

third edition

Computer-Integrated Manufacturing

James A. Rehg
Henry W. Kraebber

Contents

| | |
|---|-------------|
| Preface | xiii |
| PART 1 INTRODUCTION TO CIM AND THE MANUFACTURING ENTERPRISE | 1 |
| 1 The Manufacturing Enterprise | 3 |
| 1-1 Introduction | 3 |
| 1-2 External Challenges | 7 |
| 1-3 Internal Challenges | 10 |
| 1-4 World-Class Order-Winning Criteria | 15 |
| 1-5 The Problem and a Solution | 22 |
| 1-6 Learning CIM Concepts | 26 |
| 1-7 Going for the Globe | 28 |
| 1-8 Summary | 35 |
| Bibliography | 35 |
| Questions | 36 |
| Problems | 37 |
| Projects | 38 |
| Appendix 1-1: The Benefits of a CIM Implementation | 40 |
| Appendix 1-2: Technology and the Fundamentals of an Operation—Authors' Commentary | 41 |
| 2 Manufacturing Systems | 43 |
| 2-1 Manufacturing Classifications | 45 |
| 2-2 Product Development Cycle | 52 |

| | | |
|-----|--|----|
| 2-3 | Enterprise Organization | 54 |
| 2-4 | Manual Production Operations | 59 |
| 2-5 | Summary | 62 |
| | Bibliography | 63 |
| | Questions | 63 |
| | Projects | 64 |
| | Case Study: Evolution and Progress—One World-Class Company's Measurement System | 65 |
| | Appendix 2-1: CIM as a Competitive Weapon | 68 |

PART 2 THE DESIGN ELEMENTS AND PRODUCTION ENGINEERING 69

3 Product Design and Production Engineering 71

| | | |
|-----|---|-----|
| 3-1 | Product Design and Production Engineering | 72 |
| 3-2 | Organizational Model | 74 |
| 3-3 | The Design Process: A Model | 75 |
| 3-4 | Concurrent Engineering | 86 |
| 3-5 | Production Engineering | 93 |
| 3-6 | Summary | 102 |
| | Bibliography | 102 |
| | Questions | 103 |
| | Projects | 104 |
| | Case Study: Repetitive Design | 105 |

4 Design Automation: CAD and PDM 107

| | | |
|-----|---|-----|
| 4-1 | Introduction to CAD | 107 |
| 4-2 | The Cost of Paper-Based Design Data | 110 |
| 4-3 | CAD Software | 111 |
| 4-4 | CAD: Yesterday, Today, and Tomorrow | 121 |
| 4-5 | Application of CAD to Manufacturing Systems | 129 |
| 4-6 | Selecting CAD Software for an Enterprise | 129 |

| | | |
|-----|--|-----|
| 4-7 | Product Data Management | 134 |
| 4-8 | Summary | 136 |
| | Bibliography | 137 |
| | Questions | 137 |
| | Projects | 138 |
| | Appendix 4-1: Web Sites for CAD Vendors | 139 |
| | Appendix 4-2: B-Splines to NURBS | 140 |
| | Appendix 4-3: Web Sites for Computer Companies | 142 |

5 Design Automation: CAE **143**

| | | |
|-----|---|-----|
| 5-1 | Design for Manufacturing and Assembly | 144 |
| 5-2 | CAE Analysis | 152 |
| 5-3 | CAE Evaluation | 163 |
| 5-4 | Group Technology | 177 |
| 5-5 | Production Engineering Strategies | 184 |
| 5-6 | Design and Production Engineering Network | 204 |
| 5-7 | Summary | 210 |
| | Bibliography | 211 |
| | Questions | 212 |
| | Problems | 213 |
| | Projects | 213 |
| | Appendix 5-1: Ten Guidelines for DFA | 215 |
| | Appendix 5-2: Web Sites for CAE Vendors | 216 |
| | Appendix 5-3: Web Sites for Rapid Prototyping Vendors | 217 |

PART 3 CONTROLLING THE ENTERPRISE RESOURCES **219**

6 Introduction to Production and Operations Planning **221**

| | | |
|-----|--|-----|
| 6-1 | Operations Management | 222 |
| 6-2 | Planning for Manufacturing | 223 |
| 6-3 | MPC Model—Manufacturing Resource Planning (MRP II) | 228 |

