

DUXBURY APPLIED SERIES

# APPLIED REGRESSION ANALYSIS

A Second Course in Business and Economic Statistics

FOURTH EDITION

TERRY E. DIELMAN

CD ENCLOSED

# Contents

## CHAPTER 1

### An Introduction to Regression Analysis 1

## CHAPTER 2

### Review of Basic Statistical Concepts 5

- 2.1 Introduction 5
- 2.2 Descriptive Statistics 7
- 2.3 Discrete Random Variables and Probability Distributions 13
- 2.4 The Normal Distribution 17
- 2.5 Populations, Samples, and Sampling Distributions 24
- 2.6 Estimating a Population Mean 27
- 2.7 Hypothesis Tests About a Population Mean 32
- 2.8 Estimating the Difference Between Two Population Means 40
- 2.9 Hypothesis Tests About the Difference Between Two Population Means 44
- Using the Computer 54

## CHAPTER 3

### Simple Regression Analysis 63

- 3.1 Using Simple Regression to Describe a Linear Relationship 63
- 3.2 Examples of Regression as a Descriptive Technique 70
- 3.3 Inferences from a Simple Regression Analysis 74
- 3.4 Assessing the Fit of the Regression Line 93
- 3.5 Prediction or Forecasting with a Simple Linear Regression Equation 103
- 3.6 Fitting a Linear Trend to Time-Series Data 111
- 3.7 Some Cautions in Interpreting Regression Results 118
- Using the Computer 127

## CHAPTER 4

### Multiple Regression Analysis 133

- 4.1 Using Multiple Regression to Describe a Linear Relationship 133

- 4.2** Inferences from a Multiple Regression Analysis 139
- 4.3** Assessing the Fit of the Regression Line 144
- 4.4** Comparing Two Regression Models 150
- 4.5** Prediction with a Multiple Regression Equation 159
- 4.6** Multicollinearity: A Potential Problem in Multiple Regression 161
- 4.7** Lagged Variables as Explanatory Variables in Time-Series Regression 164  
Using the Computer 175

## **CHAPTER 5**

### **Fitting Curves to Data 179**

- 5.1** Introduction 179
- 5.2** Fitting Curvilinear Relationships 180  
Using the Computer 202

## **CHAPTER 6**

### **Assessing the Assumptions of the Regression Model 205**

- 6.1** Introduction 205
- 6.2** Assumptions of the Multiple Linear Regression Model 206
- 6.3** The Regression Residuals 206
- 6.4** Assessing the Assumption That the Relationship Is Linear 210
- 6.5** Assessing the Assumption That the Variance Around the Regression Line Is Constant 222
- 6.6** Assessing the Assumption That the Disturbances Are Normally Distributed 229
- 6.7** Influential Observations 239
- 6.8** Assessing the Assumption That the Disturbances Are Independent 254  
Using the Computer 267

## **CHAPTER 7**

### **Using Indicator and Interaction Variables 273**

- 7.1** Using and Interpreting Indicator Variables 273
- 7.2** Interaction Variables 286
- 7.3** Seasonal Effects in Time-Series Regression 291  
Using the Computer 305

## **CHAPTER 8**

### **Variable Selection 311**

- 8.1** Introduction 311
- 8.2** All Possible Regressions 312
- 8.3** Other Variable Selection Techniques 318
- 8.4** Which Variable Selection Procedure Is Best? 320  
Using the Computer 331

## **CHAPTER 9**

### **An Introduction to Analysis of Variance 335**

- 9.1** One-Way Analysis of Variance 335
- 9.2** Analysis of Variance Using a Randomized Block Design 347
- 9.3** Two-Way Analysis of Variance 355
- 9.4** Analysis of Covariance 364  
Using the Computer 367

## **CHAPTER 10**

### **Qualitative Dependent Variables: An Introduction to Discriminant Analysis and Logistic Regression 373**

- 10.1** Introduction 373
- 10.2** Discriminant Analysis 375

**10.3 Logistic Regression 383**

Using the Computer 391

**CHAPTER 11**

**Forecasting Methods for Time-Series  
Data 393**

**11.1 Introduction 393**

**11.2 Naïve Forecasts 394**

**11.3 Measuring Forecast Accuracy 395**

**11.4 Moving Averages 395**

**11.5 Exponential Smoothing 398**

**11.6 Decomposition 411**

Using the Computer 419

**APPENDIX A**

**Summation Notation A-1**

**APPENDIX B**

**Statistical Tables B-1**

**APPENDIX C**

**A Brief Introduction to Microsoft®  
Excel®, MINITAB®, and SAS® C**

**APPENDIX D**

**Matrices and Their Application  
to Regression Analysis D-1**

**APPENDIX E**

**Solutions to Selected Odd-Numbered  
Exercises E-1**

**REFERENCES R-1**

**INDEX I-1**
