Visual C++ .NET

Don Gosselin

TABLE OF
Contents

PREFACE	xi
CHAPTER ONE	
Introduction to Programming and Visual C++	1
Computer Programming and Programming Languages	1
Machine and Assembly Languages	2
High-Level Programming Languages	3
Procedural Programming	4
Object-Oriented Programming	5
C/C++ Programming	10
The C Programming Language	11
The C++ Programming Language	12
Visual C++ .NET	12
Logic and Debugging	14
Creating a New Project in Visual C++	15
The Visual Studio IDE	18
The Start Page	20
The Solution Explorer Window	22
The Code and Text Editor Window	23
Project Properties	29
Building and Executing an Application	30
Managing Windows	38
Managing the Solution	41
Adding Resources to a Project	41
Adding Projects to a Solution	43
Saving Solutions, Projects, and Files	43
Closing Solutions, Projects, and Files	44
Opening Existing Solutions and Projects	45
Exiting Visual C++	47
Visual C++ Help	47
Chapter Summary	50
Review Questions	52
Programming Exercises	56
CHAPTER TWO	
C++ Programming Basics	57
Preview: The Hello World Program	57
Introduction	60
Console Applications	60
Preprocessor Directives	62
Standard Output Stream	63
Namespaces	66
Variables	68
Data Types	71
Hungarian Notation	73
Integers	74
Floating-Point Numbers	76
The Character Data Type and Strings	76
Boolean Values	83

Type Casting	83
Constants	85
Adding Comments to a Program	88
Functions	89
The main() Function	91
Defining and Calling Custom Functions	91
Function Prototypes	94
Return Values	96
Default Parameter Values	100
Scope	101
Command Blocks	101
Variable Scope	103
Introduction to Arrays	105
Chapter Summary	108
Review Questions	110
Programming Exercises	116
Programming Projects	118
CHAPTER THREE	
Operators and Control Structures	121
Preview: The Chemistry Quiz Program	121
Expressions and Operators	123
Arithmetic Operators	124
Assignment Operators	128
Comparison Operators	128
Logical Operators	130
String Functions	132
String Class Operators	134
Operator Precedence	135
Decision-Making Statements	137
if Statements	137
Standard Input Stream	141
if...else Statements	145
Nested if Statements	148
switch Statements	151
Repetition Statements	156
while Statements	156
do...while Statements	159
for Statements	159
Nested Loops	162
continue Statements	166
Chapter Summary	168
Review Questions	169
Programming Exercises	174
Programming Projects	177
CHAPTER FOUR	
Debugging	179
Preview: Visual C++ Debugging Tools	179
Understanding Debugging	181
Error Types	181
Interpreting Build Messages	183
Basic Debugging Techniques	187
Tracing Console Application Errors with Output Statements	187
Using Comments to Locate Bugs	194
Analyzing Your Logic	197

The Visual C++ Debugger	198
Build Configurations	199
Tracing Program Execution with Step Commands	200
Tracing Variables and Expressions with Debug Windows	204
Monitoring Variables	205
The Watch Window	208
QuickWatch	208
The Call Stack Window	212
C++ Language Bugs and Debugging Resources	213
Chapter Summary	214
Review Questions	215
Programming Exercises	219
Programming Projects	224
CHAPTER FIVE	
Introduction to Classes	225
Preview: The Retirement Planner Program	225
Object-Oriented Programming and Classes	228
Classes	228
Creating Classes with the <code>class</code> Keyword	235
Information Hiding	236
Access Specifiers	237
Interface and Implementation Files	239
Modifying a Class	240
Visual C++ Class Tools	241
Class View	242
Code Wizards	243
Preventing Multiple Inclusion	251
Member Functions	254
Inline Functions	260
Constructor Functions	263
<code>friend</code> Functions and Classes	265
Chapter Summary	269
Review Questions	270
Programming Exercises	274
Programming Projects	275
CHAPTER SIX	
Memory Management	279
Preview: The Florist Order program	279
Introduction to Memory Management	282
Pointers	287
Declaring and Initializing a Pointer	289
De-referencing a Pointer	291
References	294
Declaring and Initializing a Reference	294
References Compared to Pointers	296
Using Pointers and References with Functions	297
Call-by-Value	297
Call-by-Address	301
Call-by-Reference	305
Working with Pointers and References to Objects	307
The <code>this</code> Pointer	310
Advanced Array Techniques	312
Pointers and Arrays	316
Multidimensional Arrays	322

