DREAMWEAVER® 8

Training from the Source

Kristine Annwn Page

Table of Contents

	Introduction	xiii
LESSON 1	Dreamweaver 8 Basics	1
	Exploring the Workspace	
	Preparing to Develop Your Site	
	Defining a Local Site	
	Creating and Saving a New Page	
	Exploring the Tools	
	Working with Panels and Documents	
	Giving Your Page a Title	
	Specifying Preview Browsers	
	Exploring the Basics On Your Own	
LESSON 2	Adding Content to a Page	39
	Importing Text	
	Identifying Content Structure	
	Creating Line Breaks	
	Inserting a Nonbreaking Space	
	Aligning Text	
	Identifying Quotes	
	Making Lists	
	Making Definition Lists	
	Nesting Lists	
	Inline Character Formatting	
	Adding Special Characters	
	Creating Multilingual Documents	
	Adding Horizontal Rules	
	Adding a Date Automatically	
	Formatting Content On Your Own	

LESSON 3	Creating Links	71
	Specifying Link Color and Format	
	Creating Hypertext Links	
	Understanding Links and File Structure	
	Adding New Folders and Files to a Site	
	Creating a Site Map	
	Working with Links in Site Map View	
	Viewing a Subset of the Entire Site	
	Saving the Site Map	
	Targeting Links	
	Inserting and Linking to Named Anchors	
	Inserting E-mail Links	
	Working with Links On Your Own	
LESSON 4	Developing Style Sheets	107
	Specifying a Background Color	
	Changing the Font	
	Changing the Font Size	
	Specifying Font Color	
	Understanding Styles	
	Working With Internal Styles	
	Converting Internal Styles to External Styles	
	Linking to an Existing External Style Sheet	
	Creating External Styles	
	Creating Styles for Tag Combinations	
	Editing an Existing Style	
	Working with Style Precedence	
	Creating a Basic CSS Layout	
	Working With CSS On Your Own	
LESSON 5	Working with Graphics	169
	Using a Background Graphic	
	Placing Graphics on the Page	
	Resizing and Refreshing Graphics	
	Positioning Graphics	
	Adding a Border Around an Image	
	Assigning Image Names	
	Inserting an Image from the Assets Panel	

- Managing Images with the Favorites List
- Adjusting the Space Around an Image
- Inserting an Image Placeholder
- Replacing an Image Placeholder
- Setting Image-Editing Preferences
- Basic Image Editing
- Creating Graphic Links
- Creating Image Maps
- Using Graphics On Your Own

LESSON 6 Creating Tables 207

- Creating a Table
- Importing Spreadsheet Data
- Copying and Pasting Table Cells
- Selecting a Table
- Selecting and Formatting Table Cells
- Sorting a Table
- Modifying a Table
- Exporting a Table
- Using Images in Tables
- Nesting Tables
- Designing for Computer Screens
- Using Window Size to Check Layout
- Creating a Table in Layout View
- Modifying Table Layout
- Applying Cell Formatting
- Specifying Layout Width
- Using a Tracing Image

LESSON 7 Using Multimedia 255

- Creating Flash Text
- Modifying Flash Text
- Adding Flash Buttons
- Modifying Flash Buttons
- Adding Flash Animations
- Using the Image Viewer
- Embedding Quicktime Movies

LESSON 8	Adding User Interactivity	277
	Inserting a Rollover Image	
	Adding Behaviors	
	Swapping Multiple Images with One Event	
	Adding Behaviors to Image Maps	
	Editing Actions and Events	
	Creating a Status Bar Message	
	Checking the Browser	
	Opening a New Browser Window	
	Creating a Pop-Up Menu	
 LESSON 9	 Creating Layers	 307
	Creating Layers	
	Naming Layers	
	Modifying Layers	
	Changing the Stacking Order of Layers	
	Nesting and Unnesting Layers	
	Changing Layer Visibility	
	Setting Grid and Ruler Options	
	Using the Drag Layer Behavior	
	Using the Show-Hide Layers Behavior	
	Converting Layers to Tables	
	Using the Netscape Resize Layer Fix	
	Animating with Timelines	
	Understanding How Timelines Work	
	Timelines Panel	
	Adding an Object to a Timeline	
	Using Keyframes	
	Controlling Timelines with Behaviors	
	Positioning an Object	
	Recording the Path of a Layer	
	Changing Image Properties	
	Changing the Visibility and Size	
	Previewing the Animation in Dreamweaver	

LESSON 10	Creating Frames	351
	Creating a Frameset	
	Saving a Frameset	
	Resizing Frames in a Frameset	
	Specifying Frame Properties	
	Creating and Editing Frames Content	
	Creating Other Content Documents	
	Opening an Existing Page in a Frame	
	Checking Frame Content	
	Controlling Frame Content with Links	
	Creating NoFrames Content	
	Using Frames On Your Own	
 LESSON 11	 Creating Forms	 377
	Building Your Form	
	Grouping Form Content	
	Adding Single-Line Text Fields	
	Adding Radio Buttons	
	Adding Checkboxes	
	Adding List and Menu Items	
	Adding Multiline Text Fields	
	Adding Buttons	
	Creating Hidden Fields	
	Formatting Forms	
	Processing Forms	
	Testing Your Forms	
	Creating Jump Menus	
	Creating Forms On Your Own	
 LESSON 12	 Using Library Items	 413
	Creating a Library Item	
	Placing a Library Item on a Page	
	Re-creating a Library Item	
	Modifying a Library Item	
	Updating Library References	

LESSON 13	Using Templates	427
	Creating Templates	
	Adding Editable Areas to a Template	
	Removing Editable Regions	
	Creating Optional Content	
	Inserting Repeating Regions	
	Building Pages Based on a Template	
	Controlling Optional Content	
	Adding Repeating Entries	
	Modifying a Template	
	Creating Editable Tag Attributes	
	Modifying an Editable Tag Attribute	
	Creating Nested Templates	
 LESSON 14	 Managing Your Site	 459
	Using the Files Panel	
	Accessing Files Outside a Dreamweaver Site on Your Computer	
	Modifying Pages from the Files Panel	
	Connecting to a Remote Site	
	Uploading Files	
	Cloaking Files and Folders	
	Checking In and Checking Out	
	Using Design Notes	
	Exporting Site Definitions	
	Creating Server Connections	
	Enabling Contribute Compatibility	
 LESSON 15	 Accessibility and Testing	 497
	Testing for Accessibility	
	Checking Browser Compatibility	
	Checking Links in Your Site	
	Checking for Orphaned Files	
	Generating Reports for a Site	
	Checking Spelling	

LESSON 16 Editing the Code 515
Switching Document Views
Editing HTML in Code View
Using the Code Toolbar
Adjusting New Window Placement
Meta Tags
Using the Tag Inspector
Editing Code with Quick Tags
Using Snippets
Using Clean Up XHTML
Working with Microsoft Word HTML
Printing from Code View
Advanced Customization

LESSON 17 Using Find and Replace 549
Searching Your Document
Removing HTML Tags
Using Find and Replace to Attach External Style Sheets
Applying Custom Styles with Find and Replace
Saving and Reusing Your Search Criteria
Searching and Replacing with Regular Expressions
Finding Variations in a Name

APPENDIX A Regular Expressions 569

APPENDIX B Macintosh Shortcuts 571

APPENDIX C Windows Shortcuts 575

Index 579