- 6-4 Production Planning 234
- 6-5 Master Production Schedule 240
- 6-6 Inventory Management 245
- 6-7 Planning for Material and Capacity Resources 248
- 6-8 Introduction to Production Activity Control 252
- 6-9 Shop Loading 254
- 6-10 Input-Output Control 257
- 6-11 Automating the Planning and Control Functions 258
- 6-12 Summary 259
 - Bibliography 259
 - Questions 260
 - Problems 261
 - Projects 264
 - Appendix 6-1: Priority Rule Systems 265

7 Detailed Planning and Production-Scheduling Systems 271

- 7-1 From Reorder-Point Systems to Manufacturing Resource Planning (MRP II) 271
- 7-2 Material Requirements Planning 273
- 7-3 Capacity Requirements Planning 285
- 7-4 Manufacturing Resource Planning 288
- 7-5 Features of Modern Manufacturing Planning and Control Systems 291
- 7-6 Summary 300
 - Bibliography 302
 - Questions 303
 - Problems 304
 - Projects 305
 - Appendix 7-1: Wight's Bicycle Example 306
 - Appendix 7-2: ABCD Checklist 308
 - Appendix 7-3: An ERP Example Using WinMan 318

| | | |
|---------------|---|------------|
| 8 | Enterprise Resources Planning, and Beyond | 323 |
| 8-1 | MRP II: A Driver of Effective ERP Systems | 326 |
| 8-2 | Information Technology | 327 |
| 8-3 | The Decision to Implement an ERP System | 330 |
| 8-4 | Identifying ERP System Suppliers | 332 |
| 8-5 | Developing Technologies: Converging and Enabling | 335 |
| 8-6 | Integrating Systems to Manage Design Data | 341 |
| 8-7 | Summary | 348 |
| | Bibliography | 350 |
| | Questions | 351 |
| | Projects | 351 |
| 9 | The Revolution in Manufacturing | 352 |
| 9-1 | Just-in-Time Manufacturing | 353 |
| 9-2 | Synchronized Production | 364 |
| 9-3 | The Emergence of Lean Production | 366 |
| 9-4 | Modern Manufacturing Systems in a Lean Environment | 369 |
| 9-5 | Summary | 374 |
| | Bibliography | 375 |
| | Questions | 375 |
| | Projects | 376 |
| | Case Study: Production System at New United Motor Manufacturing, Part 1 | 376 |
| | Case Study: Production System at New United Motor Manufacturing, Part 2 | 378 |
| PART 4 | ENABLING PROCESSES AND SYSTEMS FOR MODERN MANUFACTURING | 383 |
| 10 | Production Process Machines and Systems | 385 |
| 10-1 | Material and Machine Processes | 387 |
| 10-2 | Flexible Manufacturing | 405 |
| 10-3 | Fixed High-Volume Automation | 413 |

- 10-4 Summary 417
- Bibliography 419
- Questions 420
- Projects 421
- Appendix 10-1: History of Computer-Controlled Machines 422

11 Production Support Machines and Systems 425

- 11-1 Industrial Robots 426
- 11-2 Program Statements for Servo Robots 448
- 11-3 Programming a Servo Robot 454
- 11-4 Automated Material Handling 461
- 11-5 Automatic Guided Vehicles 465
- 11-6 Automated Storage and Retrieval 476
- 11-7 Summary 480
- Bibliography 481
- Questions 481
- Projects 483
- Case Study: AGV Applications at General Motors 484

12 Machine and System Control 486

- 12-1 System Overview 487
- 12-2 Cell Control 493
- 12-3 Proprietary Versus Open System Interconnect Software 497
- 12-4 Device Control 499
- 12-5 Programmable Logic Controllers 500
- 12-6 Relay Ladder Logic 502
- 12-7 PLC System and Components 506
- 12-8 PLC Types 511
- 12-9 Relay Logic Versus Ladder Logic 513
- 12-10 Computer Numerical Control 521

- 12-11 Automatic Tracking 525
- 12-12 Network Communications 529
- 12-13 Summary 531
 - Bibliography 532
 - Questions 533
 - Projects 534
 - Appendix 12-1: Turning G Codes 535

13 Quality and Human Resource Issues in Manufacturing 537

- 13-1 Quality Foundations 538
- 13-2 Total Quality Management 543
- 13-3 Quality Tools and Processes 547
- 13-4 Defect-Free Design Philosophy 557
- 13-5 The Changing Workforce 561
- 13-6 Self-Directed Work Teams 562
- 13-7 Summary 567
 - Bibliography 569
 - Questions 569
 - Projects 570

Index 571
