

The Weaner Pig

NUTRITION AND
MANAGEMENT

Edited by M.A. Varley and J. Wiseman

CABI Publishing

Contents

Contributors	vii
Preface	x
Acknowledgements	xi
1. Growth of the Young Weaned Pig <i>C.T. Whittemore and D.M. Green</i>	1
2. Energy Requirements of the Young Pig <i>J. Le Dividich and B. Sève</i>	17
3. Protein and Amino Acid Requirements of Weaner Pigs <i>M. Cole and M. Sprent</i>	45
4. Starch Digestion in Piglets <i>J. Wiseman, J. Pickard and L. Zarkadas</i>	65
5. Non-starch Polysaccharides in the Diets of Young Weaned Piglets <i>J.R. Pluske, J.C. Kim, D.E. McDonald, D.W. Pethick and D.J. Hampson</i>	81
6. Individual Feed Intake of Group-housed Weaned Pigs and Health Status <i>E.M.A.M. Bruininx, C.M.C. van der Peet-Schwering and J.W. Schrama</i>	113
7. The Weaner Pig – Enzymes and Biotechnology for the Future <i>G. Partridge</i>	123
8. Liquid Feeding for the Young Piglet <i>P.H. Brooks, C.A. Moran, J.D. Beal, V. Demeckova and A. Campbell</i>	153
9. Digestive Physiology and Development in Pigs <i>D. Kelly and T.P. King</i>	179

10. Enteric Immunity and Gut Health	207
<i>M. Bailey, M.A. Vega-Lopez, H.-J. Rothkötter, K. Haverson, P.W. Bland, B.G. Miller and C.R. Stokes</i>	
11. Enteric and Respiratory Diseases in the Young Weaned Piglet	223
<i>S. Done</i>	
12. Gut Health: Practical Considerations	249
<i>P. Baynes and M. Varley</i>	
13. Aerial Pollutants from Weaner Production	259
<i>C.M. Wathes</i>	
14. Behaviour of the Young Weaner Pig	273
<i>S. Held and M. Mendl</i>	
15. Practical Management and Housing of the Young Weaned Piglet	299
<i>M. Evans</i>	
16. Weaning Systems in Relation to Disease	309
<i>P. Wallgren and L. Melin</i>	
17. Weaning in Practice	317
<i>J.W.G.M. Swinkels, H.A.M. Spoolder and H.M. Vermeer</i>
