral Resources 407

### ORIGINS OF MINERAL DEPOSITS 408

- Igneous Processes 409
- Sedimentary Processes 411
- Weathering Processes 413
- Metamorphic Processes 413

### MINERAL RESERVES 413

- Metallic Mineral Reserves 413

#### *Case Study 13.1: Mining the California Mother Lode 414*

- Nonmetallic Mineral Reserves 417

### MINERAL RESOURCES FOR THE FUTURE 419

### MINING AND ITS ENVIRONMENTAL IMPACTS 422

#### *Case Study 13.2: Reclamation of the Copper Basin 424*

- Impacts of Coal Mining 427

#### *Case Study 13.3: Steps in Surface Mine Reclamation 428*

- Impacts of Underground Mining 429

#### *Case Study 13.4: Acid Mine Drainage and Earth Systems 430*

- Impacts of Surface Mining 431

#### *Case Study 13.5: Cleaning Up of Historic Mining Sites in Colorado 432*

- Impacts of Mineral Processing 435

### MINE LAND RECLAMATION 438

- Surface- and Ground-Water Protection 438
- Mill and Smelter Waste Contamination 440
- Revegetation and Wildlife Restoration 441

### THE FUTURE OF MINING 441

- U.S. Mining Laws 442

#### *Gallery—The Legacy of Mines and Mining 444*

### SUMMARY 446

### KEY TERMS 447

### STUDY QUESTIONS 447

### FOR FURTHER INFORMATION 448

### WORLD WIDE WEB ACTIVITIES 448

### EARTH SYSTEMS TODAY CD CORRELATIONS 449

# chapter fourteen

## Energy Resources 450

### PETROLEUM 453

- Origin and Accumulation of Hydrocarbon Deposits 454
- Geologic Traps—Oil and Gas Stop Here 455
- Oil Production 457

#### *Case Study 14.1: Rock Oil and the Colonel* 458

- Quality and Price 460
- The Future 460

#### *Case Study 14.2: The Tragedy in Prince William Sound* 462

- Energy Gases and the Future 464

### COAL 464

- Coalification and Rank 465
- Reserves and Production 465

### NONCONVENTIONAL FOSSIL FUELS 466

- Tar Sands 466
- Oil Shales 467

### PROBLEMS OF FOSSIL FUEL COMBUSTION 468

- Air Pollution 469

#### *Case Study 14.3: Baking Soda, Vinegar, and Acid Rain* 470

- Mine Collapse 472

### ENERGY FOR THE FUTURE 473

- Direct Solar Energy 473

#### *Case Study 14.4: Make Smog while the Sun Shines* 474

- Indirect Solar Energy 476
- Geothermal Energy 479

### NUCLEAR ENERGY 483

#### *Case Study 14.5: Three Mile Island and Chernobyl—To Err Is Human; to Forgive Is Difficult* 484

### NUCLEAR WASTE DISPOSAL 486

- Types of Nuclear Waste 487
- Isolation of Nuclear Waste 488

#### *Case Study 14.6: Radon and Indoor Air Pollution* 490

- Health and Safety Standards for Nuclear Waste 491
- Is There a Future for Nuclear Energy? 492

### ENERGY FROM THE SEA 493

- Ocean Thermal Energy Conversion 493
- Wave Energy 493
- Tidal Currents 494

#### *Gallery—Energy Is Where You Find It* 496

### SUMMARY 498

### KEY TERMS 499

### STUDY QUESTIONS 499

### FOR FURTHER INFORMATION 500

### WORLD WIDE WEB ACTIVITIES 501

### EARTH SYSTEMS TODAY CD CORRELATIONS 501

# chapter fifteen

---

## Waste Management and Geology 503

<b>MUNICIPAL WASTE DISPOSAL</b>	<b>505</b>
Municipal Waste Disposal Methods	505
<i>Case Study 15.1: The Sociology of Waste Disposal</i>	<i>506</i>
<i>Case Study 15.2: The Highest Point between Maine and Florida</i>	<i>508</i>
Problems of Municipal Waste Isolation	509
<b>THE COMPLETED LANDFILL</b>	<b>513</b>
Recycling	513
<i>Case Study 15.3: Don't Mess with Texas</i>	<i>515</i>
Multiple Land Use Strategies	517
<b>HAZARDOUS WASTE DISPOSAL</b>	<b>519</b>
Hazardous-Waste Disposal Methods	519
<i>Case Study 15.4: Deep-Well Injection and Earthquakes</i>	<i>521</i>
Superfund	522
<i>Case Study 15.5: Love Canal—No Love Lost Here</i>	<i>523</i>
<b>WASTEWATER TREATMENT</b>	<b>525</b>
Treatment Levels	525
Private Sewage Disposal	525
<i>Case Study 15.6: The Cinder Cone Disposal Site—Getting Your Sewage Together</i>	<i>527</i>
<b>SUMMARY</b>	<b>529</b>
<b>KEY TERMS</b>	<b>529</b>
<b>STUDY QUESTIONS</b>	<b>529</b>
<i>Gallery—Waste Disposal Then and Now</i>	<i>530</i>
<b>FOR FURTHER INFORMATION</b>	<b>532</b>
<b>WORLD WIDE WEB ACTIVITIES</b>	<b>532</b>
<b>EARTH SYSTEMS TODAY CD CORRELATIONS</b>	<b>533</b>

<b>APPENDIX 1: PERIODIC TABLE OF THE ELEMENTS</b>	<b>534</b>
<b>APPENDIX 2: SOME IMPORTANT MINERALS</b>	<b>536</b>
<b>APPENDIX 3: PLANES IN SPACE: DIP AND STRIKE</b>	<b>537</b>
<b>APPENDIX 4: MODIFIED MERCALLI SCALE</b>	<b>538</b>
<b>APPENDIX 5: FLUID FLOW IN POROUS ROCKS</b>	<b>539</b>
<b>GLOSSARY</b>	<b>540</b>
<b>INDEX</b>	<b>551</b>