Character Arrays	330
Arrays of Objects	337
Arrays and Functions	339
Dynamic Memory Allocation	341
The <code>new</code> Keyword	341
The <code>delete</code> Keyword	346
Chapter Summary	348
Review Questions	349
Programming Exercises	354
Programming Projects	357
CHAPTER SEVEN	
Object Manipulation	359
Preview: The Building Estimator Program	359
Introduction	362
Advanced Constructors	362
Default Constructor	363
Parameterized Constructors	371
Initialization Lists	375
Copy Constructor	376
Destructors	385
Operator Overloading	390
Overloading Binary Operators	392
Overloading Unary Operators	395
Overloading the Assignment Operator	397
Static Class Members	399
Static Data Members	400
Static Member functions	404
Constant Objects	406
Chapter Summary	409
Review Questions	409
Programming Exercises	413
Programming Projects	416
CHAPTER EIGHT	
Inheritance	417
Preview: The Conversion Center Program	417
Basic Inheritance	419
Base Classes and Derived Classes	426
Access Specifiers and Inheritance	433
Overriding Base Class Member Functions	435
Constructors and Destructors in Derived Classes	439
Parameterized Base Class Constructors	442
Base Class Copy Constructors	443
Polymorphism	445
Virtual Functions	446
Virtual Destructors	450
Abstract Classes	453
Chapter Summary	455
Review Questions	456
Programming Exercises	460
Programming Projects	461
CHAPTER NINE	
Introduction to Windows Programming	465
Preview: Introduction to Windows Programming	465

Windows Programming with Visual C++	467
Windows Architecture	470
The Windows API	472
The WinMain() Function	474
Defining the Window Class	477
Creating New Windows	480
Displaying New Windows	488
Events and Messages	489
Message Loops	490
Window Procedures	492
Completing the Calculator Program	497
Setting the Calculation Variables	498
Adding the Calculation Code	502
Chapter Summary	505
Review Questions	506
Programming Exercises	510
Programming Projects	512
CHAPTER TEN	
Microsoft Foundation Classes	515
Preview: The MFC Calculator Program	515
Microsoft Foundation Classes	517
MFC Class Library	521
MFC Notation	525
Basic MFC Programs	526
The Application Class	527
The Window Class	530
Resources	534
Add Resource Wizard	535
Resource Editors	535
Resource View	536
Properties Window	537
The CString Class	539
Dialog-Based Applications	540
Modal and Modeless Dialog Boxes	545
Displaying Modal Dialog Boxes	547
Working with Controls	549
Dialog Data Exchange	554
Message Maps	556
Building an Application Framework with the MFC Application Wizard	565
Chapter Summary	567
Review Questions	568
Programming Exercises	572
Programming Projects	574
CHAPTER ELEVEN	
Working with Documents and Views	577
Preview: The Invoice Program	577
Introduction	580
Documents and Views	581
Document Interfaces	586
The CView Class	587
CView Child Classes	588
CView Member Functions	600

The CDocument Class	606
CDocument Data Members	607
CDocument Member Functions	608
Storing Data	613
Chapter Summary	616
Review Questions	617
Programming Exercises	621
Programming Projects	622
CHAPTER TWELVE	
Designing the Visual Interface	625
Preview: The Stock Charting Program	625
Introduction	628
The Graphics Device Interface	628
Device Contexts	630
Mapping Modes	630
Working with Color	633
Drawing in a Window	634
Understanding the OnPaint() Function	638
Overriding the OnDraw() Function	639
Updating the Display	641
Working with the CDC Class	643
Graphic Object Classes	663
Working with Pens	663
Working with Brushes	667
Menus and Commands	671
Toolbars and Buttons	675
Chapter Summary	679
Review Questions	680
Programming Exercises	683
Programming Projects	684
CHAPTER THIRTEEN	
Connecting to Databases	687
Preview: The Library Database Program	687
Understanding Databases	689
Database Management Systems	693
Structured Query Language	695
Connecting to Databases with MFC	697
Creating the Data Source Name	698
Creating an ODBC Database Application	700
The CRecordset Class	705
The CRecordView Class	709
Linking Dialog Controls to Database Fields	711
Manipulating Record Sets	716
Sorting	717
Filtering	719
Adding and Deleting Records	722
Adding Records	723
Deleting Records	726
Chapter Summary	729
Review Questions	730
Programming Exercises	734
Programming Projects	736
INDEX	739
